**Inmate Death at the MCC New York**

New York, NY: On Saturday, August 10, 2019, at approximately 6:30 a.m., inmate Jeffrey Edward Epstein was found unresponsive in his cell in the Special Housing Unit from an apparent suicide at the Metropolitan Correctional Center (MCC) in New York, New York. Life-saving measures were initiated immediately by responding staff. Staff requested emergency medical services (EMS) and life-saving efforts continued. Mr. Epstein was transported by EMS to a local hospital for treatment of life-threatening injuries, and subsequently pronounced dead by hospital staff. The FBI is investigating the incident.

Mr. Epstein was a 66-year-old male who arrived at MCC New York on July 6, 2019 under pretrial status after being indicted for sex trafficking of minors and conspiracy.

MCC New York is an Administrative security facility that currently houses 763 male offenders in New York, New York.

Additional information about the Federal Bureau of Prisons can be found at www.bop.gov.

###

# MCC NEW YORK UPDATES

## Correctional Services

### Inmate Accountability: SHU

- A whiteboard has been installed in the Special Housing Unit identifying the cell assignment of each inmate and pertinent information of each inmate which aids in accountability. This assists in correcting cell assignment discrepancies and aid in identifying programing needs (3 man hold, razor restriction, etc.).
- TDY Staff have been assisting Correctional Services with vacant positions; Correctional Officers, Lieutenant's and Deputy Captain.
- Addition to the Captains 2 hour SHU video review, IDO's are reviewing 6 hours of SHU video encompassing all three shift weekly.
- IDO's are conduction Bed book counts on weekends during the 10:00 am count.
- Single cell report emailed to the Warden each shift and receives approval memorandum for each.
- Morning Watch Lieutenant supervises one count in SHU and is documented in the LT's Log.

## Psychology

- Running Hospital Rosters Every Morning to see if inmates on SW are in the proper cells according to their Sentry assignments. Inconsistencies are reported the Associate Warden of Programs. Further, C&A is contacted to make appropriate corrections on the roster.
- Court rosters are reviewed every day to see if any Psy Alerts are going out to court so that we can check in with them upon their return.
- PSY ALERT inmate assignments are considered for inmates with ongoing risk factors associated with suicidality (e.g., sex offender status, high profile) even regardless of whether they exhibit substantial acute mental health symptoms.
- The Chief Psychologist has written a new procedural Memorandum for Psy Alert inmates which is undergoing review in Central Office.
- Psychology has been routing Hot List via e-mail to Lieutenant's and Executive Staff each time new inmates are added to the hot list.

# MCC NEW YORK UPDATES

- Psychology has been providing feedback at Executive Staff Meetings regarding inmates at-risk for suicidality and discussing cellmate placement (both GP and SHU) for inmates with significant mental health issues and suicide risk factors.
- When inmates are added and released from Suicide Watch, an email and a phone call is made to Warden and the Operations Lieutenant notifying them of the addition or termination of the watch as well as their need for cellmates. This recommendation is also placed in the Post Suicide Watch Report in PDS and the psychologist indicates exactly who they contacted about the inmate's need for a cellmate in the recommendation section of the report.
- Suicide Watch Books are reviewed daily by a psychologist and audited to see if the Unit Officer and Lieutenant make appropriate rounds and signed the log books each shift (MW, DW, and EW). Inconsistencies are sent to the Captain and Associate Warden of Programs.

## Correctional Systems

- Since September 9, 2019, inmates have been tracked when released from court by utilizing the PP63 Sentry function as opposed to tracking by out count. There has been no issues to date utilizing this procedure.

- All releases are being reviewed by a higher authority other than the CSO/SCSS. Typically reviewed by the Case Management Coordinator.

## Correctional Programs

**Inmate Accountability:**

- New bed books have been provided to each unit. A daily schedule of bed book counts has been established to ensure appropriate accountability of all inmates. Bed book counts are notated in the Daily Lieutenant Logs for Executive Staff review. Additionally, an Executive Staff member is present each evening to monitor this process and identify discrepancies. All discrepancies are typically corrected immediately.

# MCC NEW YORK UPDATES

- Daily Camera status reports of the status of high priority areas; SHU, 10 South, Suicided Watch, Female unit and 3 Sally.

**Facilities**

**Cameras:**

- The FBI removed the previous camera system (DVR) and the new system (NVR) has been installed and is operational. 13 Additional cameras have been added in SHU which are digital. Within the next 6 months additional cameras will be added to the system with a target completion date of April 2020.
- MCC has a total of 142 cameras. Currently, 141 cameras are connected to the NICE DVR System and are operational and recording. The 1 camera is inoperable and in the process of being replaced (bad camera). The anticipated date of completion is within the next two weeks.
- The new NVR has the capability to monitor and record 350 cameras. The following locations have been identified as needing coverage: elevators, receiving and discharge, all inmate housing units, sallyports, and outside perimeter.

**Summary**

- To date all information requested by OIG and FBI has been provided.
- Health Services has received the autopsy results from the NY Medical Examiner's office on inmate Epstein and is secured
- TDY staff assigned to NYM have all been hard working and team players.
- Staff morale at MCC New York is average in light of the most recent event; however, they are resilient and working hard as a team to move forward. They have embraced the TDY staff that have arrived and have been extremely courteous and receptive to ensure everyone works together.

# MCC NEW YORK UPDATES

**Current Assessment:**

Some of the issues identified are due to seriously reduced staffing levels, improper or lack of training, and follow up and oversight. Since January 1, 2019, MCC New York has hired 18 staff and lost 33 staff to retirement, and transfers within the BOP and other agencies.

To date approximately approximately 148 staff from multiple regions assisted NYM which we are very grateful for their assistance. All subject matter TDY staff are required to provide a report to the Warden prior to their departure. This report is similar to a Program Review report and includes areas of concern, tasks done well and recommendations. These reports will be shared with the Associate Wardens and Department Heads for guidance.

Further, to ensure the training and efforts that will occur is sustainable, there will need to be continuous oversight by leadership. Therefore, several positions will need to be added to the staff compliment, such as an Associate Warden over Correctional Services, a Deputy Captain, and an Assistant Case Management Coordinator, Assistant Food Services Administrator, to name a few.

New York, NY, 10065

Dear Mr. Epstein:

I am writing to express my condolences to you regarding the passing of your brother, Jeffrey Edward Epstein, who passed away Saturday, August 10, 2019.

On August 10, 2019, Jeffrey Edward Epstein was pronounced deceased at the New York Presbyterian-Lower Manhattan Hospital in New York, New York. At this time, although there are no preliminary reports identifying the exact cause of death, it appears to be the result of suicide.

Although I realize that words alone cannot lessen your sorrow, I hope that my thoughts and sincerest sympathy will be of some comfort to you.

Sincerely,

[redacted]
Warden

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

**2. 30 Minute Rounds**
The substance of the two hour Captain video review and six hour IDO video review is unclear. Please clarify the requirement for the Captain and IDO. Additionally, please identify the documentation used to maintain accountability of the reviews.

Institution Response:

Video review requirements have been instituted by NERO. Specifically, on Tuesday of each week, the institution is notified by NERO of the date, time, and SHU range in which to download video. The video is a two hour block. The video is to be reviewed by the Captain. During the reviews the Captain is looking for strict adherence to the requirements that rounds be conducted at least once during every 30-minute period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain will then submit an assurance memo to the institutional executive staff and Correctional Services Administrator (CSA) indicating the designated video footage was reviewed, and corrective actions which were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week. Institutional Duty Officers (IDOs) are required to review 6 hours of SHU video. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the IDOs for review. The IDOs are reviewing the video for accuracy of the 30 minute rounds. All reviews are documented in the weekly IDO Report.

EFTA00048652

**3. Cellmate Assignments**
Documentation exists reflecting the role of the local Psychology Services department in communicating the importance of Mr. Epstein's status as a sex offender with specific needs to the Associate Warden. This includes consultation with the Psychology Services Branch in Central Office. The communication chain and decision making of Executive Staff lacks transparency as there is no documentation of the process or staff members present when decisions were made about the housing of Mr. Epstein. After the fact explanations may not accurately reflect what occurred.

Institution Response:

As was noted, there was no documentation indicating Psychology Services was present when housing decisions were made regarding Mr. Epstein. Psychology services is present at the weekly SHU meeting, Executive Staff meetings, and weekly Opening and Close-Out meetings. During these meetings, the Chief Psychologist or Acting Chief Psychologist are present to provide recommendations and feedback to the Executive Staff on housing concerns regarding inmates with mental health issues or risk factors for suicidality. When an inmate presents with unique risk factors associated with individuals who have been charged with and/or convicted of a sex offense, careful evaluation is made with regard to housing these inmates with appropriate cellmates. Moving forward, a plan has been established to have a sign-in sheet and checklist at these meetings where housing issues are addressed, indicating who was present and what the housing plan is for these inmates with psychological concerns. These checklists will be maintained in a binder by the Associate Warden of Programs. Please see the attached checklist.

**4. Documentation Accuracy**
Professional responsibility requires taking into account multiple descriptions of an incident as noted in your response. However, when discrepancies exist these should be compiled and noted in documentation to decrease the likelihood of conflicting conclusions.

As noted in the reconstruction report, an incident report must be written within 24 hours of having the information that an inmate likely violated BOP rules. An incident report was written for Mr. Epstein prior to a determination of whether he engaged in self-directed violence or was assaulted on July 23, 2019. Staff had ample time to wait for the outcome of the SIS investigation of this incident. The incident report presumed self-directed violence, although SIS was not able to determine whether this incident was self-directed violence or an assault. Generating the incident report for self-directed violence is evidence of a local bias about the July 23, 2019, incident that still exists amongst some staff at MCC New York. Preconceived notions challenge the ability to remain open about alternative explanations, and subsequent systemic changes may be needed.

Please develop and provide local training for all staff that at a minimum reviews the time frame for writing incident reports and offers guidance when there is not clear evidence of an infraction. Include an outline of the training and evidence of staff who attended the training.

Institution Response:

Additional information (slides) has been included in our Annual Training presentations for Report Writing. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual Training. Annual Training began the week of January 6, 2020, and will continue through the week of March 8, 2020.

EFTA00048653

**5. Telephone Calls**
As noted in the response, there is a lack of documentation to substantiate that a lieutenant facilitated two telephone calls to Mr. Epstein. However, this does not address the report of two telephone calls being provided. This response implies that the reporting of two staff members is inaccurate.

The response neglects the documented telephone call to Mr. Epstein's deceased mother.

Institution Response:

On August 29, 2019, Warden [redacted], signed a referral related to [redacted] failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

**7. Follow-Up**
Please provide documentation for the follow-up training provided to staff detailing the content of the training and to whom it was provided.

Institution Response:

As recommended by Central Office, the Chief Psychologist has conducted suicide prevention trainings during Department Head Meetings, e-mail correspondence, SHU Staff Trainings, and Lieutenant's Trainings. The follow-up training sign-in sheets, Department Head Meeting Minutes, and e-mails provided by psychology staff regarding PSY ALERT Inmates are attached for your review.

**8. Inmate Accountability and Assignment Accuracy**
Periodic and unannounced checks are now conducted in SHU to determine pp30 assignments and actual inmate placement match. Please provide an operational definition of periodic. Please do the same for routine, as it relates Executive Staff bed book counts in all units. Where will the periodic and routine reviews be documented and will they include the identity (e.g., name and title) of staff who complete them?

Institution Response:

An Executive Staff and Duty Officer schedule has been implemented to conduct daily 4 P.M. and 10 A.M. weekend bed book counts. Any discrepancies noted are documented and sent via email to Unit Mangers and Captain at the conclusion of each count for corrective action. Please see the attached schedule.

**9. Attorney Log Books**
Please provide a copy of the log book audit.

Institution Response:

The audit revealed the **Random Visitor Log Book** did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness. The **Contractor/Volunteer Log Book** was not always filled in properly. The **Law Enforcement Log Book** was up to date; however, the time of departure was not always documented. The **Attorney Log** was missing inmate register numbers and more often than not was legible. There was no **Visitor Denial Log** created. The audit conducted on September 25, 2019, is attached for your review.

EFTA00048654

Additional corrective measures will now include the Activities Lieutenant checking all Front Lobby log books. The Captain will ensure these checks are included in the Lieutenant's Daily Log for Day Watch and Evening Watch. In addition, the Activities Lieutenant will address any discrepancies immediately through on the spot training and/or performance log entries.

**13. Sex Offense Risk Factors**

Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

Institution Response:

The MCC New York Executive Staff are out front talking about inmates with sex offenses, and expressing an understanding of sex offender dynamics, modeling agency expectations for the understanding and treatment of inmates with sex offenses. This is done through departmental meetings, trainings, staff recalls and walking and talking throughout the institution.

## Suicide Timeline:

## RE: Epstein, Jeffrey [redacted], Reg. No. 76318-054

### Friday, August 9, 2019

**8:00 am:** inmate Reyes Efrain, Reg. No. 85993-054 departs for court (WAB-USMS-SDNY). Reyes is Epstein's cellmate.

**8:30 am:** inmate Epstein arrives in Attorney Conference. He is visited by several attorneys throughout the day.

**6:45 pm:** inmate Epstein departs attorney conference and returns to SHU.

**7:00 pm:** inmate Epstein provided a social call by IDO. IDO reports inmate Epstein was in good spirits, nothing unusual.

### Saturday, August 10, 2019

**6:33 am:** Body alarm activated in SHU. Staff found inmate Epstein unresponsive in cell. Staff reported to bedside of inmate and attempted to wake him. Control announced medical emergency. CPR initiated

**6:35 am:** Medical staff (on duty PA) on site, CPR already in progress medical staff continues CPR and AED applied on inmate. Control called for ambulance

**6:40 am:** S. [redacted] notified

**6:45 am:** EMS arrives, paramedics continue CPR. Inmate Epstein remains unresponsive. Inmate Epstein is intubated, given three rounds of Epinephrine, IV access started, IO initiated. No pulse found, no shock advised, inmate prepared for transport to local hospital.

**7:00 am:** Institution placed on modified operations

**7:10 am:** EMS departs institution enroute to Beekman Hospital.

**7:19 am:** USMS notified of incident.

**7:20 am:** SIS Lt notified.

**7:30 am:** [redacted], Warden arrives at institution. [redacted], AW notified.

**7:32 am:** PIO notified of incident by the Warden.

**7:36 am:** Official time of death reported by ER physician.

**7:40 am:** Acting Chief Psychologist notified.

**8:00 am:** [redacted] and [redacted], Captain arrives at institution.

**8:10 am:** SIS Lt arrives at institution.

**8:10 am:** CMC and SCSS notified.

**8:34 am:** FBI notified.

**9:00 am:** AUSA notified.

**9:00 am:** [redacted] arrives at institution.

## Cont. Saturday, August 10, 2019

**9:00 am:** SIS Lt. Reports to SHU. Interviews will be conducted with inmates assigned to tier.

**9:15 am:** CMC arrives at institution.

**9:30 am:** Acting Chief Psychologist arrived to the institution.

**9:50 am:** SCSS arrives at institution.

**9:55 am:** CMC and IDO depart institution enroute to Beekman Hospital.

**10:00 am:** CMC and IDO arrive at Beekman Hospital, fingerprints and photographs taken of inmate Epstein. Inmate clothing secured and brought back to institution.

**10:00 am:** Judge Berman notified.

**10:15 am:** CMC returns to institution.

## Cont. Saturday, August 10, 2019

**10:45 am:** PIO arrived to the institution.

**11:00 am:** Next of kin (brother) notified by Case Management Coordinator.

**11:12 am:** Press Release released to media.

**11:15 am:** Press Release provided to Judge Berman.

**11:15 am:** Crisis Support Team activated.

**12:15 pm:** Body released to Medical Examiner (ME) for autopsy

**12:19 pm:** FBI arrives.

**1:35 pm:** FBI arrives in Special Housing Unit.

**1:40 pm:** OIG notified by the Warden and they will be sending an Agent to NYM.

**2:15 pm:** Crisis Support Team debrief conducted.

**2:45 pm:** OIG arrived in Special Housing Unit (SHU)
.
**3:45 pm:** OIG and FBI departed from SHU.

**5:05 pm:** OIG/FBI departed MCC New York.

**5:30 pm:** CST departed MCC New York.

**10:15 pm:** Computer Services Manager arrives at institution to remove hard drives (Computers) from SHU. And replaced with new ones.

## Sunday, August 11, 2019

**8:00 am:** Resumed normal operations. Attorney conference visits and social visits (Unit 3) resume.

**12:15 am:** Computer Services Manager departs the institution.

## Cont. Sunday, August 11, 2019

**10:40 am:** OIG Agent [redacted], [redacted] and Agent [redacted] arrives at institution.

**11:15 am:** OIG Agent [redacted] [redacted], departs institution with two computers FPS 021407270 and FPS 0214207268.

**2:00 pm:** OIG Agent [redacted] departs the institution.

## Monday, August 12, 2019

**1:00 pm:** Staff recall conducted

**3:14 pm:** FBI arrives

**7:56 pm:** FBI departs

**9:45 pm:** FBI returns

**10:30 pm:** FBI departs

## Tuesday August 13, 2019

**7:15 am:** Mr. [redacted], NER Correctional Services Administrator arrives to the institution

**7:25 am:** [redacted] National suicide prevention coordinator, and Dr. [redacted], National Sex offender program coordinator arrives to the institution.

**8:40 am:** Northeast Regional Director R. [redacted] arrives to the institution.

**Wednesday August 14, 2019**

11:30 am: FBI Agents arrive to work in communication room advised they will work through the night until next morning. NYM Facilities staff working in room also.

**Thursday August 15, 2019**

5:24 am: FBI agent departs communication room and secured the door with evidence tape.

8:30 am: NER Regional Director arrives to the institution.

9:30 am: ODAG arrives to the institution.

9:40 am: AUSA/FBI/OIG arrives to the institution.

11:30 am: FBI arrives to work in communication room.

12:00 am: AUSA/FBI/OIG departed the institution.

12:30 am: ODAG departs the institution.

4:52 pm: FBI Agents departs with all computer software from communication room new system running.

5:37 pm: Gave Facilities Manager receipt from FBI for computer system.

**U.S. Department of Justice**
Federal Bureau of Prisons

Metropolitan Correctional Center
[redacted]

Office of the Warden

January 14, 2020

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

The substance of the weekly video reviews by the Captain and IDO consists of a general review of randomly designated ranges and times, covering all three primary shifts, to ensure all SHU policies and procedures are being followed. Additionally, the reviews will ensure strict adherence to the requirements that rounds be conducted at least once during every 30-minute

EFTA00048661

period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain's reviews are documented in a memorandum that is submitted to institutional executive staff as well as the NERO Correctional Services Administrator. The IDO reviews are documented in their weekly report, with any misconduct being reported in a separate memorandum to the Warden and/or SIA.

The requirement is that the Captain will view two hours of Special Housing Unit archived video footage selected by the NERO. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the Captain for review. The footage is reviewed for any discrepancies and/or egregious security violations, which will be immediately addressed.

On Tuesday of each week, institutions will be notified of the date, time, and range in which to download SHU video. The video is to be reviewed by the Captain. Each Captain will submit an assurance memo to the CSA indicating the designated video footage was reviewed, and corrective actions were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week. If an institution does not have inmates on the specified range, then video will be downloaded from the next highest/lowest range. References to highest/lowest and even/odd ranges are the SENTRY designations. (i.e. Z01, Z03, Z05, etc. are odd ranges and Z02, Z04, Z06, etc. are even)

Institutional Duty Officers (IDO's) are required to review 6 hours of SHU video to review the accuracy of SHU 30 Min Rounds. All reviews are documented in a memorandum to the Warden for review.

3.Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens,

EFTA00048662

Warden and Psychology Services discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction team suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, Register Number 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

NYM Executive Staff conduct bed book audits Monday through Friday and the IDO conduct them on Weekends and Holidays. All discrepancies are noted and corrected ordinarily on the spot and or the next buisness day.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is

EFTA00048663

recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

EFTA00048664

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction team indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology staff considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

Regarding the Reconstruction team's concerns in reference to Mr. Epstein's expunged incident report, Special Investigative Services staff will conduct all investigations in matters of attempted suicide and make a determination as to whether an incident report is warranted.

The Reconstruction team stated medical staff conducted Inmate Epstein's Intake Screening late. SENTRY records reflect Inmate Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) [redacted] on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted] within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction team findings noted discrepancies in the procedures approved for Psychological Observation. The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, correctional staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as

prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

Two slides (slide numbers 23-24) have been added to the Annual Training slide show for the Report Writing class. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual Training that is already in progress.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

On August 29, 2019, Warden [redacted], signed a referral related to [redacted] failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology Staff is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As part of their signature block, all Psychology staff have added the following: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of

EFTA00048667

the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology Staff is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

The attached institutional procedural memorandum has been reviewed by Central Office Psychology Services and implemented by MCC New York Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a

EFTA00048668

member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality. Suicide Prevention and PSY ALERT Trainings have recently been conducted by the Psychology Services Department with Lieutenants and during a recent Department Head Meeting. Further, an e-mail regarding PSY ALERT procedures was sent to all Lieutenants, Receiving and Discharge (R&D), Psychology and Health Services staff.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have SENTRY Assignments of H01-001L – H01-004L. Further,

EFTA00048669

Psychology Services Department reviews suicide watch log books on a daily basis to assess whether the Lieutenants have conducted rounds during each shift and whether the Unit 2 Sallyport and Unit 2 Officer are conducting hourly rounds. Any inconsistencies noted in the logbooks by Psychology staff will be reported immediately to the Captain and the Associate Warden over Programs to address appropriately.

The Operations Lieutenant will physically check the PP30 Cell Assignment Roster when inmates are quartered on suicide watch. The Lieutenant will ensure the Counts and Assignments (C&A) Officer keys cell assignments correctly and annotate any errors in the daily log and contact the Captain immediately. Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 with the selection category for suicide watch. The Operations Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into accurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff by telephone when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the Warden upon receiving said notification. After consultation with the Warden, Psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant. Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results will be maintained by Correctional services in the Lieutenants Log. Morning Watch Lieutenant is responsible for observing one count during his or her shift in SHU which is documented daily in the Lieutenants Log.

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

Correctional Staff are required to perform routine rounds of the second floor suicide watch area every hour. On Day watch, Monday through Friday, the 2 Sally Officers are required to perform rounds on suicide watch inmates, as prescribed by the Captain. After hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 Officer assisting with duties as assigned by the Captain. To ensure that staff are informed of the importance of Suicide Prevention and responsibilities when one occurs. Lieutenants will reinforce the message through conference calls with staff. Roll Call notes will be placed on TRU Scope to notify staff of which inmates are currently on suicide watch.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

EFTA00048670

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

## Suicide Timeline:

## Re: Epstein, Jeffrey [redacted], Reg. No. 76318-054

**Friday, August 9, 2019**

8:00 am inmate Reyes Efrain, Reg. No. 85993-054 departs for court (WAB-USMS-SDNY). Reyes is Epstein's cellmate.

8:30 am inmate Epstein arrives in Attorney Conference. He is visited by several attorneys throughout the day.

6:45 pm inmate Epstein departs attorney conference and returns to SHU
7:00 pm inmate Epstein provided a social call by IDO. IDO reports inmate Epstein was in good spirits, nothing unusual.

***Inmate Reyes is released from court and does not return to the institution.

**Saturday, August 10, 2019**

6:33 am body alarm activated in SHU. Staff found inmate Epstein unresponsive in cell. Staff reported to bedside of inmate and attempted to wake him. Control announced medical emergency. CPR initiated
6:35 am medical staff (on duty PA) on site, CPR already in progress medical staff continues CPR and AED applied on inmate. Control called for ambulance
6:40 am [redacted] notified
6:45 am EMS arrives, paramedics continue CPR. Inmate Epstein remains unresponsive. Inmate Epstein is intubated, given three rounds of Epinephrine, IV access started, IO initiated. No pulse found, no shock advised, inmate prepared for transport to local hospital.
7:10 am EMS departs institution enroute to Beekman Hospital.
7:19 am USMS notified of incident.
7:20 am SIS Lt notified.
7:30 am [redacted], Warden arrives at institution. [redacted], AW notified.
7:32 am PIO notified of incident by the Warden
7:36 am official time of death reported by ER physician.
7:40 am Acting Chief Psychologist notified.
8:00 am [redacted] and Captain arrive at institution.

8:10 am SIS Lt arrives at institution.
8:10 am CMC and SCSS notified.
8:34 am FBI notified.
9:00 am AUSA notified.
9:00 am [redacted] arrives at institution.

**Cont. Saturday, August 10, 2019**

9:00 am SIS Lt. reports to SHU. Interviews will be conducted with inmates assigned to tier.
9:15 am CMC arrives at institution.
9:30 am Acting Chief Psychologist arrived to the institution.
9:50 am SCSS arrives at institution.
9:55 am CMC and IDO depart institution enroute to Beekman Hospital.
10:00 am CMC and IDO arrive at Beekman Hospital, fingerprints and photographs taken of inmate Epstein. Inmate clothing secured and brought back to institution.
10:00 am Judge Berman notified.
10:15 am CMC return to institution.
10:45 am PIO arrived to the institution.
11:00 am next of kin (brother) notified by Case Management Coordinator.
11:12 am press release is released to media.
11:15 am press release provided to Judge Berman.
11:15 am CST activated.
12:15 pm body released to Medical Examiner (ME) for autopsy
12:19 pm FBI arrives.
1:35 pm FBI arrives in Special Housing Unit.
1:40 pm OIG notified by the Warden and they will be sending an Agent to NYM.
2:15 pm CST debrief conducted.
2:45 pm OIG arrived in Special Housing Unit (SHU).
3:45 pm OIG and FBI departed from SHU.
5:05 pm OIG/FBI departed MCC New York.
5:30 pm CST departed MCC New York.
10:15 pm Computer Services Manager arrives at institution to remove hard drives (Computers) from SHU. And replaced with new ones.

**Sunday, August 11, 2019**

12:15 am Computer Services Manager departs the institution.

10:40 am OIG Agent [redacted], [redacted] and [redacted] arrives at institution.

11:15 am OIG Agent [redacted] [redacted], departs institution with two computers FPS 021407270 and FPS 0214207268.

2:00 pm OIG Agent [redacted] departs the institution.

**Monday, August 12, 2019**

10:00 am Warden departed to AUSA office for questioning.

12:50 am Warden arrives back from AUSA office.

**Tuesday August 13, 2019**

7:15 am Mr. [redacted], NER Correctional Services Administrator arrives to the insitution

7:25 am [redacted] National suisice prevention coordinator, and Dr. Christen ****** arrives to the institution.

8:40 am Northeast Regional Director R. [redacted] arrives to the institution.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

2. **30 Minute Rounds**
The substance of the two hour Captain video review and six hour IDO video review is unclear. Please clarify the requirement for the Captain and IDO. Additionally, please identify the documentation used to maintain accountability of the reviews.

Institution Response:

Video review requirements have been instituted by NERO. Specifically, on Tuesday of each week, the institution is notified by NERO of the date, time, and SHU range in which to download video. The video is a two hour block. The video is to be reviewed by the Captain. During the reviews the Captain is looking for strict adherence to the requirements that rounds be conducted at least once during every 30-minute period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain will then submit an assurance memo to the institutional executive staff and Correctional Services Administrator (CSA) indicating the designated video footage was reviewed, and corrective actions which were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week. Institutional Duty Officers (IDO's) are required to review 6 hours of SHU video. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the IDO's for review. The IDOs are reviewing the video for accuracy of the 30 minute rounds. All reviews are documented in the weekly IDO Report.

EFTA00048676

**3. Cellmate Assignments**

Documentation exists reflecting the role of the local Psychology Services department in communicating the importance of Mr. Epstein's status as a sex offender with specific needs to the Associate Warden. This includes consultation with the Psychology Services Branch in Central Office. The communication chain and decision making of Executive Staff lacks transparency as there is no documentation of the process or staff members present when decisions were made about the housing of Mr. Epstein. After the fact explanations may not accurately reflect what occurred.

Institution Response:

As was noted, there was no documentation indicating Psychology Services, was present when housing decisions were made regarding Mr. Epstein. Psychology services is present at the weekly SHU meeting, Executive Staff meetings, and weekly Opening and Close-Out meetings. During these meetings, the Chief Psychologist and/or Acting Chief psychologist are present to provide feedback and or recommendations to the Executive Staff on housing concerns regarding inmates with mental health issues or risk factors for suicidality. When an inmate presents with unique risk factors associated with individuals who have been charged with and/or convicted of a sex offense, careful evaluation is made with regard to housing these inmates with appropriate cellmates. Moving forward, a plan has been established to have a sign-in sheet and checklist at these meetings where housing issues are addressed, indicating who was present and what the housing plan is for these inmates with psychological concerns. These checklists will be maintained in a binder by the Associate Warden of Programs.

**4. Documentation Accuracy**

Professional responsibility requires taking into account multiple descriptions of an incident as noted in your response. However, when discrepancies exist these should be compiled and noted in documentation to decrease the likelihood of conflicting conclusions.

As noted in the reconstruction report, an incident report must be written within 24 hours of having the information that an inmate likely violated BOP rules. An incident report was written for Mr. Epstein prior to a determination of whether he engaged in self- directed violence or was assaulted on July 23, 2019. Staff had ample time to wait for the outcome of the SIS investigation of this incident. The incident report presumed self-directed violence, although SIS was not able to determine whether this incident was self-directed violence or an assault. Generating the incident report for self-directed violence is evidence of a local bias about the July 23, 2019 incident that still exists amongst some staff at MCC New York. Preconceived notions challenge the ability to remain open about alternative explanations, and subsequent systemic changes may be needed.

Please develop and provide local training for all staff that at a minimum reviews the time frame for writing incident reports and offers guidance when there is not clear evidence of an infraction. Include an outline of the training and evidence of staff who attended the training.

Institution Response:

Two slides (slide numbers 23-24) have been added to the Annual Training slide show for the Report Writing class. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual

EFTA00048677

Training that is already in progress.

**5. Telephone Calls**
As noted in the response, there is a lack of documentation to substantiate that a lieutenant facilitated two telephone calls to Mr. Epstein. However, this does not address the report of two telephone calls being provided. This response implies that the reporting of two staff members is inaccurate.

The response neglects the documented telephone call to Mr. Epstein's deceased mother.

Institution Response:

On August 29, 2019, Warden [redacted], signed a referral related to [redacted] failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

**7. Follow-Up**
Please provide documentation for the follow up training provided to staff detailing the content of the training and to whom it was provided.

Institution Response:

Psychology Services: Attached please find the follow-up training sign-in sheets, Department Head Meeting Minutes, and e-mails provided by psychology staff regarding Psy Alert Inmates. As recommended by Central Office, the Chief Psychologist has conducted suicide prevention trainings during Department Head Meetings, through e-mail correspondence, during SHU Staff Trainings, and during Lieutenant's Trainings.

**8: Inmate Accountability and Assignment Accuracy** Periodic and unannounced checks are now conducted in SHU to determine pp30 assignments and actual inmate placement match.
Please provide an operational definition of periodic. Please do the same for routine, as it relates Executive Staff bed book counts in all units. Where will the periodic and routine reviews be documented and will they include the identity (e.g., name and title) of staff who complete them?

Institution Response:

**9. Attorney Log Books**
Please provide a copy of the log book audit.

Institution Response:

Please see the attached audit which was conducted on September 25, 2019.

**13. Sex Offense Risk Factors**
Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by

Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

Institution Response:

The PREA Compliance Manager whom is an Associate Warden has been delegated the instructor for Sex offender specific dynamics and addressing inmate sexual misconduct.

Office of the Warden

January 20, 2020

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

Institution Response:

Video review requirements have been instituted by NERO. Specifically, on Tuesday of each week, the institution is notified by NERO of the date, time, and SHU range in which to download video. The video is a two hour block. The video is to be reviewed by the Captain. During the reviews the Captain is looking for strict adherence to the requirements that rounds be conducted at least once during every 30-minute period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain will then submit an assurance memo to the institutional executive staff and Correctional Services Administrator (CSA) indicating the designated video footage was reviewed, and corrective actions which were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week.
Institutional Duty Officers (IDO's) are required to review 6 hours of SHU video to review. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the IDO's for review. The IDOs are reviewing the video for accuracy of the 30 minute reviews. All reviews are documented in a memorandum to the Warden for review.

3.Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and

EFTA00048680

it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

Institution Response:

Psychology Services: As was noted, there was no documentation indicating Psychology Services, was present when housing decisions were made regarding Mr. Epstein. Psychology services is present at the weekly SHU meeting, Executive Staff meetings, and weekly Opening and Close-Out meetings. During these meetings, the Chief Psychologist and/or Acting Chief psychologist are present to give feedback to the Executive Staff on housing concerns regarding inmates with mental health issues or risk factors for suicidality. When an inmate presents with unique risk factors associated with individuals who have been charged with and/or convicted of a sex offense, careful evaluation is made with regard to housing these inmates with appropriate cellmates. Moving forward, a plan has been established to have a sign-in sheet and checklist at these meetings where housing issues are addressed, indicating who was present and what the housing plan is for these inmates with psychological concerns. These checklists will be maintained in a binder by the Associate Warden of Programs.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience

EFTA00048681

significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

EFTA00048682

Institution Response:

Two slides (slide numbers 23-24) have been added to the Annual Training slide show for the Report Writing class. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual Training that is already in progress.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

Institution Response:

On August 29, 2019, Warden [redacted], signed a referral related to [redacted] failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert

EFTA00048683

Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct, continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarter's roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarter's history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarter's history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four

H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

Institution Response:

Psychology Services: Attached please find the follow-up training sign-in sheets, Department Head Meeting Minutes, and e-mails provided by psychology staff regarding Psy Alert Inmates. As recommended by Central Office, the Chief Psychologist has conducted suicide prevention trainings during Department Head Meetings, through e-mail correspondence, during SHU Staff Trainings, and during Lieutenant's Trainings.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

Institution Response:

Please see the attached audit which was conducted on September 25, 2019.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

Institution Response:

The PREA Compliance Manager whom is an Associate Warden has been delegated the instructor for Sex offender specific dynamics and addressing inmate sexual misconduct.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

**2. 30 Minute Rounds**
The substance of the two hour Captain video review and six hour IDO video review is unclear. Please clarify the requirement for the Captain and IDO. Additionally, please identify the documentation used to maintain accountability of the reviews.

Institution Response:

Video review requirements have been instituted by NERO. Specifically, on Tuesday of each week, the institution is notified by NERO of the date, time, and SHU range in which to download video. The video is a two hour block. The video is to be reviewed by the Captain. During the reviews the Captain is looking for strict adherence to the requirements that rounds be conducted at least once during every 30-minute period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain will then submit an assurance memo to the institutional executive staff and Correctional Services Administrator (CSA) indicating the designated video footage was reviewed, and corrective actions which were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week. Institutional Duty Officers (IDOs) are required to review 6 hours of SHU video. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the IDOs for review. The IDOs are reviewing the video for accuracy of the 30 minute rounds. All reviews are documented in the weekly IDO Report.

EFTA00048687

**3. Cellmate Assignments**
Documentation exists reflecting the role of the local Psychology Services department in communicating the importance of Mr. Epstein's status as a sex offender with specific needs to the Associate Warden. This includes consultation with the Psychology Services Branch in Central Office. The communication chain and decision making of Executive Staff lacks transparency as there is no documentation of the process or staff members present when decisions were made about the housing of Mr. Epstein. After the fact explanations may not accurately reflect what occurred.

Institution Response:

As was noted, there was no documentation indicating Psychology Services was present when housing decisions were made regarding Mr. Epstein. Psychology services is present at the weekly SHU meeting, Executive Staff meetings, and weekly Opening and Close-Out meetings. During these meetings, the Chief Psychologist or Acting Chief Psychologist are present to provide recommendations and feedback to the Executive Staff on housing concerns regarding inmates with mental health issues or risk factors for suicidality. When an inmate presents with unique risk factors associated with individuals who have been charged with and/or convicted of a sex offense, careful evaluation is made with regard to housing these inmates with appropriate cellmates. Moving forward, a plan has been established to have a sign-in sheet and checklist at these meetings where housing issues are addressed, indicating who was present and what the housing plan is for these inmates with psychological concerns. These checklists will be maintained in a binder by the Associate Warden of Programs. Please see the attached checklist.

**4. Documentation Accuracy**
Professional responsibility requires taking into account multiple descriptions of an incident as noted in your response. However, when discrepancies exist these should be compiled and noted in documentation to decrease the likelihood of conflicting conclusions.

As noted in the reconstruction report, an incident report must be written within 24 hours of having the information that an inmate likely violated BOP rules. An incident report was written for Mr. Epstein prior to a determination of whether he engaged in self-directed violence or was assaulted on July 23, 2019. Staff had ample time to wait for the outcome of the SIS investigation of this incident. The incident report presumed self-directed violence, although SIS was not able to determine whether this incident was self-directed violence or an assault. Generating the incident report for self-directed violence is evidence of a local bias about the July 23, 2019, incident that still exists amongst some staff at MCC New York. Preconceived notions challenge the ability to remain open about alternative explanations, and subsequent systemic changes may be needed.

Please develop and provide local training for all staff that at a minimum reviews the time frame for writing incident reports and offers guidance when there is not clear evidence of an infraction. Include an outline of the training and evidence of staff who attended the training.

Institution Response:

Additional information (slides) has been included in our Annual Training presentations for Report Writing. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual Training. Annual Training began the week of January 6, 2020, and will continue through the week of March 8, 2020.

EFTA00048688

**5. Telephone Calls**
As noted in the response, there is a lack of documentation to substantiate that a lieutenant facilitated two telephone calls to Mr. Epstein. However, this does not address the report of two telephone calls being provided. This response implies that the reporting of two staff members is inaccurate.

The response neglects the documented telephone call to Mr. Epstein's deceased mother.

Institution Response:

On August 29, 2019, Warden [redacted], signed a referral related to [redacted] failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

**7. Follow-Up**
Please provide documentation for the follow-up training provided to staff detailing the content of the training and to whom it was provided.

Institution Response:

As recommended by Central Office, the Chief Psychologist has conducted suicide prevention trainings during Department Head Meetings, e-mail correspondence, SHU Staff Trainings, and Lieutenant's Trainings. The follow-up training sign-in sheets, Department Head Meeting Minutes, and e-mails provided by psychology staff regarding PSY ALERT Inmates are attached for your review.

**8. Inmate Accountability and Assignment Accuracy**
Periodic and unannounced checks are now conducted in SHU to determine pp30 assignments and actual inmate placement match. Please provide an operational definition of periodic. Please do the same for routine, as it relates Executive Staff bed book counts in all units. Where will the periodic and routine reviews be documented and will they include the identity (e.g., name and title) of staff who complete them?

Institution Response:

An Executive Staff and Duty Officer schedule has been implemented to conduct daily 4 P.M. and 10 A.M. weekend bed book counts. Any discrepancies noted are documented and sent via email to Unit Mangers and Captain at the conclusion of each count for corrective action. Please see the attached schedule.

**9. Attorney Log Books**
Please provide a copy of the log book audit.

Institution Response:

The audit revealed the **Random Visitor Log Book** did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness. The **Contractor/Volunteer Log Book** was not always filled in properly. The **Law Enforcement Log Book** was up to date; however, the time of departure was not always documented. The **Attorney Log** was missing inmate register numbers and more often than not was legible. There was no **Visitor Denial Log** created. The audit conducted on September 25, 2019, is attached for your review.

EFTA00048689

Additional corrective measures will now include the Activities Lieutenant checking all Front Lobby log books. The Captain will ensure these checks are included in the Lieutenant's Daily Log for Day Watch and Evening Watch. In addition, the Activities Lieutenant will address any discrepancies immediately through on the spot training and/or performance log entries.

**13. Sex Offense Risk Factors**

Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

Institution Response:

The MCC New York Executive Staff are out front talking about inmates with sex offenses, and expressing an understanding of sex offender dynamics, modeling agency expectations for the understanding and treatment of inmates with sex offenses. This is done through departmental meetings, trainings, staff recalls and walking and talking throughout the institution.

**DUTY OFFICER REPORT**

**DATE:** January 7, 2020

**FROM:** [redacted] Institution Duty Officer

**RE:** Duty Officer Report (December 31, 2019 to January 7, 2020)

**TO:** [redacted], Warden [redacted]

1. **OPERATIONS:**

Sanitation throughout the institution was good. The common areas in the housing units were sanitary and sally ports were within sanitation standards. The stairways and elevators do need some attention. During this tour, daily inmate counts were conducted and were completed with no concerns. Food Service menus were in compliance with the National Menu and there were no complaints regarding the meals during my tour. The inmates on the housing units were very pleased with the holiday meal. Visiting operations were examined. The institutional entry processing of visitors was conducted and visitors were processed with no concerns. Daily tours of the institution were made without incident and staff members were observed to be following security procedures throughout the institution.

2. **PROGRAMS & ACTIVITIES:**

Normal education and recreation programs were conducted during the tour. Religious Services were well attended and operated. On January 1, 2020, visits for 7 North and 7 South were cancelled due to limited staff availability.

3. **PSYCHOLOGICAL:**

**Suicide Watch:**

[redacted]

**Psychological Observation:**
N/A

**EMERGENCIES & UNUSUAL SITUATIONS:**

On January 01, 2020 at approximately 3:15 p.m., while performing routine duties inside the Special Housing Unit. Specifically, as staff restrained inmate Dockery, Martin Reg. No. 60685-054, inmate Favela, Feliciano Reg. No. 60103-380 through a closed fist punch at inmate Dockery. He immediately fell to the floor of the cell and began to kick inmate Favela in his lower extremities. Both inmates were given directives to cease their actions and submit to restraints. Inmate Favela was restrained and removed from the cell without incident. Inmate Dockery also was removed from the cell and escorted from the range. Both inmates were photographed and medically examined with minor injuries reported. Both inmates will remain in administrative detention pending the outcome of a disciplinary hearing. There were no injuries reported.

Preliminary investigation suggests that there was a disrespect issue that occurred earlier today. Inmate Favela when interviewed stated: that Dockery punched him in the face twice earlier today and he waited for an opportunity to retaliate. Inmate Dockery refused to answer any questions.

On January 3, 2020 at approximately 3:53 p.m., the Legal department was notified by the AUSA of the Southern District of New York to follow up on the defendant Miguel Colon. He informed his lawyer (who then informed AUSA in Magistrate Court) that he is suicidal. Miguel Colon #64736-054 arrived to MCC New York at approximately 5:40 p.m. and was placed on suicide watch for further review.

On January 4, 2020, at approximately 6:20 p.m. while conducting routine rounds inside Unit B-A. The Unit Officer was approached by an inmate, who identified two inmates that were fighting in the Library room. Both inmates were located and identified as, inmates Robert's, Adriene Reg. No. 86411-054 and Spinelli, Doreen Reg. No. 86961-054. Both inmates were restrained and removed from the unit without further incident. The inmates were photographed and medically examined with minor injuries reported. The inmates were transported to MDC Brooklyn for placement into administrative detention pending the outcome of an investigation. There were no staff injuries reported.

4. **STATISTICAL INFORMATION:**

## Unannounced Institutional Rounds

**Week of: 12/31/2019- 1/7/2020**

In order to have an effect on the deterrence of staff sexual abuse and sexual harassment, unannounced rounds will be conducted on a regular basis, weekly and on all shifts by intermediate and supervisory staff. Staff is prohibited from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

**Instructions: At the top of the form, fill in the date affecting the week of your tour of duty. As you conduct your unannounced rounds throughout the institution, enter the time you visited the area on the corresponding day of the week. At the end of the week, sign the form at the bottom and scan it to the Institution PREA Compliance Manager for retention.**

**DUTY OFFICER REPORT**

**DATE:** January 13, 2020

**FROM:** Nathaniel Bullock, Unit Manager, Institution Duty Officer

**RE:** Duty Officer Report (January 7, thru January 13, 2020)

**TO:** [redacted], Warden

1. **OPERATIONS:**

Institution operations ran smoothly and efficiently. Security in various areas of the institution was observed to be in accordance with policy

Food Service meals were served on schedule, and in compliance with the National Menu.

The institutional entry processing of visitors were conducted. Visitors were processed timely. Daily tours of the institution were conducted with three incidents. On January 9, 2020 while visual searching three inmates from 9 north, the Officers found cellular phone on three inmates. All three inmates were escorted to Special Housing Unit without incident.

2. **PROGRAMS & ACTIVITIES:**

Recreational activities were observed.

2. **EMERGENCIES & UNUSUAL SITUATIONS:**

On January 11, 2020 at approximately 6:35 pm., while conducting routine rounds inside of 9 north unit, staff was approached by an inmate identified as, Orsini-Quintero, Michol Reg. No. 19732-104, who reported that he was a victim of an assault. Staff immediately called for assistance and waited for responding staff to arrive. As staff entered the unit inmate Orsini-Quintero was searched, restrained and escorted to Special Housing Unit without incident. Upon being interviewed inmate Orsini-Quintero explained to staff that inmate Rojas, Adan Reg. No. 86117-054, approached him and told him to leave the tier, he refused, so inmate Rojas slapped him. Inmate Rojas was searched, restrained and escorted to Special Housing Unit without incident. 9 North unit was placed on modification for the remaining of the night. All notifications were made.

On January 12, 2020 at approximately 1:38 PM., several inmates went up to the Unit 2 Officer and reported that inmate Bond, Rene Reg. No. 54646-054 had taken a bunch of her blood pressure pills. Inmate Bond was immediately escorted to health services. Medical staff determined that inmate Bond had taken 10 to 15 of her prescribed blood pressure pills, (Odipine 10 mg). Poison Control was contacted, and inmate Bond was escorted to Beekman hospital by EMS. The on call psychologist was notified along with Commander Thomas. Once inmate Bond returns from the hospital it was determined by psychology that she should be placed on suicide watch.

a. **Suicide Watch**:

On October 7, 2019 inmate Olivo reg. No. 79945-054 was still on suicide watch from pervious Duty Officer tour.

b. **Observation of the M/W, D/W & E/W Counts via video.**

A review of the Special Housing Unit video was conducted on October 13, 2019, to determine whether rounds were conducted properly. It was determined that all staff conducted 30 minutes rounds within the times required by BOP Policy and Procedures.

c. **Bed book counts**

On Jauary 11, 2020, I conducted a bed book count on 11 South. The Base Count was 76. All inmates were assigned to their assigned beds. All Bedbook picture cards were available.

On January 12, 2020, I conducted a bed book count onl1 North. The Base count was 77. All inmates were assigned to the correct beds. All Bedbook picture cards were available.

4. **STATISTICAL INFORMATION:**

a. Count at Beginning/End of Tour: 769 / 776

b. Visiting:

| Date | Unit | Inmate | Adult | Children |

## Unannounced Institutional Rounds

**Week of: January 7, 2020 thru October 13, 2020**

In order to have an effect on the deterrence of staff sexual abuse and sexual harassment, unannounced rounds will be conducted on a regular basis, weekly and on all shifts by intermediate and supervisory staff. Staff are prohibited from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

**Instructions: At the top of the form, fill in the date affecting the week of your tour of duty. As you conduct your unannounced rounds throughout the institution, enter the time you visited the**

# Report Writing

"Back to the Basics"

Annual Training 2020

## Objectives

- Identify the elements of a well-written incident report
- Identify the elements of a well-written memorandum
- Discuss some of the most common grammatical errors
- Discuss some of the most commonly misspelled words
- Discuss some of the most commonly misused words
- Proofread for more effective report writing

2

EFTA00048712

## The Difference Between an IR and a Memorandum

### Incident Reports:

- Should be written whenever a staff member directly witnesses an inmate engaged in any type of misconduct or discovers any type of contraband that can be directly linked to an inmate

23

## The Difference Between an IR and a Memorandum

### Memorandums:

- Should be written whenever staff discover any ***evidence of misconduct*** that cannot immediately be linked to a specific inmate
- A memorandum is also used to inform other correctional staff of an incident or event that, in some cases, may need additional investigation

Federal Bureau of Prisons

*Metropolitan Correctional Center*
*New York*
150 Park Row
New York, New York 10007
(646) 836-6300

**MEMORANDUM FOR J. PETRUCCI, WARDEN, METROPOLITAN CORRECTIONAL CENTER, NEW YORK, NEW YORK**

**FROM:** Elissa R. Miller, Chief Psychologist, MCC New York

**THRU:** [redacted] Edge, Associate Warden, Programs, MCC New York

**SUBJECT:** **RESUBMITTAL OF PROCEDURAL MEMORANDUM FOR PSY ALERT INMATES**

1. PURPOSE: To establish procedures at the Metropolitan Correctional Center (MCC), New York, New York, with regard to inmates with a PSY ALERT assignment.

2. DEFINITION: The Case Management Activity (CMA) Psychology Alert (PSY ALERT) assignment is applied to inmates with substantial mental health concerns that require extra care when their housing is changed or they are transferred. Generally, the PSY ALERT assignment is to be applied in special mental health cases that will likely pose management and security concerns for the institution when an inmate's housing is changed or when a transfer occurs. The guiding principle of the PSY ALERT assignment is continuity of care. Inmates with a PSY ALERT assignment are reviewed by a psychologist upon arrival. Inmates with a PSY ALERT assignment must always have a face to face interview with a psychologist before releasing to general population. Placement in SHU in lieu of general population is not an acceptable alternative to a face to face interview with a psychologist. If an inmate with a PSY ALERT assignment arrives at the institution during a time period when no psychologist is scheduled to be on duty, the face to face interview is conducted by the Mental Health Duty Officer.

In addition, inmates with a PSY ALERT assignment are reviewed by a psychologist when under consideration for a transfer and when placed in restrictive housing. To ensure this review occurs, applicable inmates receive a PSY ALERT assignment in SENTRY, as described in the Program Statement 5324.007 SENTRY Psychology Alert Function. Enhanced psychological review procedures for inmates with a PSY ALERT assignment are detailed in the above Program Statement, as well as general guidelines for placing an inmate in PSY ALERT status.

3. PROCEDURES: The following are the local procedural guidelines for PSY ALERT Inmates:

   A. Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is no psychologist in the institution when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in Receiving and Discharge (R&D) and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

   B. Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

   C. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips.

   D. The Psychology Services Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Services Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of Psychology Services to assess whether a PSY ALERT inmate is scheduled to attend court the following day.

E. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

F. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Services Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

G. The Psychology Services Department will conduct training with R&D staff annually and upon re-issuance of this procedural memorandum, to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

# [redacted] - PSY ALERT INMATES: CHECK THE PP64 SCREENING FORM DAILY BEFORE RELEASING INMATES FROM R&D

**From:** [redacted]
**To:** Darden, Jermaine; NYM/Lieutenants; [redacted]; Proto, Rosa; R...
**Date:** 10/31/2019 10:46 AM
**Subject:** PSY ALERT INMATES: CHECK THE PP64 SCREENING FORM DAILY BEFORE RELEASING INMATES FROM R&D
**CC:** Aassiddaa, Joy; Black, Alicia; Eklund, Brett; Espinet, Stephen A.; F...
**BC:** [redacted], [redacted]
**Attachments:** Fwd: PSY ALERT INMATES: CHECK THE PP64 SCREENING FORM DAILY BEFORE RELEASING INMATES FROM R&D

---

See attached. Please forward to all intake screeners and R&D staff. I am not sure who is conducting the after hour intakes, but they must look at the bottom of the pp64 to see if the inmate is a PSY ALERT. If so, that inmate cannot leave R&D and be placed in GP or any other unit until screened by psychology. If it is after hours and no psychologist is available, the intake screener needs to alert the Operations Lt., who will contact psychology so that a psychologist can come in and screen them for appropriateness for GP. R&D should be running a pp44 and look under their CMA assignments. Thank you! [redacted]

# [redacted] - Bed Book Count - January 14, 2020 - Unit 11 South

**From:** [redacted]
**To:** Licon-Vitale, Marti
**Date:** 1/14/2020 5:01 PM
**Subject:** Bed Book Count - January 14, 2020 - Unit 11 South
**CC:** Bullock, Nathaniel; Darden, Jermaine; [redacted], [redacted]; Lupo, Rocco; N...

A bed book count was conducted in Unit 11 South and the following discrepancies were noted.

**1 inmate did not reflect the correct bed assignments in SENTRY:**
Pena, Joel, Register No. 87182-054 from K11-057U to K11-059U

**3 inmates need bed book cards:**
Reynolds, Arthur, Register No. 69739-054
Pena, Joel, Register No. 87182-054
Anderson, Maurice, Register No. 66504-054

**4 inmates need IDs**:
Paulino, Ramon, Register No. 85854-054
Green, Pierre, Register No. 87212-054
Martinez, Josiel, Register No. 76390-054
Arias-Vill, Walkin, Register No. 76388-054

Unit Manager Bullock corrected the assignment in SENTRY and printed bed book cards on the spot.

NYM/Lieutenants, Unit Manager, and IDO are included in this email as a courtesy. Thanks.

---

Good evening,

A bed book count was conducted on 9 south (SHU) this evening 12/19/2019 at the 4:00 pm count. The following discrepancies were found;

SENTRY change needed. Total count 62 in SHU, 3 inmates were keyed to the wrong cells and 2 inmates were keyed in SHU that were kicked out earlier in the day. Control and the unit officer were both notified and corrections were made on the spot.

Please see the attached roster for supporting documentation.

Ops Lt., Unit Manager, and IDO included in email as a courtesy.

Thank you

## NYM/Exec Assistant~ - Fwd: RE: 5 North & 5 South bed book count

**From:** Rocco Lupo
**To:** [redacted], [redacted]; Licon-Vitale, Marti; NYM/Exec Assistant~; NYM/Lieuten...
**Date:** 1/20/2020 7:14 AM
**Subject:** Fwd: RE: 5 North & 5 South bed book count

Good morning.

I conducted bed book counts in 5N and 5S on Sunday, January 19. The bed book count was in order in 5N. However 5S bed book count was not in order.
The following issues were present.

- Cards were missing.
- Cards were present in the book from inmates who left the institution.
- Inmates were not in the proper cells.

The Unit Officer corrected the issue with most of the cards at the conclusion of the count. However inmates will need to be moved into the proper cells or the SENTRY Roster will need to be updated.

Thank you

Rocco

**Attachments:** Untitled.PDF

---

A bed book count was conducted in Unit 9 South with the following discrepancies: Ensure that reference to a Bed Book Count with discrepancies are documented in the Lieutenant Daily Log

An audit of the Bed Book revealed that the follow inmate was missing a Door Card, Bed Book Card, and Board Card Estevez, Steven Reg, No. 86102-054

**The SHU OIC will create the following missing cards this evening.**

Inmates Parada- Ramirez, Oscar Reg. No. 57358-037 assigned ZO5--124 LAD incorrect bed assignment should reflect Z04- 205 LAD. Jerry Reyes assigned to Z05 - 118 LAD should reflect Z05- 117 LAD

**The SHU OIC will make necessary bed assignment changes in SENTRY.**

NYM/Lieutenants, Unit Managers, and IDO are included in this email as a courtesy. Thanks.

G0000 TRANSACTION SUCCESSFULLY COMPLETED

On Wednesday, September 25, 2019, a review of the following log books was conducted.

**FRONT LOBBY**

**Front Lobby Officer's Log Book**
**Social Visiting Log**
**Random Visitor Pat Search Log**
**Contractor/Volunteer Log Book**
**Law Enforcement Log Book**
**Attorney Logo Book**

---

**The following discrepancies were discovered:**

A) Random Visitor Log Book did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness.
B) Contractor/Volunteer Log Book. Although the book is up to date, the column indicating staff escort was not always filled in.
C) Law Enforcement Log Book was up to date; however, the time of departure was not always documented.
D) Attorney Log was missing inmate register numbers and more often than not was illegible.
E) There was no Visitor Denial Log

---

**ATTORNEY CONFERENCE**

**Legal Visit Log**
**Visual Search Log**

There were no discrepancies for the two Attorney Conference Logs listed above.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

**Institution Response:** 1. Single Cell Placement:

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048759

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. The C&A officer is responsible for entering the proper assignment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00048760

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology Services discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction team suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, Register Number 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative

Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of

EFTA00048762

16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction team indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology staff considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

Regarding the Reconstruction team's concerns in reference to Mr. Epstein's expunged incident report, Special Investigative Services staff will conduct all investigations in matters of attempted suicide and make a determination as to whether an incident report is warranted.

The Reconstruction team stated medical staff conducted Inmate Epstein's Intake Screening late. SENTRY records reflect Inmate Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) [redacted] on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted] within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction team findings noted discrepancies in the procedures approved for Psychological Observation. The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With

EFTA00048763

regard to suicide watch log books signatures, correctional staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m.

institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology Staff is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As part of their signature block, all Psychology staff have added the following: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology Staff is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

The attached institutional procedural memorandum has been reviewed by Central Office Psychology Services and implemented by MCC New York Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a

EFTA00048766

member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality. Suicide Prevention and PSY ALERT Trainings have recently been conducted by the Psychology Services Department with Lieutenants and during a recent Department Head Meeting. Further, an e-mail regarding PSY ALERT procedures was sent to all Lieutenants, Receiving and Discharge (R&D), Psychology and Health Services staff.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have SENTRY Assignments of H01-001L – H01-004L. Further,

EFTA00048767

Psychology Services Department reviews suicide watch log books on a daily basis to assess whether the Lieutenants have conducted rounds during each shift and whether the Unit 2 Sallyport and Unit 2 Officer are conducting hourly rounds. Any inconsistencies noted in the logbooks by Psychology staff will be reported immediately to the Captain and the Associate Warden over Programs to address appropriately.

The Operations Lieutenant will physically check the PP30 Cell Assignment Roster when inmates are quartered on suicide watch. The Lieutenant will ensure the Counts and Assignments (C&A) Officer keys cell assignments correctly and annotate any errors in the daily log and contact the Captain immediately. Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 with the selection category for suicide watch. The Operations Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into accurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff by telephone when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the Warden upon receiving said notification. After consultation with the Warden, Psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant. Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results will be maintained by Correctional services in the Lieutenants Log. Morning Watch Lieutenant is responsible for observing one count during his or her shift in SHU which is documented daily in the Lieutenants Log.

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

Correctional Staff are required to perform routine rounds of the second floor suicide watch area every hour. On Day watch, Monday through Friday, the 2 Sally Officers are required to perform rounds on suicide watch inmates, as prescribed by the Captain. After hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 Officer assisting with duties as assigned by the Captain. To ensure that staff are informed of the importance of Suicide Prevention and responsibilities when one occurs. Lieutenants will reinforce the message through conference calls with staff. Roll Call notes will be placed on TRU Scope to notify staff of which inmates are currently on suicide watch.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

EFTA00048768

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff have prepared and are awaiting approval of training and procedures to allow them to inspect institutional AEDs locally in between/in between outside inspections by Great Lakes Biomedical Services. A copy of the proposed procedures is attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

**Institution Response:** 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

EFTA00048769

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

**Institution Response:** 12. Staffing:

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse

EFTA00048770

Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

[redacted]

November 6, 2019

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

**Institution Response:** 1. Single Cell Placement:

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048773

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. The C&A officer is responsible for entering the proper assisgnment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for

EFTA00048774

psychological stability.

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, reg. no. 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that

an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and

EFTA00048776

signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

CORRECTIONAL SERVICES IN RE INCIDENT REPORT

The Reconstruction stated medical staff conducted Inmate Epstein's Intake Screening late. SENTRY records reflect Inmate Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) [redacted] on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted] within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction noted discrepancies in the procedures approved for Psychological Observation. The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour. The 2 Sally

EFTA00048777

Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, Elba Torres, Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-

EFTA00048778

mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As an automatic response to all incoming emails, all Psychology staff added the following auto-reply: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

EFTA00048779

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

An institutional procedural memorandum will be established by Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

EFTA00048780

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant . Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results are maintained by Correctional services in the Daily Log.

EFTA00048781

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

THE BELOW IS NOT RESPONSIVE. WE NEED A STATEMENT AS TO WHEN THE 3 ATTORNEY LOG BOOKS AND THE INMATE SEARCH LOGBOOK FROM ATTORNEY CONFERENCE WERE SECURED AND A PLAN TO PULL THEM IN THE EVENT OF ANY FUTURE SUICIDE IF APPLICABLE. WE ALSO NEED TO ADDRESS HOW THE LOGBOOKS WERE FIXED TO ENSURE ACCURATE DOCUMENTATION.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

EFTA00048782

**Institution Response:** 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only.
The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.
During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, STAFF MUST SIGN THE INMATE COMPANION LOG BOOK EVERY 60 MINUTES. Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. Every shift a Lieutenant will make rounds and remove the inmate from the cell and perform a cursory search.
No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens , pencils, or anything else not prescribe by Psychology staff should be in the cell.
The inmate will be outfitted in a (Suicide Preventive Smock, Suicide Preventive Blanket, Suicide Preventive Mattress and if necessary a Suicide Preventive Helmet). Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have Radios, MP-3 Players, Magazines, Books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on Suicide Watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

EFTA00048783

**Institution Response:** 12. Staffing:

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048785

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. C&A officer is responsible for entering the proper assisgnment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

2. Rounds: SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an (ORANGE) picture door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captian video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00048786

**Institution Response:** 3. Cellmate Assignments: Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Staff Attorney also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates that inmates at-risk for suicidality should celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

The psychological reconstruction suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to extort Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, reg. no. 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP
Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely

violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed
August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on
July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

**Institution Response:** 4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292's on a daily basis, and provide the Captain with an assurance memorandum. 292's will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OIC in a handwritten manner.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour.

EFTA00048788

The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

Inmate Jeffery Epstein #76318-05, arrived in the Receiving and Discharge (R&D), area, on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Health Services staff, Physician Assistant (PA) [redacted] on July 6, 2019, the same night he arrived in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted]. According to P6031.04, Patient Care, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening was conducted timely and in accordance to policy.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between
1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40
a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, M Coates then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted] error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower.
There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292. ,

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book;

EFTA00048789

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an
Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on
July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for
9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY.
Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he

EFTA00048790

was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained when they have concerns for an inmate's mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

EFTA00048791

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification/identification and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

An institutional procedural memorandum will be established by Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings, and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

EFTA00048792

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs ofnametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit. Periodic and un announced checks are conducted. Specifically, SENTRY Roster PP 30 Quarters assignments are audited daily by the assigned Lieutenant in the unit. Executive Staff conduct routine bed book counts in the unit. Procedures of how the count is conducted any discrepancies are identified and corrected. Results are maintained by Correctional services in Daily

EFTA00048793

Log.
In order to properly account for inmates in the unit, staff have informed not use the (Inmate Locator Form), due to forms inability as a reliable means for accounting for inmates and cell assignments. A Unit Accountability Board along with SENTRY PP 30 Quarters Roster has been placed in the unit to establish better oversight over inmate accountability.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books: Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only.
***The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.***
During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, ***STAFF MUST SIGN THE INMATE COMPANION LOG BOOK EVERY 60 MINUTES.*** Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. Every shift a Lieutenant will make rounds and remove the inmate from the cell and perform a cursory search.
No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens , pencils, or anything else not prescribe by Psychology staff should be in the cell.
The inmate will be outfitted in a ***(Suicide Preventive Smock, Suicide Preventive Blanket, Suicide Preventive Mattress and if necessary a Suicide Preventive Helmet)***.
*Inmate Companions will be searched prior to assuming duties.*
*Inmate Companions are not allowed to have Radios, MP-3 Players, Magazines, Books or anything that would distract them from maintaining constant supervision.*
*Inmate Companions will not have direct or physical contact with inmates on Suicide Watch.*

EFTA00048794

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct perspective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services, upon their arrival. It must be noted that the list reviewed by the reconstruction team was an old and outdated list (January 8, 2018).

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

**Institution Response:** 11. Post Orders & SHU Training
The Suicide Watch Post Orders **is** located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribe web-based training as identified on the agenda. Staff assigned to SHU and have not received the mandatory training before assuming post; will be roster adjusted to attend another training day as assigned by the Captain.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

**Institution Response:** 12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC

EFTA00048795

New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors
The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

Federal Bureau of Prisons

Office of the Warden

Metropolitan Correctional Center
[redacted]

November 1, 2019

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048797

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

2. Rounds: SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with (ORANGE) door to ensure staff are aware to take more security pre-cautions in dealing with this inmate.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted]

3. Cellmate Assignments: The psychological reconstruction suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to extort Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

EFTA00048798

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, reg. no. 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

3. Cellmate Assignments

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Staff Attorney also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates that inmates at-risk for suicidality should celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP
Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat

Assessment was completed
August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of S9licitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on
July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody

EFTA00048800

which was on July 6, 2019, according to P6031.04, Patient Care.

4. Inmate Jeffery Epstein #76318-05, arrived in the Receiving and Discharge (R&D), area, on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Health Services staff, Physician Assistant (PA) [redacted] on July 6, 2019, the same night he arrived in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted]. According to P6031.04, Patient Care, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening was conducted timely and in accordance to policy.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between
1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40
a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, M Coates then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted] error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower.
There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292. ,

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book;

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these

calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

5. There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an
Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on
July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for
9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY.
Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened
the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately

9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

7. Follow Up:

Staff have been trained when they have concerns for an inmate's mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification/identification and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the

EFTA00048803

institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

An institutional procedural memorandum will be established by Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings, and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August

EFTA00048804

10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs ofnametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit. Periodic and un announced checks are conducted. Specifically, SENTRY Roster PP 30 Quarters assignments are audited daily by the assigned Lieutenant in the unit. Executive Staff conduct routine bed book counts in the unit. Procedures of how the count is conducted any discrepancies are identified and corrected. Results are maintained by Correctional services in Daily Log.
In order to properly account for inmates in the unit, staff have informed not use the (Inmate Locator Form), due to forms inability as a reliable means for accounting for inmates and cell assignments. A Unit Accountability Board along with SENTRY PP 30 Quarters Roster has been placed in the unit to establish better oversight over inmate accountability.

EFTA00048805

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

9. Attorney Log Books: Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only.
***The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.***
During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, ***STAFF MUST SIGN THE INMATE COMPANION LOG BOOK EVERY 60 MINUTES.*** Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. Every shift a Lieutenant will make rounds and remove the inmate from the cell and perform a cursory search.
No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens , pencils, or anything else not prescribe by Psychology staff should be in the cell.
The inmate will be outfitted in a ***(Suicide Preventive Smock, Suicide Preventive Blanket, Suicide Preventive Mattress and if necessary a Suicide Preventive Helmet)***.
*Inmate Companions will be searched prior to assuming duties.*
*Inmate Companions are not allowed to have Radios, MP-3 Players, Magazines, Books or anything that would distract them from maintaining constant supervision.*
*Inmate Companions will not have direct or physical contact with inmates on Suicide Watch.*

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

10: A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct perspective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services, upon their arrival. It must be noted that the list reviewed by the reconstruction team was an old

EFTA00048806

and outdated list (January 8, 2018).

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

11. Post Orders & SHU Training

The Suicide Watch Post Orders **is** located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribe web-based training as identified on the agenda. Staff assigned to SHU and have not received the mandatory training before assuming post; will be roster adjusted to attend another training day as assigned by the Captain.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

13. Sex Offense Risk Factors

The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department

EFTA00048807

Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

**Suicide Timeline,**

**re: Epstein, Jeffrey [redacted], Reg. No. 73618-054**

**Friday, August 9, 2019**

8:00 am inmate Reyes Efrain, Reg. No. 85993-054 departs for court (WAB-USMS-SDNY). Reyes is Epstein's cellmate.
8:30 am inmate Epstein arrives in Attorney Conference. He is visited by several attorneys throughout the day.
6:45 pm inmate Epstein departs attorney conference and returns to SHU
7:00 pm inmate Epstein provided a social call by IDO. IDO reports inmate Epstein was in good spirits, nothing unusual.
7:32 am PIO notified of incident by the Warden
***Inmate Reyes is released from court and does not return to the institution.

**Saturday, August 10, 2019**

6:33 am body alarm activated in SHU. Staff found inmate Epstein unresponsive in cell. Staff reported to bedside of inmate and attempted to wake him. Control announced medical emergency. CPR initiated
6:35 am medical staff (on duty PA) on site, CPR already in progress medical staff continues CPR and AED applied on inmate. Control called for ambulance
6:40 am [redacted] notified
6:45 am EMS arrives, paramedics continue CPR. Inmate Epstein remains unresponsive. Inmate Epstein is intubated, given three rounds of Epinephrine, IV access started, IO initiated. No pulse found, no shock advised, inmate prepared for transport to local hospital.
7:10 am EMS departs institution enroute to Beekman Hospital.
7:19 am USMS notified of incident.
7:20 am SIS Lt notified.
7:30 am [redacted], Warden arrives at institution. [redacted], AW notified.
7:36 am official time of death reported by ER physician.
7:40 am Acting Chief Psychologist notified.
8:00 am [redacted] and Captain arrive at institution.
8:10 am SIS Lt arrives at institution.
8:10 am CMC and SCSS notified.
8:34 am FBI notified.

9:00 am AUSA notified.
9:00 am [redacted] arrives at institution.

**Cont. Saturday, August 10, 2019**

9:00 am SIS Lt. reports to SHU. Interviews will be conducted with inmates assigned to tier.
9:15 am CMC arrives at institution.
9:30 am Acting Chief Psychologist arrived to the institution.
9:50 am SCSS arrives at institution.
9:55 am CMC and IDO depart institution enroute to Beekman Hospital.
10:00 am CMC and IDO arrive at Beekman Hospital, fingerprints and photographs taken of inmate Epstein. Inmate clothing secured and brought back to institution.
10:00 am Judge Berman notified.
10:15 am CMC return to institution.
10:45 am PIO arrived to the institution.
11:00 am next of kin (brother) notified by Case Management Coordinator.
11:12 am press release is released to media.
11:15 am press release provided to Judge Berman.
11:15 am CST activated.
12:15 pm body release to Medical Examiner (ME) for autopsy
12:19 pm FBI arrives.
1:35 pm FBI arrives in Special Housing Unit.
1:40 pm OIG notified by the Warden and they will be sending an Agent to NYM.
2:15 pm CST debrief conducted.

**U.S. Department of Justice**

Federal Bureau of Prisons

Office of the Warden

Metropolitan Correctional Center
[redacted]

November 1, 2019

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048811

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. C&A officer is responsible for entering the proper assisgnment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

2. Rounds: SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an (ORANGE) picture door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captian video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00048812

**Institution Response:** 3. Cellmate Assignments: Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Staff Attorney also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates that inmates at-risk for suicidality should celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

The psychological reconstruction suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to extort Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, reg. no. 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP
Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely

violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed
August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on
July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

**Institution Response:** 4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292's on a daily basis, and provide the Captain with an assurance memorandum. 292's will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OIC in a handwritten manner.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour.

EFTA00048814

The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

Inmate Jeffery Epstein #76318-05, arrived in the Receiving and Discharge (R&D), area, on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Health Services staff, Physician Assistant (PA) [redacted] on July 6, 2019, the same night he arrived in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted]. According to P6031.04, Patient Care, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening was conducted timely and in accordance to policy.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between
1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40
a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, M Coates then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted] error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower.
There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292. ,

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book;

EFTA00048815

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an
Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on
July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for
9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY.
Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he

was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained when they have concerns for an inmate's mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

EFTA00048817

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification/identification and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

An institutional procedural memorandum will be established by Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings, and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

EFTA00048818

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs ofnametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit. Periodic and un announced checks are conducted. Specifically, SENTRY Roster PP 30 Quarters assignments are audited daily by the assigned Lieutenant in the unit. Executive Staff conduct routine bed book counts in the unit. Procedures of how the count is conducted any discrepancies are identified and corrected. Results are maintained by Correctional services in Daily

EFTA00048819

Log.
In order to properly account for inmates in the unit, staff have informed not use the (Inmate Locator Form), due to forms inability as a reliable means for accounting for inmates and cell assignments. A Unit Accountability Board along with SENTRY PP 30 Quarters Roster has been placed in the unit to establish better oversight over inmate accountability.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books: Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only.
***The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.***
During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, ***STAFF MUST SIGN THE INMATE COMPANION LOG BOOK EVERY 60 MINUTES.*** Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. Every shift a Lieutenant will make rounds and remove the inmate from the cell and perform a cursory search.
No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens , pencils, or anything else not prescribe by Psychology staff should be in the cell.
The inmate will be outfitted in a *(**Suicide Preventive Smock, Suicide Preventive Blanket, Suicide Preventive Mattress and if necessary a Suicide Preventive Helmet**).*
*Inmate Companions will be searched prior to assuming duties.*
*Inmate Companions are not allowed to have Radios, MP-3 Players, Magazines, Books or anything that would distract them from maintaining constant supervision.*
*Inmate Companions will not have direct or physical contact with inmates on Suicide Watch.*

EFTA00048820

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct perspective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services, upon their arrival. It must be noted that the list reviewed by the reconstruction team was an old and outdated list (January 8, 2018).

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

**Institution Response:** 11. Post Orders & SHU Training
The Suicide Watch Post Orders **is** located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribe web-based training as identified on the agenda. Staff assigned to SHU and have not received the mandatory training before assuming post; will be roster adjusted to attend another training day as assigned by the Captain.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

**Institution Response:** 12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC

EFTA00048821

New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors
The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

**MEMORANDUM FOR [redacted] WARDEN, METROPOLITAN CORRECTIONAL CENTER, NEW YORK, NEW YORK**

**FROM:** [redacted], PsyD, Chief Psychologist, MCC New York

**THRU:** [redacted], Associate Warden, Programs, MCC New York

**SUBJECT:** **RESUBMITTAL OF PROCEDURAL MEMORANDUM FOR PSY ALERT INMATES**

1. PURPOSE: To establish procedures at the Metropolitan Correctional Center (MCC), New York, New York, with regard to inmates with a PSY ALERT assignment.

2. DEFINITION: The Case Management Activity (CMA) Psychology Alert (PSY ALERT) assignment is applied to inmates with substantial mental health concerns that require extra care when their housing is changed or they are transferred. Generally, the PSY ALERT assignment is to be applied in special mental health cases that will likely pose management and security concerns for the institution when an inmate's housing is changed or when a transfer occurs. The guiding principle of the PSY ALERT assignment is continuity of care. Inmates with a PSY ALERT assignment are reviewed by a psychologist upon arrival. Inmates with a PSY ALERT assignment must always have a face to face interview with a psychologist before releasing to general population. Placement in SHU in lieu of general population is not an acceptable alternative to a face to face interview with a psychologist. If an inmate with a PSY ALERT assignment arrives at the institution during a time period when no psychologist is scheduled to be on duty, the face to face interview is conducted by the Mental Health Duty Officer.

In addition, inmates with a PSY ALERT assignment are reviewed by a psychologist when under consideration for a transfer and when placed in restrictive housing. To ensure this review occurs, applicable inmates receive a PSY ALERT assignment in SENTRY, as described in the Program Statement 5324.007 SENTRY Psychology Alert Function. Enhanced psychological review procedures for inmates with a PSY ALERT assignment are detailed in the above Program Statement, as well as general guidelines for placing an inmate in PSY ALERT status.

3. PROCEDURES: The following are the local procedural guidelines for PSY ALERT Inmates:

   A. Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is no psychologist in the institution when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in Receiving and Discharge (R&D) and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

   B. Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

   C. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips.

   D. The Psychology Services Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Services Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of Psychology Services to assess whether a PSY ALERT inmate is scheduled to attend court the following day.

E. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

F. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Services Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

G. The Psychology Services Department will conduct training with R&D staff annually and upon re-issuance of this procedural memorandum, to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York [redacted]

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

**Institution Response:** 1. Single Cell Placement:

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00048826

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. The C&A officer is responsible for entering the proper assignment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted] Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00048827

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology Services discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction team suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, Register Number 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative

EFTA00048828

Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of

EFTA00048829

16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction team indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology staff considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

Regarding the Reconstruction team's concerns in reference to Mr. Epstein's expunged incident report, staff shall continue to follow Program Statement 5270.09, *Inmate Discipline Program* in writing incident reports as appropriate. As more complex matters (including attempted suicide) warrant, Special Investigative Services staff will conduct appropriate investigations and make a determination as to whether an incident report is warranted. Psychology Services staff will also be consulted where their expertise is required.

The Reconstruction team stated medical staff conducted Mr. Epstein's Intake Screening late. SENTRY records reflect Mr. Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) [redacted] on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted] within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction team findings noted discrepancies in the procedures approved for Psychological Observation.

EFTA00048830

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, correctional staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology Staff is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As part of their signature block, all Psychology staff have added the following: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact

(verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology Staff is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

The attached institutional procedural memorandum has been reviewed by Central Office Psychology Services and implemented by MCC New York Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

EFTA00048833

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality. Suicide Prevention and PSY ALERT Trainings have recently been conducted by the Psychology Services Department with Lieutenants and during a recent Department Head Meeting. Further, an e-mail regarding PSY ALERT procedures was sent to all Lieutenants, Receiving and Discharge (R&D), Psychology and Health Services staff.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate Patrick Avila (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily SENTRY roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with

EFTA00048834

the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have SENTRY Assignments of H01-001L – H01-004L. Further, Psychology Services Department reviews suicide watch log books on a daily basis to assess whether the Lieutenants have conducted rounds during each shift and whether the Unit 2 Sallyport and Unit 2 Officers are conducting hourly rounds. Any inconsistencies noted in the logbooks by Psychology staff will be reported immediately to the Captain and the Associate Warden over Programs to address appropriately.

The Operations Lieutenant will physically check the PP30 Cell Assignment Roster when inmates are quartered on suicide watch. The Lieutenant will ensure the Counts and Assignments (C&A) Officer keys cell assignments correctly and annotate any errors in the daily log and contact the Captain immediately. Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 with the selection category for suicide watch. The Operations Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into accurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff by telephone when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the Warden upon receiving said notification. After consultation with the Warden, Psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant. Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results will be maintained by Correctional services in the Lieutenants Log. The Morning Watch Lieutenant is responsible for observing one count during his or her shift in SHU which is documented daily in the Lieutenants Log.

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

Correctional Staff are required to perform routine rounds of the second floor suicide watch area every hour. On Day watch, Monday through Friday, the 2 Sally Officers are required to perform rounds on suicide watch inmates, as prescribed by the Captain. After hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 Officer assisting with duties as assigned by the Captain. To ensure that staff are informed of the importance of Suicide Prevention and responsibilities when one occurs. Lieutenants will reinforce the message through conference calls with staff. Roll Call notes will be placed on TRUSCOPE to notify staff of which inmates are currently on suicide watch.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible

EFTA00048835

evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff provides training and conducts monthly inspections of all AEDs in the institution. Great Lakes Biomedical Services, an outside contractor, conducts a bi-annual inspection and provides a report. Procedures on inspecting all AEDS in the institution have been prepared and are awaiting approval. These procedures are attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

**Institution Response:** 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books.

EFTA00048836

All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

With regard to SHU Suicide Prevention training, this continues to be conducted on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book in which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

EFTA00048837

**Institution Response:** 12. Staffing:

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff meetings, Department Head meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

**MEMORANDUM FOR** [redacted] **M.D., MEDICAL DIRECTOR**
**WASHINGTON, DC** [redacted]

**FROM:** [redacted], Warden

**SUBJECT:** Multi-Level Mortality Chart Review
Consultant's Comments

This memorandum is in response to the multi-level mortality review dated October 29, 2019, whereas, several recommendations were made concerning the Automated External Defibrillators (AEDs) at MCC New York.

Please see the attachment, which addresses your recommendations. If you have any questions or concerns, please do not hesitate to contact me at [redacted].

**MCC New York**

**Procedures for Monitoring, Testing and Inspecting Automated External Defibrillators (AEDs)**

This procedural statement outlines procedures for monitoring, inspecting and testing all Automated External Defibrillators (AED) at MCC New York.

1. Every month, the Health Services Administrator (HSA) or designee will conduct an inspection and testing of all AEDs and document the findings on an inspection form. The inspection will consists of inspecting the condition of the batteries and pads and checking the expiration date, control number and location of all AEDs in the institution, to ensure they are properly functioning. All AEDs "in service and out of service" will be tested. This information will be reported to the quarterly Governing Body meeting, for one year.

2. All AEDs will be inspected and tested bi-annually by the contract biomedical company and a report will be provided by the company.

3. Back up batteries (LIFEPAK 1000) are available and are checked as per the manufacturer's recommendations, which are:

a. Inspect the fuel gauge, which provides an easy way to determine the available battery capacity.
b. Do not attempt to recharge.
c. Do not allow electrical connection between the battery contacts.
d. Use and store batteries in a location where temperatures are between 20° and 30°C (68° and 86°F). Higher temperatures accelerate the loss of charge and decrease battery life. Lower temperatures reduce battery capacity.
e. Dispose of expired or depleted nonrechargeable batteries according to national, regional and local regulations for battery disposal.

**MEMORANDUM FOR** [redacted] **REGIONAL DIRECTOR**

**FROM:** [redacted], Warden

**SUBJECT:** Request for Renewal of the SW Room Waiver

We are requesting the annual renewal of the suicide watch room waiver from Program Statement 5324.05, Suicide Prevention Program. On June 18, 2018, [redacted], Regional Director, approved the use of additional suicide prevention rooms based on the unique custody and security requirements of this facility. This wavier is always reviewed on a yearly basis. Furthermore, it is worth noting the cells have been renovated to meet the requirements for a suicide prevention room. The additional suicide prevention rooms are as follows:

- 1 room on 9 South (Special Housing Unit)
- 2 rooms on 10S Lower – (H Tier-Administrative Maximum Detention)
- 1 room on Unit 2 (Female Unit)
- 1 room on the WITSEC Unit.

If you have any questions or concerns, please do not hesitate to contact me.

MEMORANDUM FOR [redacted], ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: [redacted], Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

1.Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

EFTA00048844

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

Psychology verbally notifies the Lieutenant when inmates are removed from suicide watch and communicates to the Lieutenant that they will need to be placed with a cellmate (Providing direct communication and instructions). Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by [redacted], input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, [redacted] sent an e-mail to [redacted], Associate Warden explaining a consultation between [redacted] and Dr. [redacted], National Suicide Prevention Coordinator. In the e-mail, [redacted]

3. Cellmate Assignments: The psychological reconstruction suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to extort Mr. Epstein.

EFTA00048845

Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, reg. no. 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

3. Cellmate Assignments

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Staff Attorney also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates that inmates at-risk for suicidality should celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, [redacted] documented information received from Operations Lieutenant [redacted] that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer [redacted], who responded to this emergency, wrote a memorandum dated July 23,

2019. In that memorandum, Officer [redacted] wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer [redacted] wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP
Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative Services Threat Assessment was completed
August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self-directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

[redacted] entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of S9licitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document.
Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both

EFTA00048847

Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide or observation watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

[redacted] completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

[redacted], Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

4: Inmate Jeffery Epstein #76318-05, arrived in the Receiving and Discharge (R&D), area, on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Health Services staff, Physician Assistant (PA) [redacted] on July 6, 2019, the same night he arrived in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA [redacted]. According to P6031.04, Patient Care, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening was conducted timely and in accordance to policy.

[redacted] was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. [redacted] mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. [redacted], Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of [redacted]' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. [redacted], Associate Warden to [redacted] with a carbon copy to Warden [redacted] on August 12, 2019. Of note, [redacted] did not make an entry explaining why she was making the log book changes. Additionally, [redacted] then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by [redacted] nor was [redacted] assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why [redacted] attempted to correct [redacted]' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

EFTA00048848

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower.
There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292. ,

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book;

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of 16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

5. Telephone Calls: In a PDS-BEMR note written by [redacted] on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager [redacted] on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. [redacted] (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.
Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told [redacted] he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

5. There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

EFTA00048849

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

6.Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7.Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, [redacted], Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to [redacted] and [redacted] and Lieutenant [redacted] later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was

7. Follow Up:

Staff have been trained when they have concerns for an inmate's mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed more immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

An institutional procedural memorandum will be established by Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings, legal hearings, and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

EFTA00048851

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

okay, and he reportedly said he was. However, [redacted] noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant [redacted] opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if [redacted] was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When [redacted] opened the e-mail the following Monday morning, Mr. Epstein was evaluated by [redacted] at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., [redacted] sent [redacted] an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by [redacted] for a suicide risk assessment

on August 1, 2019, at approximately 1:30 p.m.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate [redacted] (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs ofnametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell

EFTA00048853

assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

10: A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct perspective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services, upon their arrival. It must be noted that the list reviewed by the reconstruction team was an old and outdated list (January 8, 2018).

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer [redacted] failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer [redacted], Officer [redacted], and Officer [redacted].

11. Post Orders & SHU Training
The Suicide Watch Post Orders **is** located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

EFTA00048854

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

13. Sex Offense Risk Factors

The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

MEMORANDUM FOR [redacted], WARDEN
MCC NEW YORK

FROM: [redacted] Regional Director
Northeast Region

SUBJECT: After Action Review Team

On August 14, 2019, a team of staff will arrive at MCC New York to perform an After Action Review on the apparent suicide of Inmate Jeffrey Epstein Reg. No. 76318-054. The duration of this visit will be fluid and conclude once the assessments are complete. During this visit, the teams will work largely independently, but may require your staff to perform specialized tasks or be available for interviews, etc. Please ensure your staff are responsive to the team's requests.

Upon arrival, the team will begin their assessments without delay. [redacted], Regional Director, Southeast Region, and the team will meet with you to discuss the plan for the week. I am requesting you have a staff member from Computer Services available to assist with any network needs that may arise. If feasible, any videos or electronic records must be available for the team to review independently. It may be necessary to utilize external hard drives or allow team members temporary access to a local drive. Several team members will have government issued laptops for use during this review.

As mentioned, ensure your staff are available and responsive. Also, advise your local union of this visit. Union representation should be quickly accessible should the need arise.

The team members are:

[redacted] Regional Director, SER
[redacted] Correctional Services Administrator, SER
[redacted] Health Services Administrator, SER
[redacted] Chief Psychologist, FCI Tallahassee
[redacted] Correctional Programs Administrator, Correctional Programs Division, Central Office
[redacted] Associate Warden, FMC Carswell
[redacted] Captain, FCI Talladega

Should you have any questions, please give me a call.

# Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Correctional Center

[redacted]

July 23, 2019

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** [redacted], Material Handler Supervisor [redacted]

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., the Control Center announced a call for assistance on the Special Housing Unit. Upon my arrival to 9-South, I/M Epstein, Jeffrey #76318-054 was lying on the floor of his cell handcuffed. I assisted with carrying inmate Epstein to HA-Unit on a stretcher, where he was dressed in a suicide smock and placed on Suicide Watch observation with staff.

Sexual Assault: No

## Section 4: Lethal Weapon Discharge

No data found.

## Section 5: Use of Force

No data found.

## Section 6: Description of Incident

DESCRIPTION OF INCIDENT (If Use Of Force, include details such as name of supervisor applying the chemical agent and/or restraints, reasons for use of hard restraints instead of soft restraints, etc.) Please be clear about cause(s) of the incident in your description.

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erthema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. There were no staff injuries reported.

# Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Correctional Center

[redacted]

July 23, 2019

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** [redacted] Operations Lieutenant

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. While awaiting the arrival of an inmate companion, inmate Epstein sat on the edge of the bed and began moving forward as if he was attempting to fall over head first. When I looked away, he straightened up. As I turned to look at him again, he attempted the same act. I laid him down on the bed and directed him to cease his action or he would be placed in restraints for his safety. At that moment, he stated, "Okay, I won't do it again," and gave the thumbs up. Because of his unpredictable behavior, the decision was made to have a staff member observe inmate Epstein. I left HA-Unit in order to make staff notifications. Moments later, I spoke with [redacted] who stated that inmate Epstein was alert and had indicated that his cellmate, Tartaglione, Nicholas #78514-054 had attempted to kill him and had been harassing him. He stated that the inmate had indicated that he'd informed his attorney of this matter.

I photographed and spoke with inmate Tartaglione, Nicholas #78514-054 who stated that he was asleep with his headphones on when he felt something hit his legs and said, "Jeff, what you're doing?" He didn't answer, so he got up, turned on the light and saw him with a string around his neck. He stated that he then called the guards and

COPY 7-23-19

they ran down. Upon further questioning, inmate Tartaglione stated that he sleeps on the bottom bunk, but gave it to inmate Epstein because he's old. He stated that he sleeps on the floor on a mattress. He stated that when he got up, he couldn't remember if he sat up or stood up to check on Epstein. He stated that Epstein was sitting on the floor leaning to the side with his eyes opened, but wasn't responding. He stated that the last time he saw him he was snoring really loud.

Inmate Epstein stated that he came in from a legal visit at approx. 8:00PM and staff handed him a copy of the Daily News. "Nick" was on the floor reading the Daily News. He stated that he had given it to him. He stated that Tartaglione mentioned that he'd been in court all day in Westchester and was carrying on. At that point, inmate Tartaglione paused as if he was making the story up as he went along, and stated that Tartaglione stated, "These fucking niggers. This place is inhumane, I wish I could report it. [redacted] (Officer), that nigger hobbit mother fucker." He then turned to a page in the Daily News that had his picture on it and stated that Epstein was worth seventy seven million dollars. Epstein stated that he took his picture, balled it up and threw it in the garbage. I asked inmate Epstein what happened prior to staff's arrival. He stated that at approx. 1:00 AM, he'd gotten up to get a drink of water, as he gets up every thirty minutes. He remember walking back to his bunk and waking up with staff there in his cell. I asked if he'd waken up and seen staff, why didn't he respond when we were calling out to him? He stated that he only remembered hearing himself making a noise like snoring. When asked about the allegations against his cellmate, he stated that he was told, if he hurt him, staff wouldn't care.

Duty medical, [redacted] was notified and briefed. It was determined no further medical attention was needed. A medical assessment was not conducted at the time of this incident, due to the fact, there was no medical staff available after 10:00 PM.

Upon the arrival of medical staff, inmate Epstein was examined and treated by, [redacted] for a circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

## MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

**DATE: 07-23-2019**

**TO: Ops** [redacted]

**FROM: S/O/S** [redacted]

**SUBJECT: Suicide Attempt Inmate Epstein#76318-054**

On the above date at approx. 1:27am While working in the Special Housing Unit Myself and S/O [redacted] heard noise coming from the M tier Cell 124. Upon arrival inmate Epstein's cell mate (I/m Tartaglione #78514-054) was at the door stating I/M Epstein #76318-054 had attempted to hang himself. I kept a visual while Officer [redacted] grabbed door keys and called for assistance. After securing I/M Tartaglione and removing him from the cell, I entered then placed I/M Epstein on his side and removed an orange homemade rope from his neck. I/M was breathing at this time, But unresponsive. As I began chest compressions addition staff and [redacted] arrived, I/M was then removed from the Special Housing Unit without further incident.

# MEMORANDUM

Metropolitan Correctional Center, New York, New York

**DATE:** July 23, 2019

**TO:** [redacted] Operations Lieutenant

**FROM:** [redacted] Senior Officer

**SUBJECT:** Epstein, Jeffrey I/M# 76318-054

At approximately 1:27AM, I responded to a radio transmission asking for staff assistance on 9 South (Special Housing Unit). Once I was granted access to said unit I made my way to the location (M Tier) in which the disturbance stemmed from. I was told by Officer [redacted] that Epstein, Jeffrey I/M# 76318-054 has attempted to hang himself. Upon arrival to cell number 124 in which he was housed, I noticed J. Epstein I/M# 76318-054 on the floor and Officer [redacted] placing restraints on him. Officer [redacted], [redacted] and I entered said cell attempting to assist in said process.

Now that I am inside of the cell I notice that J. Epstein I/M# 76318-054 was snoring on the floor of his cell, he appeared to be asleep. We made several verbal commands for him to wake up and attempted to get him to his feet but they were all unsuccessful. After said attempts [redacted] asked for a stretcher to be retrieve to safely remove him out of his cell. Once the stretcher arrived, Officer [redacted], Officer [redacted] and I lifted J. Epstein I/M# 76318-054 off the floor and placed him on the stretcher. Once we secured him safely on the stretcher, Officer [redacted] and I lifted J. Epstein I/M# 76318-054 who is now on the stretcher safely out of 9 South (Special Housing Unit) and into the awaiting elevator.

DATE: July 23, 2019

TO: Operations Lieutenant, [redacted]

FROM: [redacted], Senior Officer [redacted]

SUBJECT: **Inmate Epstein reg# 76318-054**

On July 23, 2019 at approximately 1:27 AM while assigned to the Special Housing Unit, myself and Senior Officer Specialist [redacted] heard some noises coming from M Tier. Upon checking cell Z05-124 I observed inmate Epstein reg# 76318-054 laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck. I immediately called Control Center for staff assistance. Officer [redacted] kept a visual of inmate Epstein while I proceeded to retrieve the door keys and the cutter from the main cabinet located in the MPA. Officer [redacted] applied restraints to his cell mate inmate Tartaglione reg# 78514-054. I secured inmate Tartaglione inside the bathroom while Officer [redacted] provided assistance to inmate Epstein. When additional staff arrived inmate Epstein was removed from his cell without further incident.

## MEMORANDUM

Metropolitan Correctional Center, New York, New York

July 23, 2019

TO: [redacted]

FROM: S/O/S [redacted]

SUBJECT: Incident on 9 south

On July 23, 2019 at approximately 1:27, I, S.O.S [redacted] responded to a body alarm on the Special Housing Unit. While the 9-South officer was conducted rounds inmate Epstein, Jeffrey #76318-054 was found in his cell with a noose around his neck and appeared to be unresponsive. I assisted with taking inmate Epstein #76318-054 from his cell and putting him on a stretcher. The inmate was taken to the second floor and placed on suicide watch, where he was monitored by staff. Moments afterwards, inmate Epstein became responsive. While observing inmate Epstein he sat up on the bed and began telling me that he think his Bunkie, Tartaglione, Nicholas #78514-054 tried to kill him. Inmate Epstein also stated that his Bunkie also tried to extort money from him and stated that if he didn't pay him that he would beat him up. He stated that this has been going on for a week. I asked inmate Epstein if he told staff about this and he told me no, that he'd only told his lawyer. He went on to say that his Bunkie told him that if he beat him up, because of his charges, the officers would not report it and because of this he was not comfortable telling the officers about the prolong threats and alleged attempts to extort him. I immediately reported this to the lieutenant.

**Date:** 7/31/2019 9:00 AM **Location:** Receiving And Discharge

**Interviewer:** [redacted] **Title:** LIEUTENANT

**Interviewee:** 76318054 - EPSTEIN, JEFFREY

On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he has never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate whom he gets along with, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

**Date:** 7/31/2019 10:00 AM **Location:** SHU All Other

**Interviewer:** [redacted] **Title:** LIEUTENANT

**Interviewee:** 78514054 - TARTAGLIONE, NICHOLAS

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was interviewed in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do. Tartaglione stated previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein have in mind in order to try to get released.

**Factual Findings:**

**No item information was found for the given criteria.**

|---|---|---|---|
| Medical | Inmate Assessments | MEDICAL ASSESSMENT.pdf | TF18813 |

On July 23, 2019, a medical assessment was conducted on inmate Epstein, Jeffrey; Reg. No. 76318-054, by [redacted]. During the assessment Epstein was identified with a circular line of erythema at the base of his neck reaching 2/3 of the neck circumference, 2 inches wide, sparing the back of the neck. Additionally, one section of this erythema in the front has marks of friction, and Epstein was observed with a small erythema on the left knee about 2cm in diameter(mild). During the assessment Epstein denied any respiratory problems and Epstein denied any pain or discomfort.

| | | | |
|---|---|---|---|
| Statements & Written Memorandums | Operation's Lieutenant | OPS LT MEMO.pdf | TF18813 |

On July 23, 2019, at approximately 1:27 A.M., the Operations Lieutenant submitted a memorandum which indicated the Control Center Officer requested assistance in the Special Housing Unit. Upon entering the Special Housing Unit staff made notification that Epstein, Jeffrey; Reg. No. 76318-054, was observed laying in a fetal position on the floor. Epstein was removed from the Special Housing Unit and escorted to the Health Services Area.

| | | | |

**Conclusion:**

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however Epstein appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erythema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area by SIS Staff. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he have never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione

called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was also interviewed by SIS Staff in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do but previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein may have in mind in order to try to get released. As a result of a threat assessment being conducted a medical assessment was conducted on inmate Tartaglione and Tartaglione was not identified with any injuries. Based on the information received throughout the course of the investigation there is insufficient evidence to support Epstein was assaulted by Tartaglione. Additionally, based on the fact that during the interview with SIS staff Epstein indicated that he does not feel threatened by Tartaglione, and he has a new cell mate whom he get along with it cannot be determined that Epstein safety is in jeopardy at MCC New York.

**Recommendation:**

Based on the information received and the fact that Epstein, Jeffrey; Reg. No. 76318-054 indicated that he does not feel threatened by Tartaglione, Nicholas; Reg. No. 78514-054, there are no CIMS Assignment of Separations warranted at this time.

**CIMS Separation Warranted:** No

# INCIDENT REPORT

**U.S. DEPARTMENT OF JUSTICE** — **FEDERAL BUREAU OF PRISONS**

## Part I – Incident Report

1. Institution: MCC New York
Incident Report Number: 3382555
2. Inmate's Name: Epstein , Jeffery
3. Register Number: 76318-054
4. Date of Incident: 07/23/2019
5. Time: 1:27am
6. Place of Incident: SHU M-Tier Cell 124
7. Assignment: Unassigned
8. Unit: ZA
9. Incident: Self-Mutilation
10. Prohibited Act Code (s): 228

11. Description of Incident (Date: 07/23/2019 Time: 1:27AM Staff became aware of incident):

On July 23,2019 at approx. 1:27am While working in the Special Housing Unit Myself and S/O [redacted] heard noise coming from the M tier cell 124.Upon arrival I/M's Epstein,Jeffery#76318-054 cell mate (I/M Tartaglione#78514-054)was at the door stating I/M Epstein,Jeffery#76318-054 had attempted to hang himself. I kept a visual while S/O [redacted] grabbed the door keys and called for assistance. After Securing I/M Tartaglione#78514-054 and removing him from the cell,I entered then placed I/M Epstein on his side and removed a orange homemade rope from his neck.I/M was breathing at this time But unresponsive. Addition staff and [redacted] arrived I/M was then removed from SHU .

12. Typed Name/Signature of Reporting Employee: [redacted]
13. Date And Time: 07/23/2019 3:30am
14. Incident Report Delivered to Above Inmate By (Type Name/Signature):
15. Date Incident Report Delivered:
16. Time Incident Report Delivered:

## Part II – Committee Action

17. Comments of Inmate to Committee Regarding Above Incident:

18. A. It is the finding of the committee that you:
- [ ] Committed the Prohibited Act as charged:
- [ ] Did not Commit a Prohibited Act.
- [ ] Committed Prohibited Act Code (s). _____

B. [ ] The Committee is referring the Charge(s) to the DHO for further Hearing.
C. [ ] The Committee advised the inmate of its finding and of the right to file an appeal within 20 calendar days.

19. Committee Decision is Based on Specific Evidence as Follows:

20. Committee action and/or recommendation if referred to DHO (Contingent upon DHO finding inmate committed prohibited act):

21. Date and Time of Action: _____ (The UDC Chairman=s signature certifies who sat on the UDC and that the completed report accurately reflects the UDC proceedings).

Chairman (Typed Name/Signature): Member (Typed Name): Member (Typed Name):

INSTRUCTIONS: All items outside of heavy rule are for staff use only. Begin entries with the number 1 and work up. Entries not completed will be voided by staff.

9. Article(s) listed as "Mail" (M) Are to be forwarded to (Name and Address of Consignee):

10. Claim Release: a. The receiving officer, as soon after receipt of the property as possible, will review the inventory with the inmate to verify it's accuracy. Property that is stored, kept in possession of the inmate, mailed out of the institution, or donated is to be marked in the appropriate section of this inventory form. The receiving officer certifies receipt, review and disposition of the property by signing below. The inmate by signing below certifies the accuracy of the inventory, except as noted on the form, relinquishing of all claim to articles listed as donated, receipt of all allowable items, and receipt of a copy of the inventory. When the inmate claims a discrepancy in the inventory, the receiving officer shall attempt to resolve the discrepancy. If the inmate states that there is missing or damaged property, this information should be noted under COMMENTS.

COMMENTS:

Printed Name/Signature of Receiving Officer: [redacted] Date: 7-15-19 Time: 900

I have today reviewed the property returned to me: _____ 76318-054 7-15-19 900
Signature of Inmate — Register # — Date — Time

b. Upon release of the inmate from the unit, detention, etc., the releasing officer is to give the inmate that property stated as a result of the inmate's housing. The inmate certifies release of the property, except as noted on this form, and receipt of a copy of the inventory by signing below. When the inmate claims a discrepancy in the inventory, the releasing officer shall attempt to resolve the discrepancy. If the inmate states that there is missing or damaged property, this information should be noted under COMMENTS.

## Section 4: Lethal Weapon Discharge

No data found.

## Section 5: Use of Force

No data found.

## Section 6: Description of Incident

**DESCRIPTION OF INCIDENT (If Use Of Force, include details such as name of supervisor applying the chemical agent and/or restraints, reasons for use of hard restraints instead of soft restraints, etc.) Please be clear about cause(s) of the incident in your description.**

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch.
Upon the arrival of medical staff, inmate Epstein was examined and treated by, [redacted] for a circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

# Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Correctional Center

[redacted]

July 23, 2019

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** [redacted] Operations Lieutenant

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. While awaiting the arrival of an inmate companion, inmate Epstein sat on the edge of the bed and began moving forward as if he was attempting to fall over head first. When I looked away, he straightened up. As I turned to look at him again, he attempted the same act. I laid him down on the bed and directed him to cease his action or he would be placed in restraints for his safety. At that moment, he stated, "Okay, I won't do it again," and gave the thumbs up. Because of his unpredictable behavior, the decision was made to have a staff member observe inmate Epstein. I left HA-Unit in order to make staff notifications. Moments later, I spoke with Officer [redacted] who stated that inmate Epstein was alert and had indicated that his cellmate, Tartaglione, Nicholas #78514-054 had attempted to kill him and had been harassing him. He stated that the inmate had indicated that he'd informed his attorney of this matter.

I photographed and spoke with inmate Tartaglione, Nicholas #78514-054 who stated that he was asleep with his headphones on when he felt something hit his legs and said, "Jeff, what you're doing?" He didn't answer, so he got up, turned on the light and saw him with a string around his neck. He stated that he then called the guards and

COPY 7-23-19

COPY

they ran down. Upon further questioning, inmate Tartaglione stated that he sleeps on the bottom bunk, but gave it to inmate Epstein because he's old. He stated that he sleeps on the floor on a mattress. He stated that when he got up, he couldn't remember if he sat up or stood up to check on Epstein. He stated that Epstein was sitting on the floor leaning to the side with his eyes opened, but wasn't responding. He stated that the last time he saw him he was snoring really loud.

Inmate Epstein stated that he came in from a legal visit at approx. 8:00PM and staff handed him a copy of the Daily News. "Nick" was on the floor reading the Daily News. He stated that he had given it to him. He stated that Tartaglione mentioned that he'd been in court all day in Westchester and was carrying on. At that point, inmate Tartaglione paused as if he was making the story up as he went along, and stated that Tartaglione stated, "These fucking niggers. This place is inhumane, I wish I could report it. [redacted] (Officer), that nigger hobbit mother fucker." He then turned to a page in the Daily News that had his picture on it and stated that Epstein was worth seventy seven million dollars. Epstein stated that he took his picture, balled it up and threw it in the garbage. I asked inmate Epstein what happened prior to staff's arrival. He stated that at approx. 1:00 AM, he'd gotten up to get a drink of water, as he gets up every thirty minutes. He remember walking back to his bunk and waking up with staff there in his cell. I asked if he'd waken up and seen staff, why didn't he respond when we were calling out to him? He stated that he only remembered hearing himself making a noise like snoring. When asked about the allegations against his cellmate, he stated that he was told, if he hurt him, staff wouldn't care.

Duty medical, [redacted] was notified and briefed. It was determined no further medical attention was needed. A medical assessment was not conducted at the time of this incident, due to the fact, there was no medical staff available after 10:00 PM.

Upon the arrival of medical staff, inmate Epstein was examined and treated by, [redacted] for a circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

## MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

**DATE: 07-23-2019**

**TO: Ops LT.** [redacted]

**FROM: S/O/S** [redacted]

**SUBJECT: Suicide Attempt Inmate Epstein#76318-054**

On the above date at approx. 1:27am While working in the Special Housing Unit Myself and S/O [redacted] heard noise coming from the M tier Cell 124. Upon arrival inmate Epstein's cell mate (I/m Tartaglione #78514-054) was at the door stating I/M Epstein #76318-054 had attempted to hang himself. I kept a visual while Officer [redacted] grabbed door keys and called for assistance. After securing I/M Tartaglione and removing him from the cell, I entered then placed I/M Epstein on his side and removed an orange homemade rope from his neck. I/M was breathing at this time, But unresponsive. As I began chest compressions addition staff and Ops Lt [redacted] arrived, I/M was then removed from the Special Housing Unit without further incident.

## MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

DATE: July 23, 2019

TO: Operations Lieutenant, [redacted]

FROM: [redacted], Senior Officer [redacted]

SUBJECT: **Inmate Epstein reg# 76318-054**

On July 23, 2019 at approximately 1:27 AM while assigned to the Special Housing Unit, myself and Senior Officer Specialist [redacted] heard some noises coming from M Tier. Upon checking cell Z05-124 I observed inmate Epstein reg# 76318-054 laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck. I immediately called Control Center for staff assistance. Officer [redacted] kept a visual of inmate Epstein while I proceeded to retrieve the door keys and the cutter from the main cabinet located in the MPA. Officer [redacted] applied restraints to his cell mate inmate Tartaglione reg# 78514-054. I secured inmate Tartaglione inside the bathroom while Officer [redacted] provided assistance to inmate Epstein. When additional staff arrived inmate Epstein was removed from his cell without further incident.

## MEMORANDUM

Metropolitan Correctional Center, New York, New York

July 23, 2019

TO: [redacted]

FROM: S/O/S[redacted]

SUBJECT: Incident on 9 south

On July 23, 2019 at approximately 1:27, I, S.O.S [redacted] responded to a body alarm on the Special Housing Unit. While the 9-South officer was conducted rounds inmate Epstein, Jeffrey #76318-054 was found in his cell with a noose around his neck and appeared to be unresponsive. I assisted with taking inmate Epstein #76318-054 from his cell and putting him on a stretcher. The inmate was taken to the second floor and placed on suicide watch, where he was monitored by staff. Moments afterwards, inmate Epstein became responsive. While observing inmate Epstein he sat up on the bed and began telling me that he think his Bunkie, Tartaglione, Nicholas #78514-054 tried to kill him. Inmate Epstein also stated that his Bunkie also tried to extort money from him and stated that if he didn't pay him that he would beat him up. He stated that this has been going on for a week. I asked inmate Epstein if he told staff about this and he told me no, that he'd only told his lawyer. He went on to say that his Bunkie told him that if he beat him up, because of his charges, the officers would not report it and because of this he was not comfortable telling the officers about the prolong threats and alleged attempts to extort him. I immediately reported this to the lieutenant.

# MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

**DATE:** July 23, 2019

**TO:** [redacted], Operations Lieutenant

**FROM:** [redacted] Senior Officer

**SUBJECT:** Epstein, Jeffrey I/M# 76318-054

At approximately 1:27AM, I responded to a radio transmission asking for staff assistance on 9 South (Special Housing Unit). Once I was granted access to said unit I made my way to the location (M Tier) in which the disturbance stemmed from. I was told by Officer [redacted] that Epstein, Jeffrey I/M# 76318-054 has attempted to hang himself. Upon arrival to cell number 124 in which he was housed, I noticed J. Epstein I/M# 76318-054 on the floor and Officer [redacted] placing restraints on him. Officer [redacted], [redacted] and I entered said cell attempting to assist in said process.

Now that I am inside of the cell I notice that J. Epstein I/M# 76318-054 was snoring on the floor of his cell, he appeared to be asleep. We made several verbal commands for him to wake up and attempted to get him to his feet but they were all unsuccessful. After said attempts Lt. Anderson asked for a stretcher to be retrieve to safely remove him out of his cell. Once the stretcher arrived, Officer [redacted], Officer [redacted] and I lifted J. Epstein I/M# 76318-054 off the floor and placed him on the stretcher. Once we secured him safely on the stretcher, Officer [redacted] and I lifted J. Epstein I/M# 76318-054 who is now on the stretcher safely out of 9 South (Special Housing Unit) and into the awaiting elevator.

Inmate Name: EPSTEIN, JEFFREY EDWARD
Date of Birth: 01/20/1953
Encounter Date: 07/23/2019 06:20

Sex: M Race: WHITE
Provider: [redacted]

Reg #: 76318-054
Facility: NYM
Unit: H01

Injury Assessment - Non-work related encounter performed at Health Services.

**SUBJECTIVE:**

**INJURY 1** **Provider:** [redacted]

**Date of Injury:** 07/23/2019 01:27 **Date Reported for Treatment:** 07/23/2019 08:25

**Work Related:** No **Work Assignment:** UNASSG

**Pain Location:**

**Pain Scale:** 0

**Pain Qualities:**

**Where Did Injury Happen (Be specific as to location):**

Special Housing Unit Z05-Cell 124 L

**Cause of Injury (Inmate's Statement of how injury occurred):**

"I do not know. Just went to drink a little water and wake up snorting".

**Symptoms (as reported by inmate):**

None

| Date | Time | Value(%) | Air | Provider |
|---|---|---|---|---|
| 07/23/2019 | 06:30 NYM | 96 | Room Air | [redacted] |

**Exam:**

**General**

**Affect**

Yes: Cooperative

**Appearance**

Yes: Appears Well, Alert and Oriented x 3

No: Appears Distressed, Lethargic, Dyspneic, Appears in Pain, Pallor, Cyanotic, Diaphoretic, Disheveled,

EFTA00048951

COb/

**Exam:**

Acutely Ill

**Pulmonary**

**Auscultation**

Yes: Clear to Auscultation, Vesicular Breath Sounds Bilaterally

No: Crackles, Rhonchi, Wheezing

**Exam Comments**

Inmate for injury report as requested by Operational Lt.
He is ambulatory, oriented x 3. In not apparent distress, smiling during this clinical encounter. Alleges, that he does not know what happened. Can not explain the marks on his neck. Responded: "I don't know".
He does not want to talk of the events leading to the marks on his neck.
He does not look in any distress or pain.
Has an circular line of erythema at the base of the neck. Reaching 2/3 of the neck circumference, 2 inches wide, sparing the back of the neck. Has one section of this erythema in the front with marks of friction.
No inflammation, no deformities, no hematomas, no lacerations, no tenderness. Patient moving his neck without any restriction. Denies having any pain or discomfort. Denies any respiratory problem.
Has another small erythema on left knee about 2cm in diameter(mild).
As per information from custody staff inmate Epstein was found in his cell with a rope around his neck and sitting on the floor.
Inmate is currently placed on suicide watch.

**ASSESSMENT:**

Injury, unspecified, T1490 - Current - *R/O self inflicted injuries.*

**PLAN:**

**Disposition:**

Follow-up at Sick Call as Needed
Placed on Suicide Watch
Follow-up in 2-4 Hours

**Other:**

For follow up with psychology service.

## Psychology Services
## Intake Screening

| | | | | | |
|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | Reg #: | 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: M | Facility: NYM | Unit Team: | A&O |
| Date: | 07/08/2019 09:24 | Provider: Schlessinger, K. PsyD/PhD | | | |

**Limits of Confidentiality**

Limits of confidentiality were reviewed with inmate EPSTEIN. He expressed an understanding of the limits of confidentiality and consented to be interviewed accordingly.

**Data Source(s)**

The following data sources were reviewed in conjunction with this initial Intake Evaluation: Self-Report, SENTRY, Staff Observation.

Inmate Epstein is a 66-year-old, Black male who was seen by Psychology Services due to newly arriving at MCC-NY. He denied a history of mental health treatment on his Psychology Services Intake Questionnaire.

**Mental Health History and Current Symptoms**

No history of mental health issues was noted.

No history of prior mental health treatment was noted.

No current mental health symptoms were noted.

No suicidal ideation, attempts, or self-harm were noted.

**Substance Abuse**

No history of substance abuse was noted.

No history of substance abuse treatment was noted.

**Sex Offenses**

No sexual offense convictions were noted.

No history of sexual predation in a correctional setting was noted.

**Relevant Psychosocial History**

Noteworthy psychosocial issues: Other.

Inmate Epstein is currently incarcerated for a Sex Trafficking. He stated he was previously incarcerated three months f or prostitution. Inmate Epstein stated he is single and does not have any children. He revealed he was living in New York. He stated he completed high school. He stated he was employed in banking work prior to his incarceration.

**Adjustment to Incarceration**

Adjustment to incarceration concerns were identified: Other.

SEXUAL ABUSE HISTORY
Inmate Epstein denied being the victim of physical or sexual abuse. He is currently charged with sex trafficking and has previously been charged with prostitution. He was informed of the programs offered by MCC-NY as well as the Bureau of Prisons. Additionally, he was informed of this institutions self-help program. Inmate Epstein reported he was not currently interested in any treatment programs.

MENTAL STATUS:
Inmate Epstein appeared calm, controlled, without signs of psychomotor agitation or retardation. He was fully cooperative, maintained good eye-contact, and related in an interpersonally appropriate manner with interviewer. Speech and thought processes were organized, coherent, logical, and goal-directed.

Based on informal assessment during this interview, this inmate's cognitive functioning appeared within normal limits, as reflected by adequate long and short-term memory, good attention, and appropriate concentration during interview, as well as adequate receptive and expressive language skills. Inmate denied any current sleep disturbances and described his appetite as adequate.

This inmate denied recent or present morbid thoughts, passive or active suicidal ideation, intent or plan and contracted for safety. This inmate's verbalizations were optimistic, future oriented, and without indications of helpless or hopeless thinking. Inmate Brown denied any familial history of suicide behaviors or attempts.

This inmate was provided with supportive psychotherapy, and psycho-education to strengthen coping skills and facilitate adjustment to incarceration.

**Findings**

Care Level: CARE1-MH

Inmate EPSTEIN denied any history of mental health symptoms or treatment. He denied any current mental health symptoms. He does not meet criteria for any current psychological diagnosis. He meets criteria for Mental Health Care Code 1.

CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Recommendations**

The following psychological services are recommended: Other.

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He does not appear to be in distress at this time. He agreed to contact psychology if he feels he needs psychology services in the future. He meets criteria for CC1 and does not require scheduled follow up at this time.

# Psychology Services
# Risk of Sexual Abusiveness

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | | | Reg #: | 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: | M | Facility: | NYM | Unit Team: | A&O |
| Date: | 07/08/2019 09:35 | Provider: | Schlessinger, K. PsyD/PhD | | | | |

**Comments**

Risk of Sexual Abusiveness

During the intake screening process, for Inmate Epstein, based on the documentation available at the time of the screening, and Inmate Epstein's self-report, he was identified as being at risk for sexual abusiveness due to previous perpetration of sexual abuse in the community or in an institutional setting, as evidenced by the following objective criteria:

( ) Having a history of prior institutional violence or sexual abuse perpetration
(X ) Having a history of prior sexual abuse perpetration in the community
(X ) Having prior convictions of violent offenses

As required by P5324.11, Sexually Abusive Behavior Prevention and Intervention, Inmate Epstein was seen by Psychology on today's date to assess his risk factors for sexual abusiveness. At the onset of this clinical contact, the inmate was informed about the BOP requirements regarding PREA. Inmate Epstein indicated he understands the institution's policy against engaging in sexual behavior. His risk factors for sexual abusiveness were assessed and include:

( ) History of prior sexual victimization in prison
( X ) History of prior prison sexual predation
( ) History of head injury with loss of consciousness
( ) History of childhood psychological, physical, sexual abuse
( ) Witnessed family violence
( ) Antisocial Personality Disorder traits of irritability/aggressiveness and recklessness
( ) Hypersexuality (defined by eight or more orgasms a week prior to prison)
( ) Hypermasculinity
( ) Other:

Based on this clinical assessment, the inmate is considered to be at:

(X ) Low Risk of Abusiveness at this facility (Note: Even though this inmate is judged to be at low risk of sexual abusiveness, an unforeseen change in risk factors may significantly alter his risk level.). Programming recommendations included sex offender treatment. Inmate Epstein declined programming recommendations.The inmate understands the procedure for contacting Psychology for routine or emergent services.
( ) Moderate Risk of Abusiveness. The Unit Team and Correctional Staff have been notified regarding Psychology staff's recommendation that he not be housed in a cell with any inmates identified as at increased risk for sexual victimization. Psychology also recommends a greater level of supervision regarding his work and education assignments. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.
( ) High Risk of Abusiveness. It is recommended this inmate be housed in the Special Housing Unit in accordance with P5324.11 to "keep separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive" until Correctional Services and Correctional Programs staff can assess his appropriateness for general population at this facility. This inmate should not be housed with any inmates judged to be at an increased risk for sexual victimization. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.

| Date: | 07/08/2019 10:41 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Comments**

This writer consulted with Dr. Robert Nagle, Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment.

**Type of Housing:** Other Psychological Observation
**Cell Accommodation:** Single Cell

## FINDINGS

This assessment and the resulting recommendations are based on the following sources of information:
Clinical Interview, Medical Record

Inmate Epstein was placed on psychological observation when he returned from court yesterday evening 7/8/19 for precautionary reasons. He is not on a suicide watch at this time.

### Reason for Referral

Inmate Epstein is being seen for suicide risk assessment today for precautionary reasons. Inmate Epstein has various risk factors for suicidality at this time including a high profile case with media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which could have given him bad news regarding his legal situation. As such, this writer instructed R&D staff, as well as the Lieutenant's Office, to immediately notify the psychology department when he returned from court. Inmate Epstein returned from court after duty hours and denied suicidality. The aforementioned staff notified the on-call psychologist and inmate Epstein was placed on a precautionary psychological observation status until psychology could interview him this morning to conduct a suicide risk assessment.

### Developmental History

Inmate Epstein denied any history of being the victim and/or perpetrator of physical or sexual abuse.

### Educational History/Cognitive Impairment

Inmate Epstein reported he obtained his high school diploma and attended some graduate classes in the area of mathematics.

### Arrest History and Experience of Incarceration

Inmate Epstein reported he has served time in Palm Beach County jail on sex offense charges (soliciting prostitution) in the past. He is now being charged with sex trafficking, on a federal level.

### Mental Health History

Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time.

### Self-Harm History

Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past.

### Substance Abuse History

Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol.

### Medical Concerns

Inmate Epstein denied any significant medical problems, other than a history of high triglycerides. He reported feeling constipated at this time.

### Current Problem

Inmate Epstein is currently on psychological observation due to his having multiple risk factors associated with suicidality. He denies any suicidality at this time and has no mental health or suicide history. He is being seen for a suicide risk assessment in an abundance of caution.

### Current Mental Status

Level of Consciousness: Alert and Oriented

See Amendment

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Inmate Epstein did not exhibit any acute psychopathology and exhibited a clear mental status.

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. The inmate spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

Of the **DYNAMIC** risk factors assessed, none were found to be present.

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

As noted above, Inmate Epstein is a 66-year-old Caucasian male. He has various risk factors for suicidality at this time including a high profile case with extensive media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which may have given him bad news regarding his legal situation. Inmate Epstein also informed this writer that his only family at this time is his brother, with whom he does not have a close relationship with.

Despite these risk factors, inmate Epstein possesses a number of protective factors at this time. Inmate Epstein adamantly denied any suicidal ideation, intention or plan. He was very future oriented and requested a phone call, to meet with his attorney, to take a shower, and to brush his teeth. He was eating his cereal when this writer arrived and said "I have my paper spoon here." He reported he is going to have a bail hearing on Monday and believes he is going to be released from jail. Inmate Epstein reported he is a Banker and has a "big business" in the community and that "being alive is fun." He also revealed he enjoys learning and teaching. He has confidence in his attorney and described him as "competent." Inmate Epstein denied any mental health history or history of suicidality. He also reported none of his family members have mental health histories. Inmate Epstein stated he is a mathematician and took post graduate classes in this area of study. Inmate Epstein stated he has a support system in the community, including friends and other associates. Finally, inmate Epstein demonstrated a good sense of humor and did not appear dysphoric, agitated or anxious. No acute psychopathology was noted.

Overall, inmate Epstein has numerous protective factors at this time that outweigh his risk factors for suicidality. He has a positive outlook regarding his legal case, demonstrates no psychiatric symptoms, has no psychiatric or suicide history, and verbalized a desire to be alive at this time and future orientation.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

Draft Amendment

EFTA00049076

**RECOMMENDATIONS**

Inmate Epstein is currently on psychological observation pending suitable housing placement. In light of his current sex offense charges and extensive media coverage on the television, he will need to be confined in a suitable housing unit. Inmate Epstein will be seen daily while on psychological observation and will be seen for a psychological observation follow-up session once he is released from observation. Inmate Epstein denied the need for psychological intervention, self-help materials, or follow-up. He has been classified as a CC1-MH inmate at this time. CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Suicide Watch: A suicide watch is not warranted at this time**

**Type of Housing:** Other Psychological Observation
**Cell Accommodation:** Single Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information:
Medical Record, Clinical Interview

Inmate Epstein was placed on psychological observation when he returned from court yesterday evening 7/8/19 for precautionary reasons. He is not on a suicide watch at this time. He was seen this morning for a psychological observation contact and suicide risk assessment this morning, 7/9/19, at 7:30 a.m. as it was determined he possessed some at-risk factors for suicidality.

**Reason for Referral**

Inmate Epstein is being seen for suicide risk assessment today for precautionary reasons. Inmate Epstein has various risk factors for suicidality at this time including a high profile case with media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which could have given him bad news regarding his legal situation. As such, this writer instructed R&D staff, as well as the Lieutenant's Office, to immediately notify the psychology department when he returned from court. Inmate Epstein returned from court after duty hours and denied suicidality. The aforementioned staff notified the on-call psychologist and inmate Epstein was placed on a precautionary psychological observation status until psychology could interview him this morning to conduct a suicide risk assessment.

**Developmental History**

Inmate Epstein denied any history of being the victim and/or perpetrator of physical or sexual abuse.

**Educational History/Cognitive Impairment**

Inmate Epstein reported he obtained his high school diploma and attended some graduate classes in the area of mathematics.

**Arrest History and Experience of Incarceration**

Inmate Epstein reported he has served time in Palm Beach County jail on sex offense charges (soliciting prostitution) in the past. He is now being charged with sex trafficking, on a federal level.

**Mental Health History**

Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time.

**Self-Harm History**

Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past.

**Substance Abuse History**

Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol.

**Medical Concerns**

Inmate Epstein denied any significant medical problems, other than a history of high triglycerides. He reported feeling constipated at this time.

**Current Problem**

Inmate Epstein is currently on psychological observation due to his having multiple risk factors associated with suicidality. He denies any suicidality at this time and has no mental health or suicide history. He is being seen for a suicide risk assessment in an abundance of caution.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

| Date: | 07/09/2019 10:13 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Relevant Historical Information**

Inmate Epstein is a 66-year-old Caucasian male, currently incarcerated on sex trafficking charges. He denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time. Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past. Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol.

**Presenting Problem/Symptom**

Inmate Epstein was seen for suicide risk assessment today for precautionary reasons. He did not mark any mental health items or symptoms on his Psychology Questionnaire (PSIQ) when he entered the institution. Nonetheless, Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which could have given him bad news regarding his legal situation. Inmate Epstein returned from court after duty hours yesterday evening and staff notified the on-call psychologist. Inmate Epstein was placed on a precautionary psychological observation status until psychology could interview him this morning to conduct a formal suicide risk assessment to determine whether he is currently at-risk for suicidality.

**Diagnostic Formulation**

Inmate Epstein has no history of mental health problems and does not exhibit suicidality at this time. He has never received inpatient or outpatient mental health treatment and denied any history of suicidality. Currently, he does not exhibit any acute psychopathology, is currently psychologically stable and is in no psychological distress. As such, he is being classified as a CC1-MH inmate at this time. CARE1-MH is indicative of an inmate who either has no identifiable mental illness (Axis I "No Diagnosis") or is mildly ill and requires clinical intervention on an as-needed basis.

**Care Level Formulation**

CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Diagnosis:**

No Diagnosis, No Dx - Current

**Focus of Session**

Inmate Epstein was seen today for a psychological observation contact in the hospital area by this writer.

**Subjective/Objective Presentation**

Inmate Epstein appeared well and it was noted in his log book and eating/sleeping chart that he has been eating his meals, sleeping, interacting with the inmate companions, and pacing in his cell. Today, he presented this writer with numerous concerns and requests. He stated he does not want to be housed in the SHU because he is not comfortable there; he wants to be single-celled if he goes to the SHU; he wants Colace, not the Ducolex he received from medical yesterday; he wants to be able to walk around and go to recreation; he does not want to wear an orange uniform to his legal visits because he is treated "like a punished inmate;" he wants a phone call before he leaves the psychological observation area; he wants a shower and towel; he would like to be housed in the cadre (5S) unit; and would like his property, paper, and a pen.

Inmate Epstein's concerns were addressed by this writer and it was explained to him he will not be single-celled or placed in a housing unit for safety and security concerns. His medical concerns (constipation) were discussed with health services as well as his desire to be placed on Colace. Inmate Epstein was provided a shower this morning.

**Intervention(s)**

Inmate Epstein was provided with supportive intervention and coping skills strategies today. He was receptive to interventions and was able to elucidate his various needs. He did not present with any acute psychopathology and continues to deny any suicidal ideation, intention, or plan. He is looking forward to his bail hearing on Monday but stated he is aware that even if he gets bail, it will take at least two weeks to sort things out so he can leave the jail.

**Progress/Plan**

Inmate Epstein is not in any psychological distress, does not present with any mental health symptoms or complaints, and is denying any suicidality. He appears psychologically stable at this time and can be released from the psychological observation area. Inmate Epstein will be housed in the 9S area with a cellmate. He will be seen again tomorrow by psychology to evaluate his mental status and psychological stability.

| Date: | 07/11/2019 15:21 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Focus of Session**

Inmate Epstein was seen for his psychological observation follow-up in attorney conference this afternoon.

**Subjective/Objective Presentation**

Inmate Epstein reported he has been consulting with his attorney most of the day. He elucidated concerns about his incarceration including not receiving his property yet in SHU, feeling cold in his cell, not receiving his Colace, not having enough water in attorney conference, and a desire to recreate in SHU." Inmate Epstein was also upset about wearing an orange jumpsuit and being treated like "a bad guy" when he did not do anything wrong in the prison. Custody and security concerns were addressed with inmate Epstein including why he has to wear his orange jumpsuit (due to his being housed in SHU). He requested that he be placed in a brown uniform during his legal visits. He was told his concerns would be addressed in the SHU meeting.

Inmate Epstein stated he is not having any current problems with his cellmate and indicated he at bran cereal for breakfast and took a shower yesterday. He did not sleep well last night. Inmate Epstein continues to deny any suicidal ideation, intention or plan. He did not appear to be in any distress at this time.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions, CBT-based interventions, and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. He will be seen next week after his bail hearing to assess his mental status and psychological stability.

**Focus of Session**

Inmate Epstein called for this writer in attorney conference today. The officer in attorney conference notified this writer that he was asking to be seen.

**Subjective/Objective Presentation**

Inmate Epstein reported he has not received a spoon or soap in SHU, nor did he receive the phone calls that were "promised to him." He told this writer we need to have mutual trust that his needs are met in the prison. This writer told inmate Epstein that she would address his concerns. On the way out, a staff member told this writer she witnessed inmate Epstein receive two phone calls from the Lt. Nonetheless, this writer informed the SHU lieutenant of his concerns and he said he would ensure that he had soap, a spoon, and his initial SHU phone call. Inmate Epstein did not have any psychological concerns today. He denied any mental health symptoms or suicidality. He has been eating as best as he can and has requested a Kosher diet.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions. He continued with his legal visit.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. There appears to be no need for follow up at this time. He will be seen in SHU for rounds and monthly SHU reviews.

Reg #: 76318-054
Unit Team: 5

**Type of Housing:** SHU- Administrative Segregation
**Cell Accommodation:** Double-Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information:
Clinical Interview, Medical Record, Psychology Data System, Sentry

**Reason for Referral**

The On Call Psychologist, Dr. Miller, had been contacted by the Operations Lt. at about 2 AM on 7/23/19 to inform her that Mr. Epstein was being placed on Suicide Watch because he was found with a string around his neck. Mr. Epstein was seen by this writer for a Suicide Risk Assessment at about 9:10 AM on 7/23/19.

This note is being entered at about 3:35 PM on 7/23/19.

**Mental Health History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

**Self-Harm History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

**Substance Abuse History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol."

**Current Problem**

Earlier this morning Mr. Epstein was found by SHU staff in his cell with a string loosely tied around his neck. It is unclear at this time if Mr. Epstein had placed the string around his own neck.

When Mr. Epstein was asked by this writer how he ended up on Suicide Watch, he denied remembering. He stated he got a drink of water last night in his cell and went back to bed. He said the next thing he remembered is hearing himself snore. He said he wants to know why he is on Suicide Watch. He was informed that staff stated he was found in his cell with a string on his neck. According to Medical records, he had been seen by Medical for this and had a rule out of self inflicted injuries.

When this writer reviewed the Staff Suicide Watch Log, it noted that Mr. Epstein told the staff watching him that his cellmate tried to kill him, which Mr. Epstein did not tell this writer when this writer had interviewed Mr. Epstein. This writer was not able to ask Mr. Epstein about this, since Mr. Epstein was now in Legal. The Captain was notified about this notation and the Captain stated they were already aware of this statement.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: He was found by staff in his cell in SHU with a string loosely tied around his neck, which Mr. Epstein stated he did not remember anything about. It is unclear at this time if Mr. Epstein had placed the string around his own neck or if someone else did. According to Medical, he had a circular line around the base of his neck, which he denied knowing how he obtained. He stated his throat hurts which was reported to Medical. He has a high profile sex offense case and recently was denied bail. When asked if he has any friends or family that are emotionally supportive, he stated he does not know what that means. When emotional supports were explained to him and then again asked if he as any family or friends that are emotionally supportive, he was vague and said he has a lot of people.

Protective Factors: He denied current suicidal or self harm thoughts or ever having these thoughts. He denied a history of self harm and suicide attempts. He denied a family history of suicidal and self harm attempts. He denied having any chronic medical conditions. He denied feeling hopeless. He denied a history of childhood abuse. He denied fearing for his safety. He denied feeling like a burden to anyone. He reported he is sleeping adequately. He stated he lives to have fun, to enjoy life, and to learn. He said his future plans include fighting his case and going back to his normal life.

Whereas, he is denying suicidal and self harm thoughts and has a lot of protective factors, he is denying that he remembers how he ended up on Suicide Watch and has marks encircling his neck. It is unclear at this time if he had placed the string around his neck or if someone else did. He will remain on Suicide Watch for further observation and safekeeping.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Moderate
Overall Chronic Suicide Risk for this Inmate is: Absent

**RECOMMENDATIONS**

1. Mr. Epstein will remain on Suicide Watch for further observation and safekeeping.
2. While on Suicide Watch, he will be continuously observed by Inmate Companions.
3. While on Suicide Watch, he will be seen daily by Psychology.
4. Supportive and educative interventions were provided.
5. Medical was informed that he reported his throat hurts.

**Suicide Watch: A suicide watch was initiated by non-clinical staff and continues to be warranted**
**Suicide Watch was initiated on:** 07/23/2019 01:40

|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | | Reg #: 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: | M | Facility: NYM | Unit Team: 5 |
| Date: | 07/24/2019 09:23 | Provider: | DiMisa, Samantha Ph.D. | | |

**Watch Start Date:** 07/23/2019 01:40 **Watch Stop Date:** 07/24/2019 08:45

**Total Time on Watch:** 31 hrs 5 minutes

**Watch Conducted By:** Both inmates and staff **Transfered to Medical Center:** No

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. The inmate spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation or psychological distress. He also denied thoughts of harming others.

**Risk Factors Assessed:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self harm.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Fear for own safety

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: Mr. EPSTEIN has a significant scar around his neck, which is now scabbing over. He reported swelling in this area but denied experiencing any related pain. Mr. EPSTEIN continues to claim a lack of memory for the incident resulting in this scar. The story he provided was vague, such that this writer challenged him a couple of times, but he insisted he was being honest about his lapse in memory. The nature of the incident remain unclear. Mr. EPSTEIN is incarcerated for a very high profile crime with media attention. He was recently denied bail. He also reported difficulty managing his time in the SHU. He reported being fearful for his safety if he is to return to the cell with his previous cell mate.

Protective Factors: Mr. EPSTEIN adamantly denied current suicidal ideation or intent or a history of suicide attempts. He stated, "I have no interest in killing myself." He explained, although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." He denied feelings of hopelessness, although did report being "depressed" and "unhappy" about his current legal situation. He previously denied a history of childhood abuse. He reported he is sleeping adequately now that he is no longer in the SHU. He appear future-oriented as he endorsed an interest in being housed in general population.

Weighing of Risk and Protective Factors: Mr. EPSTEIN adamantly denied sucidality. However, in light of his vague self-report regarding the incident which precipitated his placement on Suicide Watch, combined with his fear for his own safety, reported

difficulty managing his time in the SHU, and the high profile nature of his alleged offense, Mr. EPSTEIN will be stepped down from Suicide Watch to Psychological Observation.

**Changes in Risk Factors Assessed**

Upon a review of the log book, it was indicated Mr. EPSTEIN has been speaking to the inmate companions about having previously taught mathematics and physics. He has been observed pacing the cell as well as sleeping, eating, and drinking within normal limits.

Upon interview today, Mr. EPSTEIN requested he be provided a toothbrush as well as a shower. His requests were made known to the lieutenants and he was provided a shower prior to attending his legal visit. This writer also provided him a toothbrush, toothpaste, and hygiene products.

Asked about the alleged incident which transpired yesterday resulting in his placement on Suicide Watch, Mr. EPSTEIN said he is frustrated he has been placed in a "punishment cell for no reason." Specifically, Mr. EPSTEIN was referring to his placement in the SHU. Asked to recall the events surrounding the alleged incident, Mr. EPSTEIN said his cell mate was "playing with a bed sheet" and he claimed he does not recall the events thereafter. He said he recalled eating meat and drinking water and claimed the next event for which he has memory is his hearing himself snore and waking up on a stretcher.

Mr. EPSTEIN claimed he does not recall himself or his cell mate tying a string or rope around his neck. He said he has "been trying to remember" and "wracking his mind." Asked if he experienced any interpersonal issues with his cell mate, Mr. EPSTEIN described his cell mate as "agitated" and claimed his cell mate called him a "pedophile" for the first time yesterday. His cell mate was also reportedly reading a newspaper article about Mr. EPSTEIN, which bothered him and it was something he believed to be "strange" for their to be an article about him in his cell. Mr. EPSTEIN recalled throwing away the newspaper photograph of himself by crumpling it and flushing it down the toilet. Asked if his cell mate ever threatened to harm him, he denied this to be the case. Asked why he told the inmate companions yesterday his cell mate tried to kill him, while also claiming no memory of the incident, Mr. EPSTEIN again said he did not recall the incident and further stated, "I don't know if he put it there as a joke." Mr. EPSTEIN explained he had been experiencing difficulty sleeping in his SHU cell due to his inmate peers banging on the cell door and window, but has not been experiencing any other acute issues other than this.

**Reason for Removal from Watch**

Mr. EPSTEIN stated, "I have no interest in killing myself." He explained although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." Mr. EPSTEIN did express a feeling of safety being housed on Psychological Observation rather than in the SHU. He asked if he could remain on this status for a couple of days, he was advised his housing situation will be re-evaluated on a day-to-day basis. He expressed a desire to be housed in general population rather than in the SHU and asked if there were a "safer" unit for him to be housed in comparison to the one where he was initially placed. Mr. EPSTEIN claimed there were many MS-13 gang members on the initial unit. He was advised he will be maintained on Psychological Observation in the near future, but his long-term housing situation will be revisited, as it is not ideal for one to remain in isolation on Psychological Observation for extended periods of time. Mr. EPSTEIN acknowledged this information and thanked this writer for her explanation and time.

**Diagnosis:**

No Diagnosis, No Dx - Current

**Conclusions**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

**Recommendations**

1. Mr. EPSTEIN will be removed from Suicide Watch and stepped down to Psychological Observation.
2. While on Psychological Observation, he will be continuously observed by Inmate Companions.
3. While on Psychological Observation, he will be seen daily by Psychology.
4. Supportive and educative interventions were provided.
5. Mr. EPSTEIN was provided novels and a request was made for his legal paperwork to be provided to him on Psychological

Observation.

6. This writer contacted the Pharmacy to indicate Mr. EPSTEIN has not been receiving his medication used to alleviate his constipation.
7. Mr. EPSTEIN attended a legal visit today, after having been provided a shower.
8. Mr. EPSTEIN was educated about both routine and emergency procedures for contacting psychology.
9. The inmate was encouraged to reach out for PRN services should he experience any psychological distress.

**Focus of Session**

Inmate Epstein was seen by this writer this morning while on psychological observation in the hospital area of the prison.

**Subjective/Objective Presentation**

Inmate Epstein was in good spirits today and engaged in reciprocal conversation with this writer this morning. He smiled and remarked, "welcome back" when this writer arrived. He continues to assert he does not remember how he received marks around his neck, remarking "I do not remember anything, maybe you can give me some cues." He stated he just remembers going for a drink of water and the next thing he knew he woke up to the sound of his own snoring. When this writer attempted to get a more detailed account from him, indicating that it would be rare to have such impairments in memory as he does not suffer from an acute cognitive disorder, he smiled and said he understood my position.

Inmate Epstein did reveal he is unhappy with his current confinement in Special Housing (SHU) as he considers it "a punishment cell." He said he finds the restrictions up there unfair as he has not done anything wrong. Inmate Epstein stated he feels it is dangerous in the SHU, he cannot sleep well up there due to noise from the other inmates, it smells, and it is difficult for him to work on his legal case up there. He stated he has not received the phone calls he was promised nor has he been able to receive recreation. It was explained to him that he spends the entire day in the attorney conference room and it is likely that he has missed the times when staff members have attempted to give him phone calls and recreation. Inmate Epstein also reported complaints about the attorney conference room, stating they do not take him to the bathroom frequently enough.

Inmate Epstein adamantly denied any suicidality at this time, stating "I am too vested in my case to fight it, I have a life and I want to go back to living my life." He denied any acute symptoms at this time.

According to his log book, he has been eating, drinking, sleeping, and interacting with the inmate companions. He has also been attending his daily legal visits.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was mostly receptive to these interventions. He requested to be housed in general population rather than the SHU and stated he wanted to remain on psychological observation due to his concerns with being in the SHU.

**Progress/Plan**

In an abundance of caution, inmate Epstein will remain on psychological observation. He has yet to give an account of how he sustained the marks around his neck, is not revealing much about his mental status, and there are concerns about his adjustment at this time to being housed in the SHU. Inmate Epstein will be seen daily by psychology while on psychological observation.

**Focus of Session**

Inmate Epstein was seen while on psychological observation in our hospital area.

**Subjective/Objective Presentation**

Prior to this writer's contact with him, Inmate Epstein showered and dressed himself for his legal visit today. He was smiling and did crack some jokes during the interview. He did elucidate some complaints and suggested being disappointed with this writer as he wants "to trust me and for me to trust him." He stated he remains unhappy with legal visiting procedures as he cannot go to the bathroom as frequently as he would like to since he has a "weak bladder." Inmate Epstein also reported since coming to the psychological observation area, he has felt constipated and needs his Colace. He had self-carry Colace in SHU, but since coming to the observation area, he has not had his medication. This writer immediately notified medical and his pills were being processed during the interview. Inmate Epstein also continues to complain about the conditions of SHU confinement (i.e., feeling punished, smells, noise, and restrictions).

With regard to the events which lead to his initial placement on suicide watch, inmate Epstein stated he has no memory of the event. He asked to speak with his old cellmate "Nick" to see if he can tell him what happened or see if his memory could be triggered. He remarked, "I am still trying to figure out how I got this (pointing to the scab around his neck)." Inmate Epstein denies remembering harming himself and/or being harmed by his cellmate. He does not exhibit symptoms of any cognitive disorder, seizure disorder, psychotic disorder, or dissociative disorder at this time or in the past. Inmate Epstein denied any current suicidal ideation, intention, or plan. He reported wanting to be alive to fight his legal case and go back and live life. He referred to himself as "a coward" and "I'm Jewish." He said he is not the type who likes pain or would ever attempt to harm himself.

While on psychological observation, inmate Epstein has been eating his meals, sleeping and interacting with the inmate companions. He is in legal visiting the majority of the day and in the evenings. His log book and eating/shower chart reflect the same. He has been speaking to inmate companions about investment strategies and about prison adjustment. Correctional Staff report during his legal visits, he is interacting with his attorney, animated, laughing, and joking.

**Intervention(s)**

Inmate Epstein was provided with supportive and coping skills interventions today. He was receptive to them, but mostly wanted to express his complaints about his current prison confinement status and needs. He wanted this writer to address them.

**Progress/Plan**

Inmate Epstein will remain on psychological observation in an abundance of caution and pending housing arrangements to be made on Monday. He continues to be vague and reports memory deficits regarding the events which lead to a piece of sheet being placed loosely around his neck and marks with scabs around his neck.

| Date: | 07/27/2019 07:14 | Provider: | Imeri, Darlene PsyD | | | | |

**Focus of Session**

He was seen by writer while he was on Psych Observation.

**Subjective/Objective Presentation**

The "Eating/Shower Chart" indicated yesterday he ate dinner, drank liquids, and took a shower when offered. The Psych Observation Log noted he brushed his teeth, went to a Legal visit, talked about business and investing to an Inmate Companion, ate, and slept.

When interviewed, he stated he still cannot remember what happened in SHU that caused the marks on his neck. He stated that for the 5 days before that he had only slept about 30 minutes each night because of noise in SHU. He stated he is anxious about going back to SHU because he stated he is going back to a place where he had gotten marks on his neck and he does not know why it happened.

He said he has an appetite and is eating. He said he is waking up every 1 1/2 hours. He stated he feels dehydrated because he is not drinking enough water because he stated he feels he is not given enough bathroom breaks while with his Attorney. Medical was e-mailed with his complaint of feeling dehydrated. He said his Lawyers and friends are all emotionally supportive.

Current Mental Status: He exhibited a neutral mood with a mildly full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation. He stated "I'm a coward." He added he does not like pain and even does not like when he has to give blood. He agreed to immediately tell staff and Inmate Companions if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff and Inmate Companions if he has these thoughts.

**Intervention(s)**

Supportive and educative interventions were provided. He was given Turning Points handouts on stress management, sleep, and building a routine in SHU. He stated he wants it noted in his chart that he is being given a pamphlet on sleep, but that is not going to help because of the noise in SHU that prevents him from sleeping.

**Progress/Plan**

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

**Focus of Session**

He was seen by writer while he was on Psych Observation.

**Subjective/Objective Presentation**

The "Eating/Shower Chart" noted that yesterday he ate breakfast. He is not in the Psych Observation cell for about 12 hours per day because of being in Attorney Conference with his Attorneys, so the "Eating/Shower Chart" may not reflect all of his meals. He stated he was served one meal in Attorney Conference yesterday. He stated he drinks a lot water at night. The Psych Observation log noted he talked about life in general population and he slept.

Earlier he had complained that his right arm was numb and hanging. Nurse Columbo from Medical had seen him for this.

When this writer was interviewing him, he said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. This writer notified Nurse Columbo.

He stated last night when he flushed the toilet it kept flushing for 45 minutes. He stated he found it so aversive and upsetting that he said he sat in the corner and held his ears. He said because of this he was agitated for hours and was not able to sleep. The Lt. will be moving him to a different cell and he was informed of this. He stated the feeling he got with the noise of the toilet was similar to when he was in SHU. He said he may have something on the Autism spectrum. He said in the movie "Rain Man," the person with Autism had an aversion to noise. He stated he is also really good with numbers.

Current Mental Status: He exhibited a mildly anxious mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff and Inmate Companions if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff and Inmate Companions if he has these thoughts.

**Intervention(s)**

Supportive and educative interventions were again provided. He had not been given the Turning Point handouts yesterday that were on his cell door, so they were handed to him by staff today.

**Progress/Plan**

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

| Date: | 07/29/2019 10:01 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Focus of Session**

Inmate Epstein was seen while on psychological observation today in the hospital area.

**Subjective/Objective Presentation**

Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. He then asked if he could remain down here where it is "safe" for the entire week. I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because he felt safe or more comfortable for him. It was explained to him that he would be placed in a safe situation in the SHU.

According to his log book and eating/shower chart, he has been eating and drinking when not in his legal visits. He has also been writing and attending his legal visits.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was somewhat receptive to these interventions, but appears more concerned about getting his various needs in the prison (phone calls, recreation, housing placement concerns, etc.)

**Progress/Plan**

He will remain on psychological observation today and will transition to the SHU tomorrow. He will be seen by psychology daily to assess his mental status and psychological functioning.

**Focus of Session**

He was seen by writer while he was on Psych Observation.

**Subjective/Objective Presentation**

He stated he hasn't slept well at MCC-NY because he hasn't had his cpap machine. He stated it is here and he will be able to start using it tonight. He discussed how he does not think he will able to sleep in SHU and how he does not like SHU because of the noise. He discussed issues on not getting some medication with Medical today.

The "Eating/Shower Chart" indicated yesterday he ate breakfast and dinner, drank liquids, and took a shower when offered and so far today it noted he ate breakfast and drank liquids. The Psych Observation Log noted he slept, drank water, went to legal, and talked to an Inmate Companion about investments.

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. There was no indication of disturbed thought process or content. Intellectual ability appeared to be above average. Personal hygiene was adequate. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

**Intervention(s)**

Supportive and educative interventions were provided. When asked about the Turning Point handouts for coping in SHU, he stated he already knows these strategies before he read the handouts and had tried them when he was in SHU the last time. He stated with the noise in SHU, he said the strategies will not work. He was encouraged to try them.

**Progress/Plan**

The Chief Psychologist was consulted. Psych Observation will be discontinued. Mr. Epstein was educated about both routine and emergency procedures for contacting Psychology staff. He will be seen in follow up by Psychology tomorrow to monitor his mental status and to provide further intervention if needed and he was informed that he will be seen by Psychology tomorrow. In the meantime, he was encouraged to self-refer to Psychology if needed to which he agreed and seems capable of doing. If he remains in SHU, he will be seen by Psychology in SHU Rounds and in SHU Reviews. The SHU Lt. was informed that Mr. Epstein needs to be housed with an appropriate cellmate.

# Institution Disciplinary Process Report

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | | | Reg #: | 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: | M | Facility: | NYM | Unit Team: | 5 |
| Date: | 07/30/2019 12:01 | Provider: | Imeri, Darlene PsyD | | | | |

## Reason for Referral and Identifying Information

Inmate Epstein was referred by Unit Manager Proto for an evaluation of competency to proceed with the disciplinary process for actions resulting in an incident report. On 7/23/19, inmate Epstein was charged with code 228 (Tattooing or Self-Mutilation). These infractions were assigned incident report number 3282555.

## Background Information

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

According to this writer's Suicide Risk Assessment dated 7/23/19, "It is unclear at this time if he had placed the string around his neck or if someone else did."

## Clinical Interview and Mental Status Exam

Inmate Epstein still does not remember how he obtained the marks around his neck.

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. There was no indication of disturbed thought process or content. Intellectual ability appeared to be above average. Personal hygiene was adequate. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

## Clinical Impression

According to his last Diagnostic and Care Level Formulation Note dated 7/09/19 by Dr. Miller, "No Diagnosis, No Dx - Current."

## Findings

The determination of whether an inmate is competent to proceed with the disciplinary process is based on a clinical assessment of the inmate's (1) ability to understand the nature of the proceedings, and (2) their ability to assist in their own defense. Depending on the outcome of the assessment, one of three findings can be made: (1) the inmate is COMPETENT to proceed with the disciplinary process; (2) the inmate is NOT PRESENTLY COMPETENT but could be restored to competence with treatment; or (3) the inmate is NOT COMPETENT and is unlikely to become competent.

## Recommendations Regarding Sanctions

In the case of inmate Epstein, after a review of available psychological and psychiatric records as well as information pertaining to the offense conduct, it is determined that this inmate is:

(X) COMPETENT to proceed with the disciplinary process.
( ) NOT PRESENTLY COMPETENT, but could become competent with treatment; it is recommended that the inmate for an updated competency assessment in 30 days.
( ) NOT COMPETENT and not likely to become competent.

**Focus of Session**

Mr. EPSTEIN was seen today by this writer for a follow up appointment after he was removed from Psychological Observation yesterday.

**Subjective/Objective Presentation**

Mr. EPSTEIN presented in a pleasant mood and reported he is generally doing well. He stated, "I could be better," but acknowledged he is doing as well as can be expected given his circumstances. He reported he is going to court today for a status hearing. He stated he generally slept well last night and is readjusting to being placed back in SHU. He reported getting along well with his cell mate. He was informed of appropriate procedures for contacting Psychology staff while he is in SHU, if needed.

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. He spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation or psychological distress. He also denied thoughts of harming others.

**Intervention(s)**

Supportive interventions and cognitive behavioral therapeutic techniques were utilized. Mr. EPSTEIN was receptive to all interventions.

**Progress/Plan**

Mr. EPSTEIN was educated about both routine and emergency procedures for contacting psychology. There appears to be no need for follow-up at this time and he expressed willingness to self refer to psychology staff if needed. He will continue to be seen during routine SHU rounds and SHU reviews while he is housed in SHU. He was encouraged to reach out for PRN services should he experience any psychological distress.

Inmate Name: EPSTEIN, JEFFREY EDWARD
Date of Birth: 01/20/1953 Sex: M Facility: NYM
Date: 08/01/2019 13:29 Provider: Imeri, Darlene PsyD

Reg #: 76318-054
Unit Team: 5

**Type of Housing:** SHU- Administrative Segregation
**Cell Accommodation:** Double-Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information:
Clinical Interview, Medical Record, Psychology Data System, Sentry

**Reason for Referral**

R & D staff reported to this writer this morning at about 8:30 AM on 8/01/19 that yesterday when Mr. Epstein was brought back from court the US Marshals asked him to sign a form that noted Mr. Epstein has "suicidal tendencies." Mr. Epstein was seen for a Suicide Risk Assessment at about 1:00 PM on 8/01/19 in Attorney Conference.

This note is being entered at about 4:20 PM on 8/01/19.

**Mental Health History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

**Self-Harm History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

According to this writer's Suicide Risk Assessment dated 7/23/19, "It is unclear at this time if he had placed the string around his neck or if someone else did."

**Current Problem**

R & D staff reported to this writer this morning at about 8:30 AM on 8/01/19 that yesterday when Mr. Epstein was brought back from court the US Marshals asked him to sign a form that noted Mr. Epstein has "suicidal tendencies." This is likely due to the incident on 7/23/19, but as a precaution another Suicide Risk Assessment was conducted.

Mr. Epstein seemed surprised that there was a form noting suicidal tendencies. He denied stating he was suicidal.

He said he saw the DHO today and he said his incident report for the marks on his neck was expunged. He stated even though he has his cpap machine now, he said his cellmate talks at night and he stated this keeps him up. This writer offered to talk to the SHU Lt. to have him housed with a different cellmate, but he stated he wants to give it 3 to 4 days to see if he wants a different cellmate. He complained about the noise in SHU.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: He exhibited a neutral mood with a mildly restricted range of affect. His speech was logical and

coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Sleep problems

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Denial of suicidal ideation/intention/plans, Future orientation, Religious beliefs against suicide, Supportive family relationships, View of death as negative, Willingness to engage in treatment

Risk Factors: He was found by staff in his cell in SHU on 7/23/19 with a string loosely tied around his neck, which Mr. Epstein stated he did not remember anything about. It is still unclear at this time if Mr. Epstein had placed the string around his own neck or if someone else did. He has a high profile sex offense case. He stated his lower back hurts and he stated Medical is aware of this. He stated he has difficulty sleeping even with his cpap machine because he stated his cellmate talks at night.

Protective Factors: He denied current suicidal or self harm thoughts and agreed to tell staff if he starts to have these thoughts. He had denied a history of self harm and suicide attempts. He had denied a family history of suicidal and self harm attempts. He had denied having any chronic medical conditions. He denied feeling hopeless. He had denied a history of childhood abuse. He denied fearing for his safety at this time. He denied feeling like a burden to anyone. He stated he lives for and plans to finish this case and to go back to his normal life. He said his friends and Lawyers are emotionally supportive. He said he is Jewish and he said in his religion suicide is against the religion.

Overall, his current protective factors override his risk factors for suicidality. He is currently psychologically stable. He denied feeling hopeless. He is reporting positive future plans and reasons to live for. He said he has social supports in the community and his Lawyers visit him often. He denied any current suicidal or self harm ideation, intention or plan. Suicide Watch is not indicated at this time.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

**RECOMMENDATIONS**

1. Suicide Watch is not indicated at this time.
2. Supportive and educative interventions were provided.
3. He was educated about both routine and emergency procedures for contacting Psychology staff.
4. He will be seen in follow up by Psychology next week to monitor his mental status and to provide further intervention if needed.
5. In the meantime, he was encouraged to self-refer to Psychology if needed to which he agreed and seems capable of doing.
6. If he remains in SHU, he will be seen by Psychology in SHU Rounds and in SHU Reviews.

**Suicide Watch: A suicide watch is not warranted at this time**

| Date: | 08/08/2019 10:02 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Focus of Session**

Inmate Epstein was seen today for a follow-up session in SHU.

**Subjective/Objective Presentation**

Inmate Epstein stated he is feeling okay and has been eating his meals. He reported his sleep as "fair" and would like to go the general population. He denied any mental health symptoms at this time and denied any feelings of depression and/or anxiety. Inmate Epstein denied any suicidal ideation, intention, or plan. He currently has a cellmate and appears to interact with him. Inmate Epstein continues to spend his days and evening with his attorney's in the attorney conference room. He told this writer he received his PAC number to make phone calls. Inmate Epstein indicated he has only had a couple of phone calls over the speaker phone and wondered "if that counted" as his monthly phone contact. He also reported he his missing some books he was reading in the suicide watch area prior to returning to the SHU.

Other than complaints about the prison and concerns regarding his housing, he had no mental health concerns today. He did not appear to be in any distress and the SHU Staff have not reported any unusual behaviors on his part.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. There appears to be no need for follow up at this time. He will be seen in weekly rounds and monthly for SHU reviews.

# UNITED STATES GOVERNMENT
# MEMORANDUM

Metropolitan Correctional Center, New York, New York

**DATE:** July 23, 2019

**TO:** G. Anderson, Operations Lieutenant

**FROM:** S. Isibor, Senior Officer

**SUBJECT:** Epstein, Jeffrey I/M# 76318-054

At approximately 1:27AM, I responded to a radio transmission asking for staff assistance on 9 South (Special Housing Unit). Once I was granted access to said unit I made my way to the location (M Tier) in which the disturbance stemmed from. I was told by Officer W. Silva that Epstein, Jeffrey I/M# 76318-054 has attempted to hang himself. Upon arrival to cell number 124 in which he was housed, I noticed J. Epstein I/M# 76318-054 on the floor and Officer J. Masulo placing restraints on him. Officer D. Clarke, Lt. Anderson and I entered said cell attempting to assist in said process.

Now that I am inside of the cell I notice that J. Epstein I/M# 76318-054 was snoring on the floor of his cell, he appeared to be asleep. We made several verbal commands for him to wake up and attempted to get him to his feet but they were all unsuccessful. After said attempts Lt. Anderson asked for a stretcher to be retrieve to safely remove him out of his cell. Once the stretcher arrived, Officer D. Clarke, Officer J. Masulo and I lifted J. Epstein I/M# 76318-054 off the floor and placed him on the stretcher. Once we secured him safely on the stretcher, Officer D. Clarke and I lifted J. Epstein I/M# 76318-054 who is now on the stretcher safely out of 9 South (Special Housing Unit) and into the awaiting elevator.

Inmate for injury report as requested by Operational Lt.
He is ambulatory, oriented x 3. In not apparent distress, smiling during this clinical encounter. Alleges, that he does not know what happened. Can not explain the marks on his neck. Responded: "I don't know".
He does not want to talk of the events leading to the marks on his neck.
He does not look in any distress or pain.
Has an circular line of erythema at the base of the neck. Reaching 2/3 of the neck circumference, 2 inches wide, sparing the back of the neck. Has one section of this erythema in the front with marks of friction.
No inflammation, no deformities, no hematomas, no lacerations, no tenderness. Patient moving his neck without any restriction. Denies having any pain or discomfort. Denies any respiratory problem.
Has another small erythema on left knee about 2cm in diameter(mild).
As per information from custody staff inmate Epstein was found in his cell with a rope around his neck and sitting on the floor.
Inmate is currently placed on suicide watch.

**ASSESSMENT:**

Injury, unspecified, T1490 - Current - *R/O self inflicted injuries.*

**PLAN:**

**Disposition:**

Follow-up at Sick Call as Needed
Placed on Suicide Watch
Follow-up in 2-4 Hours

**Other:**

For follow up with psychology service.

**Patient Education Topics:**

| Date Initiated | Format | Handout/Topic | Provider | Outcome |
|---|---|---|---|---|
| 07/23/2019 | Counseling | Access to Care | Joaquin, Y. | Verbalizes Understanding |
| 07/23/2019 | Counseling | Plan of Care | Joaquin, Y. | Verbalizes Understanding |

**Copay Required:** No **Cosign Required:** Yes
**Telephone/Verbal Order:** No

Completed by Joaquin, Y. MLP on 07/23/2019 09:05
Requested to be cosigned by Beaudouin, Robert MD.
Cosign documentation will be displayed on the following page.

# ADMINISTRATIVE DETENTION ORDER

**U.S. DEPARTMENT OF JUSTICE**
**FEDERAL BUREAU OF PRISONS**

NEWYORK MCC
Institution

Date/Time: 07-10-2019

TO: Special Housing Unit Officer

FROM: S. JEAN, LIEUTENANT, (Name/Title)

SUBJECT : Placement of EPSTEIN, JEFFERY, Reg. No. 7-10-2019, in Administrative Detention

_____(a) Is pending an investigation for a violation of Bureau regulations;

_____(b) Is pending an SIS investigation.

_____(c) Is pending investigation or trial for a criminal act;

_____(d) Is to be admitted to Administrative Detention

_____(1) Since the inmate has requested admission for protection;

I hereby request placement in Administrative Detention for my own protection.

Inmate Signature/Register No.: _____

Staff Witness Printed Name Signature: _____

_____(2) Since a serious threat exists to individual's safety as perceived by staff, although person has not requested admission; referral of the necessary information will be forwarded for an appropriate hearing by the SRO.

_____(e) Is pending transfer or is in holdover status during transfer.

✓ (f) Is pending classification; or

_____(g) Is terminating confinement in Disciplinary Segregation and has been ordered into Administrative Detention by the Warden's designee.

It is this Correctional Supervisor's decision based on all the circumstances that the above named inmate's continued presence in the general population poses a serious threat to life, property, self, staff, other inmates, or to the security or orderly running of the institution because*
PENDING CLASSIFICATION

Therefore, the above named inmate is to be placed in Administrative Detention until further notice. The inmate received a copy of this Order on

(date / time) 7-10-19

Staff Witness Signature/Printed Name _____ Date 7-10-19

Supervisor 24 hour review of placement: Signature/Printed name _____

* In the case of DHO action, reference to that order is sufficient. In other cases, the Correctional supervisor will make an independent review and decision, which is documented here.

Record Copy - Inmate Concerned (not necessary if placement is a result of holdover status); Copy - Captain; Copy - Unit Manager; Copy - Operation Supervisor - Administrative Detention Unit; Copy – Psychology; Copy - Central File

## MEMORANDUM

Metropolitan Correctional Center, New York, New York

July 23, 2019

TO: LT ANDERSON

FROM: S/O/S D. Clarke

SUBJECT: Incident on 9 south

On July 23, 2019 at approximately 1:27, I, S.O.S D. Clarke responded to a body alarm on the Special Housing Unit. While the 9-South officer was conducted rounds inmate Epstein, Jeffrey #76318-054 was found in his cell with a noose around his neck and appeared to be unresponsive. I assisted with taking inmate Epstein #76318-054 from his cell and putting him on a stretcher. The inmate was taken to the second floor and placed on suicide watch, where he was monitored by staff. Moments afterwards, inmate Epstein became responsive. While observing inmate Epstein he sat up on the bed and began telling me that he think his Bunkie, Tartaglione, Nicholas #78514-054 tried to kill him. Inmate Epstein also stated that his Bunkie also tried to extort money from him and stated that if he didn't pay him that he would beat him up. He stated that this has been going on for a week. I asked inmate Epstein if he told staff about this and he told me no, that he'd only told his lawyer. He went on to say that his Bunkie told him that if he beat him up, because of his charges, the officers would not report it and because of this he was not comfortable telling the officers about the prolong threats and alleged attempts to extort him. I immediately reported this to the lieutenant.

COPY 7-23-19

# SIS Time line

8:10 AM SIS Lt. Doctor arrives at institution
8:33 AM Called officer M. Thomas w/Warden to do a wellness check. Thomas stated he was ok & refused to talk.

MEMORANDUM FOR LIEUTENANT'S OFFICE
METROPOLITAN CORRECTIONAL CENTER

FROM: N. Bullock, Unit Manager

SUBJECT: Drop note

On May 28, 2019 at approximately 8:45 am, while conducting legal call I received a drop note from inmate Espinal reg. no. 86832-054. The drop note stated, that he had been raped. I immediately handed over to the Special Housing Unit Officer. Inmate Espinal was immediately removed from his cell and escorted to medical.

| MORNING WATCH OPERATIONS LIEUTENANT | | DAY WATCH OPERATIONS LIEUTENANT | | EVENING WATCH OPERATIONS LIEUTENANT | |

**A staff member must observe all inmates confined in a continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour (example, 12:00 a.m. – 12:30 a.m.) followed by another round in the second 30 minutes period of the same hour (example, 12:30 am – 1:00 a.m.), thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented.**

**A staff member must observe all inmates confined in a continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour (example, 12:00 a.m. – 12:30 a.m.) followed by another round in the second 30 minutes period of the same hour (example, 12:30 am – 1:00 a.m.), thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented.**

**Investigator:** DOCTOR, TIJUANA **Date:** 8/1/2019 5:06:24 AM CST
**Captain:** DARDEN, JARMAINE **Date:** 8/2/2019 10:06:35 AM CST
**Associate Warden:** SKIPPER SCOTT, SHIRLEY **Date:** 8/2/2019 10:32:28 AM CST
**Warden:** N'DIAYE, LAMINE **Date:** 8/2/2019 11:34:41 AM CST

**Summary:**

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erthema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. There were no staff injuries reported.

**Date:** 7/31/2019 9:00 AM **Location:** Receiving And Discharge

**Interviewer:** DOCTOR, TIJUANA **Title:** LIEUTENANT

**Interviewee:** 76318054 - EPSTEIN, JEFFREY

On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he has never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate whom he gets along with, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

**Date:** 7/31/2019 10:00 AM **Location:** SHU All Other

**Interviewer:** DOCTOR, TIJUANA **Title:** LIEUTENANT

**Interviewee:** 78514054 - TARTAGLIONE, NICHOLAS

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was interviewed in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do. Tartaglione stated previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein have in mind in order to try to get released.

**Factual Findings:**

**No item information was found for the given criteria.**

**Conclusion:**

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however Epstein appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erythema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area by SIS Staff. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he have never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione

called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was also interviewed by SIS Staff in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do but previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein may have in mind in order to try to get released. As a result of a threat assessment being conducted a medical assessment was conducted on inmate Tartaglione and Tartaglione was not identified with any injuries. Based on the information received throughout the course of the investigation there is insufficient evidence to support Epstein was assaulted by Tartaglione. Additionally, based on the fact that during the interview with SIS staff Epstein indicated that he does not feel threatened by Tartaglione, and he has a new cell mate whom he get along with it cannot be determined that Epstein safety is in jeopardy at MCC New York.

**Recommendation:**

Based on the information received and the fact that Epstein, Jeffrey; Reg. No. 76318-054 indicated that he does not feel threatened by Tartaglione, Nicholas; Reg. No. 78514-054, there are no CIMS Assignment of Separations warranted at this time.

**CIMS Separation Warranted:** No

# ADMINISTRATIVE DETENTION ORDER

**U.S. DEPARTMENT OF JUSTICE**
**FEDERAL BUREAU OF PRISONS**

NEWYORK MCC
Institution

Date/Time: 07-10-2019

TO: Special Housing Unit Officer

FROM: S. JEAN, LIEUTENANT, (Name/Title)

SUBJECT : Placement of EPSTEIN, JEFFERY, Reg. No. 7-10-2019, in Administrative Detention

_____(a) Is pending an investigation for a violation of Bureau regulations;

_____(b) Is pending an SIS investigation.

_____(c) Is pending investigation or trial for a criminal act;

_____(d) Is to be admitted to Administrative Detention

_____(1) Since the inmate has requested admission for protection;

I hereby request placement in Administrative Detention for my own protection.

Inmate Signature/Register No.: _____

Staff Witness Printed Name Signature: _____

_____(2) Since a serious threat exists to individual's safety as perceived by staff, although person has not requested admission; referral of the necessary information will be forwarded for an appropriate hearing by the SRO.

_____(e) Is pending transfer or is in holdover status during transfer.

___✓___(f) Is pending classification; or

_____(g) Is terminating confinement in Disciplinary Segregation and has been ordered into Administrative Detention by the Warden's designee.

It is this Correctional Supervisor's decision based on all the circumstances that the above named inmate's continued presence in the general population poses a serious threat to life, property, self, staff, other inmates, or to the security or orderly running of the institution because*
PENDING CLASSIFICATION

Therefore, the above named inmate is to be placed in Administrative Detention until further notice. The inmate received a copy of this Order on

(date / time) 7-10-19

Staff Witness Signature/Printed Name _____ Date 7-10-19

Supervisor 24 hour review of placement: Signature/Printed name _____

* In the case of DHO action, reference to that order is sufficient. In other cases, the Correctional supervisor will make an independent review and decision, which is documented here.

Record Copy - Inmate Concerned (not necessary if placement is a result of holdover status); Copy - Captain; Copy - Unit Manager; Copy - Operation Supervisor - Administrative Detention Unit; Copy – Psychology; Copy - Central File

**Investigator:** DOCTOR, TIJUANA — **Date:** 8/1/2019 5:06:24 AM CST
**Captain:** DARDEN, JARMAINE — **Date:** 8/2/2019 10:06:35 AM CST
**Associate Warden:** SKIPPER SCOTT, SHIRLEY — **Date:** 8/2/2019 10:32:28 AM CST
**Warden:** N'DIAYE, LAMINE — **Date:** 8/2/2019 11:34:41 AM CST

**Summary:**

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erthema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. There were no staff injuries reported.

**Date:** 7/31/2019 9:00 AM

**Location:** Receiving And Discharge

**Interviewer:** DOCTOR, TIJUANA

**Title:** LIEUTENANT

**Interviewee:** 76318054 - EPSTEIN, JEFFREY

On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he has never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate whom he gets along with, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

**Date:** 7/31/2019 10:00 AM

**Location:** SHU All Other

**Interviewer:** DOCTOR, TIJUANA

**Title:** LIEUTENANT

**Interviewee:** 78514054 - TARTAGLIONE, NICHOLAS

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was interviewed in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do. Tartaglione stated previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein have in mind in order to try to get released.

**Factual Findings:**

**No item information was found for the given criteria.**

**Conclusion:**

On July 23, 2019 at approximately 1:27 a.m., while making routine rounds inside the Special Housing Unit, staff observed inmate Epstein, Jeffrey Reg. No. 76318-054, lying in the fetal position on the floor with a homemade fashioned noose around his neck. Inmate Epstein was breathing heavily, however Epstein appeared to be responsive. Inmate Epstein was directed by staff to stand and submit to restraints. Inmate Epstein would not stand on his own and would not comply with staff directives. Staff entered the cell and placed inmate Epstein in both hand and leg restraints. Inmate Epstein was searched, metal detected, placed on a gurney and escorted from the scene without further incident. Inmate Epstein was photographed, medically examined and determined to have sustained a circular line of erythema at the base of the neck and friction marks on the front of neck, and small 2cm erythema on left knee. Inmate Epstein was placed on suicide watch with all necessary notifications made. On July 31, 2019, at approximately 9:10 A.M., inmate Epstein, Jeffrey; Reg. No. 76318-054, was interviewed in the Receiving and Discharge Area by SIS Staff. During the interview Epstein stated he did not have any sleep in approximately twenty days and he was extremely tired the night he was found on the floor. Epstein stated he got up off his bed at approximately 1:30 A.M., to get a drink of water, and all he can recall is being on the floor and hearing someone snoring that's when he realized the snoring was coming from him. Epstein alleged that his cell mate Tartaglione, Nicholas; Reg. No. 78514-054, was on the floor sleeping at the time. Epstein stated he have never had any issues with Tartaglione, he is not threatened by Tartaglione, and he do not want to make up something that isn't there. Additionally, Epstein stated he can recall an incident that occurred two days prior when Tartaglione went out to court and when Tartaglione returned he was upset. Epstein stated he attempted to talk to Tartaglione and Tartaglione

called him a pedophile. Epstein also stated he knew Tartaglione was upset and he let him cool off. Epstein stated he does not have any issues with Tartaglione and he feels safe being housed with Tartaglione. Epstein stated he does not feel suicidal, he has a new cell mate, and he is able to sleep now that he has his C-Pap machine. Epstein stated if he remembered anymore details he would reach out to staff or Psychology.

On July 31, 2019, at approximately 10:00 A.M., inmate Tartaglione, Nicholas; Reg. No. 78514-054, was also interviewed by SIS Staff in the Special Housing Unit. During the interview Tartaglione stated he was asleep on the floor inside of his cell, his head was covered with a sheet, and he had his headphones in his ear when he felt something hit his foot. Tartaglione stated when he uncovered his head he observed Epstein, Jeffrey; Reg. No. 76318-054, sitting on the floor in the corner with his eyes open. Tartaglione stated he began to call Epstein's name and when Epstein did not answer he began to bang on the door for the officer. Tartaglione stated he thought Epstein was having a heart attack because his eyes was open and he appeared to be snoring. Tartaglione stated he does not have any issues being housed with Epstein although he keeps his conversation to a minimal. Tartaglione stated he does not understand Epstein's motive and what he is trying to do but previously during one of their conversations Epstein made him uncomfortable when Epstein stated " fourteen (14) is legal in most states and I don't understand what's the problem here". Additionally, Tartaglione stated Epstein normally paces the cell and complains about his attorney's not doing their job and he needs to fire them. Tartaglione stated he does not have any issues being housed with Epstein however he does not want to be involved with any plots Epstein may have in mind in order to try to get released. As a result of a threat assessment being conducted a medical assessment was conducted on inmate Tartaglione and Tartaglione was not identified with any injuries. Based on the information received throughout the course of the investigation there is insufficient evidence to support Epstein was assaulted by Tartaglione. Additionally, based on the fact that during the interview with SIS staff Epstein indicated that he does not feel threatened by Tartaglione, and he has a new cell mate whom he get along with it cannot be determined that Epstein safety is in jeopardy at MCC New York.

**Recommendation:**

Based on the information received and the fact that Epstein, Jeffrey; Reg. No. 76318-054 indicated that he does not feel threatened by Tartaglione, Nicholas; Reg. No. 78514-054, there are no CIMS Assignment of Separations warranted at this time.

**CIMS Separation Warranted:** No

## CHEMISTRY

| | | | | |
|---|---|---|---|---|
| Sodium | | 137 | 137-148 | mmol/L |
| Potassium | | 4.7 | 3.5-5.0 | mmol/L |
| Chloride | | 99 | 99-114 | mmol/L |
| CO2 | | 27 | 22-30 | mmol/L |
| BUN | | 17 | 7-22 | mg/dL |
| Creatinine | | 1.05 | 0.66-1.25 | mg/dL |
| eGFR (IDMS) | | >60 | | |

GFR units measured as mL/min/1.73 m^2. If African American multiply by 1.210.
A calculated GFR <60 suggests chronic kidney disease if found over a 3 month period.

| | | | | |
|---|---|---|---|---|
| Calcium | | 9.8 | 8.5-10.9 | mg/dL |
| Glucose | | 102 | 70-110 | mg/dL |
| AST | H | 57 | 11-55 | U/L |
| ALT | | 62 | 11-66 | U/L |
| Alkaline Phosphatase | | 64 | 41-133 | U/L |
| Bilirubin, Total | | 1.1 | 0.2-1.3 | mg/dL |
| Total Protein | | 7.3 | 6.0-8.2 | g/dL |
| Albumin | | 4.4 | 3.6-5.1 | g/dL |
| Globulin | | 2.9 | 2.0-3.7 | g/dL |
| Alb/Glob Ratio | | 1.50 | 1.00-2.30 | |
| Anion Gap | | 10.2 | 9.0-19.0 | |
| BUN/Creat Ratio | | 16.1 | 5.0-30.0 | |
| Cholesterol | H | 216 | <200 | mg/dL |
| Triglycerides | H | 413 | 10-150 | mg/dL |

Calculation of LDL is not appropriate for samples with a triglyceride greater than 400 mg/dL. Therefore the LDL is not calculated.

| | | | | |
|---|---|---|---|---|
| HDL Cholesterol | L | 31 | 40-60 | mg/dL |
| Chol/HDL Ratio | H | 6.9 | 0.0-4.0 | |

# Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Correctional Center

150 Park Row

New York, New York 10007

July 23, 2019

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** G. Anderson, Operations Lieutenant

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. While awaiting the arrival of an inmate companion, inmate Epstein sat on the edge of the bed and began moving forward as if he was attempting to fall over head first. When I looked away, he straightened up. As I turned to look at him again, he attempted the same act. I laid him down on the bed and directed him to cease his action or he would be placed in restraints for his safety. At that moment, he stated, "Okay, I won't do it again," and gave the thumbs up. Because of his unpredictable behavior, the decision was made to have a staff member observe inmate Epstein. I left HA-Unit in order to make staff notifications. Moments later, I spoke with Officer Clarke who stated that inmate Epstein was alert and had indicated that his cellmate, Tartaglione, Nicholas #78514-054 had attempted to kill him and had been harassing him. He stated that the inmate had indicated that he'd informed his attorney of this matter.

I photographed and spoke with inmate Tartaglione, Nicholas #78514-054 who stated that he was asleep with his headphones on when he felt something hit his legs and said, "Jeff, what you're doing?" He didn't answer, so he got up, turned on the light and saw him with a string around his neck. He stated that he then called the guards and

COPY 7-23-19

EFTA00049346

they ran down. Upon further questioning, inmate Tartaglione stated that he sleeps on the bottom bunk, but gave it to inmate Epstein because he's old. He stated that he sleeps on the floor on a mattress. He stated that when he got up, he couldn't remember if he sat up or stood up to check on Epstein. He stated that Epstein was sitting on the floor leaning to the side with his eyes opened, but wasn't responding. He stated that the last time he saw him he was snoring really loud.

Inmate Epstein stated that he came in from a legal visit at approx. 8:00PM and staff handed him a copy of the Daily News. "Nick" was on the floor reading the Daily News. He stated that he had given it to him. He stated that Tartaglione mentioned that he'd been in court all day in Westchester and was carrying on. At that point, inmate Tartaglione paused as if he was making the story up as he went along, and stated that Tartaglione stated, "These fucking niggers. This place is inhumane, I wish I could report it. Silva(Officer), that nigger hobbit mother fucker." He then turned to a page in the Daily News that had his picture on it and stated that Epstein was worth seventy seven million dollars. Epstein stated that he took his picture, balled it up and threw it in the garbage. I asked inmate Epstein what happened prior to staff's arrival. He stated that at approx. 1:00 AM, he'd gotten up to get a drink of water, as he gets up every thirty minutes. He remember walking back to his bunk and waking up with staff there in his cell. I asked if he'd waken up and seen staff, why didn't he respond when we were calling out to him? He stated that he only remembered hearing himself making a noise like snoring. When asked about the allegations against his cellmate, he stated that he was told, if he hurt him, staff wouldn't care.

Duty medical, Dr. Beaudouin was notified and briefed. It was determined no further medical attention was needed. A medical assessment was not conducted at the time of this incident, due to the fact, there was no medical staff available after 10:00 PM.

Upon the arrival of medical staff, inmate Epstein was examined and treated by, MLP Y. Joaquin for a circular line of erythema at the base of the neck, one section on the front with marks of friction and a small erythema on his left knee.

# Memorandum

FEDERAL BUREAU OF PRISONS

Metropolitan Correctional Center

150 Park Row

New York, New York 10007

July 23, 2019

**MEMORANDUM FOR ALL CONCERNED**

**FROM:** G. Anderson, Operations Lieutenant

**SUBJECT:** Possible Suicide Attempt

On July 23, 2019 at approx. 1:27 a.m., a call for assistance on the Special Housing Unit was announced by the Control Center. Upon my arrival I was informed that an inmate had attempted suicide and proceeded to cell, Z05-124LAD. I observed inmate Epstein, Jeffrey #76318-054 lying in the fetal position on the floor of his cell wearing a t-shirt and boxers. He was breathing heavily and was snoring. I called out to inmate Epstein and observed him flicker his eyes and continue snoring. His neck was red with no abrasions. I observed no further injuries to his person. An attempt was made to get the inmate to stand on his own with negative results. The inmate was placed in hand restraints and staff was directed to retrieve the stretcher. As inmate Epstein was being placed on the stretcher by responding staff, he would open his eyes and observe staff. When staff made eye contact with him, he would hurriedly shut his eyes. The inmate was taken to HA-Unit, dressed in the suicide smock and placed on suicide watch. While awaiting the arrival of an inmate companion, inmate Epstein sat on the edge of the bed and began moving forward as if he was attempting to fall over head first. When I looked away, he straightened up. As I turned to look at him again, he attempted the same act. I laid him down on the bed and directed him to cease his action or he would be placed in restraints for his safety. At that moment, he stated, "Okay, I won't do it again," and gave the thumbs up. Because of his unpredictable behavior, the decision was made to have a staff member observe inmate Epstein. I left HA-Unit in order to make staff notifications. Moments later, I spoke with Officer Clarke who stated that inmate Epstein was alert and had indicated that his cellmate, Tartaglione, Nicholas #78514-054 had attempted to kill him and had been harassing him. He stated that the inmate had indicated that he'd informed his attorney of this matter.

I photographed and spoke with inmate Tartaglione, Nicholas #78514-054 who stated that he was asleep with his headphones on when he felt something hit his legs and said, "Jeff, what you're doing?" He didn't answer, so he got up, turned on the light and saw him with a string around his neck. He stated that he then called the guards and

| Date of Birth: | 01/20/1953 | Sex: M | Facility: NYM | Unit Team: | A&O |
| Date: | 07/08/2019 09:24 | Provider: Schlessinger, K. PsyD/PhD | | | |

**Limits of Confidentiality**

Limits of confidentiality were reviewed with inmate EPSTEIN. He expressed an understanding of the limits of confidentiality and consented to be interviewed accordingly.

**Data Source(s)**

The following data sources were reviewed in conjunction with this Initial Intake Evaluation: Self-Report, SENTRY, Staff Observation.

Inmate Epstein is a 66-year-old, Black male who was seen by Psychology Services due to newly arriving at MCC-NY. He denied a history of mental health treatment on his Psychology Services Intake Questionnaire.

**Mental Health History and Current Symptoms**

No history of mental health issues was noted.

No history of prior mental health treatment was noted.

No current mental health symptoms were noted.

No suicidal ideation, attempts, or self-harm were noted.

**Substance Abuse**

No history of substance abuse was noted.

No history of substance abuse treatment was noted.

**Sex Offenses**

No sexual offense convictions were noted.

No history of sexual predation in a correctional setting was noted.

**Relevant Psychosocial History**

Noteworthy psychosocial issues: Other.

Inmate Epstein is currently incarcerated for a Sex Trafficking. He stated he was previously incarcerated three months f or prostitution. Inmate Epstein stated he is single and does not have any children. He revealed he was living in New York. He stated he completed high school. He stated he was employed in banking work prior to his incarceration.

**Adjustment to Incarceration**

Adjustment to incarceration concerns were identified: Other.

SEXUAL ABUSE HISTORY

Inmate Epstein denied being the victim of physical or sexual abuse. He is currently charged with sex trafficking and has previously been charged with prostitution. He was informed of the programs offered by MCC-NY as well as the Bureau of Prisons. Additionally, he was informed of this institutions self-help program. Inmate Epstein reported he was not currently interested in any treatment programs.

MENTAL STATUS:

Inmate Epstein appeared calm, controlled, without signs of psychomotor agitation or retardation. He was fully cooperative, maintained good eye-contact, and related in an interpersonally appropriate manner with interviewer. Speech and thought processes were organized, coherent, logical, and goal-directed.

Based on informal assessment during this interview, this inmate's cognitive functioning appeared within normal limits, as reflected by adequate long and short-term memory, good attention, and appropriate concentration during interview, as well as adequate receptive and expressive language skills. Inmate denied any current sleep disturbances and described his appetite as adequate.

This inmate denied recent or present morbid thoughts, passive or active suicidal ideation, intent or plan and contracted for safety. This inmate's verbalizations were optimistic, future oriented, and without indications of helpless or hopeless thinking. Inmate Brown denied any familial history of suicide behaviors or attempts.

This inmate was provided with supportive psychotherapy, and psycho-education to strengthen coping skills and facilitate adjustment to incarceration.

**Findings**

Care Level: CARE1-MH

Inmate EPSTEIN denied any history of mental health symptoms or treatment. He denied any current mental health symptoms. He does not meet criteria for any current psychological diagnosis. He meets criteria for Mental Health Care Code 1.

CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Recommendations**

The following psychological services are recommended: Other.

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He does not appear to be in distress at this time. He agreed to contact psychology if he feels he needs psychology services in the future. He meets criteria for CC1 and does not require scheduled follow up at this time.

# Risk of Sexual Abusiveness

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | | | Reg #: | 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: | M | Facility: | NYM | Unit Team: | A&O |
| Date: | 07/08/2019 09:35 | Provider: | Schlessinger, K. PsyD/PhD | | | | |

**Comments**

Risk of Sexual Abusiveness

During the intake screening process, for Inmate Epstein, based on the documentation available at the time of the screening, and Inmate Epstein's self-report, he was identified as being at risk for sexual abusiveness due to previous perpetration of sexual abuse in the community or in an institutional setting, as evidenced by the following objective criteria:

( ) Having a history of prior institutional violence or sexual abuse perpetration
(X ) Having a history of prior sexual abuse perpetration in the community
(X ) Having prior convictions of violent offenses

As required by P5324.11, Sexually Abusive Behavior Prevention and Intervention, Inmate Epstein was seen by Psychology on today's date to assess his risk factors for sexual abusiveness. At the onset of this clinical contact, the inmate was informed about the BOP requirements regarding PREA. Inmate Epstein indicated he understands the institution's policy against engaging in sexual behavior. His risk factors for sexual abusiveness were assessed and include:

( ) History of prior sexual victimization in prison
( X ) History of prior prison sexual predation
( ) History of head injury with loss of consciousness
( ) History of childhood psychological, physical, sexual abuse
( ) Witnessed family violence
( ) Antisocial Personality Disorder traits of irritability/aggressiveness and recklessness
( ) Hypersexuality (defined by eight or more orgasms a week prior to prison)
( ) Hypermasculinity
( ) Other:

Based on this clinical assessment, the inmate is considered to be at:

(X ) Low Risk of Abusiveness at this facility (Note: Even though this inmate is judged to be at low risk of sexual abusiveness, an unforeseen change in risk factors may significantly alter his risk level.). Programming recommendations included sex offender treatment. Inmate Epstein declined programming recommendations.The inmate understands the procedure for contacting Psychology for routine or emergent services.
( ) Moderate Risk of Abusiveness. The Unit Team and Correctional Staff have been notified regarding Psychology staff's recommendation that he not be housed in a cell with any inmates identified as at increased risk for sexual victimization. Psychology also recommends a greater level of supervision regarding his work and education assignments. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.
( ) High Risk of Abusiveness. It is recommended this inmate be housed in the Special Housing Unit in accordance with P5324.11 to "keep separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive" until Correctional Services and Correctional Programs staff can assess his appropriateness for general population at this facility. This inmate should not be housed with any inmates judged to be at an increased risk for sexual victimization. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.

**Comments**

This writer consulted with Dr. Robert Nagle, Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment.

**Type of Housing:** Other Psychological Observation
**Cell Accommodation:** Single Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information:
Clinical Interview, Medical Record

Inmate Epstein was placed on psychological observation when he returned from court yesterday evening 7/8/19 for precautionary reasons. He is not on a suicide watch at this time.

**Reason for Referral**

Inmate Epstein is being seen for suicide risk assessment today for precautionary reasons. Inmate Epstein has various risk factors for suicidality at this time including a high profile case with media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which could have given him bad news regarding his legal situation. As such, this writer instructed R&D staff, as well as the Lieutenant's Office, to immediately notify the psychology department when he returned from court. Inmate Epstein returned from court after duty hours and denied suicidality. The aforementioned staff notified the on-call psychologist and inmate Epstein was placed on a precautionary psychological observation status until psychology could interview him this morning to conduct a suicide risk assessment.

**Developmental History**

Inmate Epstein denied any history of being the victim and/or perpetrator of physical or sexual abuse.

**Educational History/Cognitive Impairment**

Inmate Epstein reported he obtained his high school diploma and attended some graduate classes in the area of mathematics.

**Arrest History and Experience of Incarceration**

Inmate Epstein reported he has served time in Palm Beach County jail on sex offense charges (soliciting prostitution) in the past. He is now being charged with sex trafficking, on a federal level.

**Mental Health History**

Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time.

**Self-Harm History**

Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past.

**Substance Abuse History**

Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol.

**Medical Concerns**

Inmate Epstein denied any significant medical problems, other than a history of high triglycerides. He reported feeling constipated at this time.

**Current Problem**

Inmate Epstein is currently on psychological observation due to his having multiple risk factors associated with suicidality. He denies any suicidality at this time and has no mental health or suicide history. He is being seen for a suicide risk assessment in an abundance of caution.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

See Amendment

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Inmate Epstein did not exhibit any acute psychopathology and exhibited a clear mental status.

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. The inmate spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

Of the **DYNAMIC** risk factors assessed, none were found to be present.

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

As noted above, Inmate Epstein is a 66-year-old Caucasian male. He has various risk factors for suicidality at this time including a high profile case with extensive media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which may have given him bad news regarding his legal situation. Inmate Epstein also informed this writer that his only family at this time is his brother, with whom he does not have a close relationship with.

Despite these risk factors, inmate Epstein possesses a number of protective factors at this time. Inmate Epstein adamantly denied any suicidal ideation, intention or plan. He was very future oriented and requested a phone call, to meet with his attorney, to take a shower, and to brush his teeth. He was eating his cereal when this writer arrived and said "I have my paper spoon here." He reported he is going to have a bail hearing on Monday and believes he is going to be released from jail. Inmate Epstein reported he is a Banker and has a "big business" in the community and that "being alive is fun." He also revealed he enjoys learning and teaching. He has confidence in his attorney and described him as "competent." Inmate Epstein denied any mental health history or history of suicidality. He also reported none of his family members have mental health histories. Inmate Epstein stated he is a mathematician and took post graduate classes in this area of study. Inmate Epstein stated he has a support system in the community, including friends and other associates. Finally, inmate Epstein demonstrated a good sense of humor and did not appear dysphoric, agitated or anxious. No acute psychopathology was noted.

Overall, inmate Epstein has numerous protective factors at this time that outweigh his risk factors for suicidality. He has a positive outlook regarding his legal case, demonstrates no psychiatric symptoms, has no psychiatric or suicide history, and verbalized a desire to be alive at this time and future orientation.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

See Amendment

EFTA00049420

**RECOMMENDATIONS**

Inmate Epstein is currently on psychological observation pending suitable housing placement. In light of his current sex offense charges and extensive media coverage on the television, he will need to be confined in a suitable housing unit. Inmate Epstein will be seen daily while on psychological observation and will be seen for a psychological observation follow-up session once he is released from observation. Inmate Epstein denied the need for psychological intervention, self-help materials, or follow-up. He has been classified as a CC1-MH inmate at this time. CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Suicide Watch: A suicide watch is not warranted at this time**

**Medical Concerns**

Inmate Epstein denied any significant medical problems, other than a history of high triglycerides. He reported feeling constipated at this time.

**Current Problem**

Inmate Epstein is currently on psychological observation due to his having multiple risk factors associated with suicidality. He denies any suicidality at this time and has no mental health or suicide history. He is being seen for a suicide risk assessment in an abundance of caution.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Inmate Epstein did not exhibit any acute psychopathology and exhibited a clear mental status.

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. The inmate spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Sex offender status, Lack of family connections, High Profile Crime

Of the **DYNAMIC** risk factors assessed, none were found to be present.

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Willingness to engage in treatment, View of death as negative, Future orientation, Denial of suicidal ideation/intention/plans, Adequate problem solving skills, Able to identify reasons to live

As noted above, Inmate Epstein is a 66-year-old Caucasian male. He has various risk factors for suicidality at this time including a high profile case with extensive media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which may have given him bad news regarding his legal situation. Inmate Epstein also informed this writer that his only family at this time is his brother, with whom he does not have a close relationship with.

Despite these risk factors, inmate Epstein possesses a number of protective factors at this time. Inmate Epstein adamantly denied any suicidal ideation, intention or plan. He was very future oriented and requested a phone call, to meet with his attorney, to take a shower, and to brush his teeth. He was eating his cereal when this writer arrived and said "I have my paper spoon here." He reported he is going to have a bail hearing on Monday and believes he is going to be released from jail. Inmate Epstein reported he is a Banker and has a "big business" in the community and that "being alive is fun." He also revealed he enjoys learning and teaching. He has confidence in his attorney and described him as "competent." Inmate Epstein denied any mental health history or history of suicidality. He also reported none of his family members have mental health histories. Inmate Epstein stated he is a mathematician and took post graduate classes in this area of study. Inmate Epstein stated he has a support system in the community, including friends and other associates. Finally, inmate Epstein demonstrated a good sense of humor and did not appear dysphoric, agitated or anxious. No acute psychopathology was noted.

Overall, inmate Epstein has numerous protective factors at this time that outweigh his risk factors for suicidality. He has a positive outlook regarding his legal case, demonstrates no psychiatric symptoms, has no psychiatric or suicide history, and verbalized a desire to be alive at this time and future orientation.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

EFTA00049424

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

**RECOMMENDATIONS**

Inmate Epstein is currently on psychological observation pending suitable housing placement. In light of his current sex offense charges and extensive media coverage on the television, he will need to be confined in a suitable housing unit. Inmate Epstein will be seen daily while on psychological observation and will be seen for a psychological observation follow-up session once he is released from observation. Inmate Epstein denied the need for psychological intervention, self-help materials, or follow-up. He has been classified as a CC1-MH inmate at this time. CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Suicide Watch: A suicide watch is not warranted at this time**

| Date: | 07/09/2019 10:13 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Relevant Historical Information**

Inmate Epstein is a 66-year-old Caucasian male, currently incarcerated on sex trafficking charges. He denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time. Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past. Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol.

**Presenting Problem/Symptom**

Inmate Epstein was seen for suicide risk assessment today for precautionary reasons. He did not mark any mental health items or symptoms on his Psychology Questionnaire (PSIQ) when he entered the institution. Nonetheless, Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense/trafficking charges, pre-trial status, and he had a court proceeding yesterday which could have given him bad news regarding his legal situation. Inmate Epstein returned from court after duty hours yesterday evening and staff notified the on-call psychologist. Inmate Epstein was placed on a precautionary psychological observation status until psychology could interview him this morning to conduct a formal suicide risk assessment to determine whether he is currently at-risk for suicidality.

**Diagnostic Formulation**

Inmate Epstein has no history of mental health problems and does not exhibit suicidality at this time. He has never received inpatient or outpatient mental health treatment and denied any history of suicidality. Currently, he does not exhibit any acute psychopathology, is currently psychologically stable and is in no psychological distress. As such, he is being classified as a CC1-MH inmate at this time. CARE1-MH is indicative of an inmate who either has no identifiable mental illness (Axis I "No Diagnosis") or is mildly ill and requires clinical intervention on an as-needed basis.

**Care Level Formulation**

CARE1-MH is indicative of an inmate who shows no significant level of functional impairment associated with a mental illness and demonstrates no need for regular mental health intervention.

**Diagnosis:**

No Diagnosis, No Dx - Current

| Date: | 07/10/2019 08:38 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Focus of Session**

Inmate Epstein was seen today for a psychological observation contact in the hospital area by this writer.

**Subjective/Objective Presentation**

Inmate Epstein appeared well and it was noted in his log book and eating/sleeping chart that he has been eating his meals, sleeping, interacting with the inmate companions, and pacing in his cell. Today, he presented this writer with numerous concerns and requests. He stated he does not want to be housed in the SHU because he is not comfortable there; he wants to be single-celled if he goes to the SHU; he wants Colace, not the Ducolex he received from medical yesterday; he wants to be able to walk around and go to recreation; he does not want to wear an orange uniform to his legal visits because he is treated "like a punished inmate;" he wants a phone call before he leaves the psychological observation area; he wants a shower and towel; he would like to be housed in the cadre (5S) unit; and would like his property, paper, and a pen.

Inmate Epstein's concerns were addressed by this writer and it was explained to him he will not be single-celled or placed in a housing unit for safety and security concerns. His medical concerns (constipation) were discussed with health services as well as his desire to be placed on Colace. Inmate Epstein was provided a shower this morning.

**Intervention(s)**

Inmate Epstein was provided with supportive intervention and coping skills strategies today. He was receptive to interventions and was able to elucidate his various needs. He did not present with any acute psychopathology and continues to deny any suicidal ideation, intention, or plan. He is looking forward to his bail hearing on Monday but stated he is aware that even if he gets bail, it will take at least two weeks to sort things out so he can leave the jail.

**Progress/Plan**

Inmate Epstein is not in any psychological distress, does not present with any mental health symptoms or complaints, and is denying any suicidality. He appears psychologically stable at this time and can be released from the psychological observation area. Inmate Epstein will be housed in the 9S area with a cellmate. He will be seen again tomorrow by psychology to evaluate his mental status and psychological stability.

| Date: | 07/11/2019 15:21 | Provider: | Miller, Elissa PhD/Chief | | | | |

**Focus of Session**

Inmate Epstein was seen for his psychological observation follow-up in attorney conference this afternoon.

**Subjective/Objective Presentation**

Inmate Epstein reported he has been consulting with his attorney most of the day. He elucidated concerns about his incarceration including not receiving his property yet in SHU, feeling cold in his cell, not receiving his Colace, not having enough water in attorney conference, and a desire to recreate in SHU." Inmate Epstein was also upset about wearing an orange jumpsuit and being treated like "a bad guy" when he did not do anything wrong in the prison. Custody and security concerns were addressed with inmate Epstein including why he has to wear his orange jumpsuit (due to his being housed in SHU). He requested that he be placed in a brown uniform during his legal visits. He was told his concerns would be addressed in the SHU meeting.

Inmate Epstein stated he is not having any current problems with his cellmate and indicated he at bran cereal for breakfast and took a shower yesterday. He did not sleep well last night. Inmate Epstein continues to deny any suicidal ideation, intention or plan. He did not appear to be in any distress at this time.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions, CBT-based interventions, and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. He will be seen next week after his bail hearing to assess his mental status and psychological stability.

| Date: | 07/16/2019 12:48 | Provider: | Miller, Elissa PhD/Chief | | |

**Focus of Session**

Inmate Epstein called for this writer in attorney conference today. The officer in attorney conference notified this writer that he was asking to be seen.

**Subjective/Objective Presentation**

Inmate Epstein reported he has not received a spoon or soap in SHU, nor did he receive the phone calls that were "promised to him." He told this writer we need to have mutual trust that his needs are met in the prison. This writer told inmate Epstein that she would address his concerns. On the way out, a staff member told this writer she witnessed inmate Epstein receive two phone calls from the Lt. Nonetheless, this writer informed the SHU lieutenant of his concerns and he said he would ensure that he had soap, a spoon, and his initial SHU phone call. Inmate Epstein did not have any psychological concerns today. He denied any mental health symptoms or suicidality. He has been eating as best as he can and has requested a Kosher diet.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions. He continued with his legal visit.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. There appears to be no need for follow up at this time. He will be seen in SHU for rounds and monthly SHU reviews.

**Type of Housing:** SHU- Administrative Segregation
**Cell Accommodation:** Double-Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information: Clinical Interview, Medical Record, Psychology Data System, Sentry

**Reason for Referral**

The On Call Psychologist, Dr. Miller, had been contacted by the Operations Lt. at about 2 AM on 7/23/19 to inform her that Mr. Epstein was being placed on Suicide Watch because he was found with a string around his neck. Mr. Epstein was seen by this writer for a Suicide Risk Assessment at about 9:10 AM on 7/23/19.

This note is being entered at about 3:35 PM on 7/23/19.

**Mental Health History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

**Self-Harm History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

**Substance Abuse History**

According to a Suicide Risk Assessment dated 7/09/19 by Dr. Miller, "Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol."

**Current Problem**

Earlier this morning Mr. Epstein was found by SHU staff in his cell with a string loosely tied around his neck. It is unclear at this time if Mr. Epstein had placed the string around his own neck.

When Mr. Epstein was asked by this writer how he ended up on Suicide Watch, he denied remembering. He stated he got a drink of water last night in his cell and went back to bed. He said the next thing he remembered is hearing himself snore. He said he wants to know why he is on Suicide Watch. He was informed that staff stated he was found in his cell with a string on his neck. According to Medical records, he had been seen by Medical for this and had a rule out of self inflicted injuries.

When this writer reviewed the Staff Suicide Watch Log, it noted that Mr. Epstein told the staff watching him that his cellmate tried to kill him, which Mr. Epstein did not tell this writer when this writer had interviewed Mr. Epstein. This writer was not able to ask Mr. Epstein about this, since Mr. Epstein was now in Legal. The Captain was notified about this notation and the Captain stated they were already aware of this statement.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

**RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: He was found by staff in his cell in SHU with a string loosely tied around his neck, which Mr. Epstein stated he did not remember anything about. It is unclear at this time if Mr. Epstein had placed the string around his own neck or if someone else did. According to Medical, he had a circular line around the base of his neck, which he denied knowing how he obtained. He stated his throat hurts which was reported to Medical. He has a high profile sex offense case and recently was denied bail. When asked if he has any friends or family that are emotionally supportive, he stated he does not know what that means. When emotional supports were explained to him and then again asked if he as any family or friends that are emotionally supportive, he was vague and said he has a lot of people.

Protective Factors: He denied current suicidal or self harm thoughts or ever having these thoughts. He denied a history of self harm and suicide attempts. He denied a family history of suicidal and self harm attempts. He denied having any chronic medical conditions. He denied feeling hopeless. He denied a history of childhood abuse. He denied fearing for his safety. He denied feeling like a burden to anyone. He reported he is sleeping adequately. He stated he lives to have fun, to enjoy life, and to learn. He said his future plans include fighting his case and going back to his normal life.

Whereas, he is denying suicidal and self harm thoughts and has a lot of protective factors, he is denying that he remembers how he ended up on Suicide Watch and has marks encircling his neck. It is unclear at this time if he had placed the string around his neck or if someone else did. He will remain on Suicide Watch for further observation and safekeeping.

**DIAGNOSIS:**

No Diagnosis, No Dx - Current

**CONCLUSIONS**

The Overall Acute Suicide Risk for this Inmate is: Moderate
Overall Chronic Suicide Risk for this Inmate is: Absent

**RECOMMENDATIONS**

1. Mr. Epstein will remain on Suicide Watch for further observation and safekeeping.
2. While on Suicide Watch, he will be continuously observed by Inmate Companions.
3. While on Suicide Watch, he will be seen daily by Psychology.
4. Supportive and educative interventions were provided.
5. Medical was informed that he reported his throat hurts.

**Suicide Watch: A suicide watch was initiated by non-clinical staff and continues to be warranted**
**Suicide Watch was initiated on:** 07/23/2019 01:40

**Watch Start Date:** 07/23/2019 01:40 **Watch Stop Date:** 07/24/2019 08:45

**Total Time on Watch:** 31 hrs 5 minutes

**Watch Conducted By:** Both inmates and staff **Transfered to Medical Center:** No

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: Mr. EPSTEIN was alert and oriented. He was polite, calm, and cooperative in demeanor. He exhibited a neutral affect with appropriate range. Eye contact and hygiene were appropriate. The inmate spoke with normal rate, tone, and volume. His thoughts were organized and coherent, with no loosening of associations or tangential, circumstantial, or irrelevant content. There was no evidence of perceptual disturbance, delusional ideation, or a formal thought disorder. He did not engage in any bizarre or inappropriate behavior. He noted having normal sleeping and eating habits. Mr. EPSTEIN explicitly denied recent and current suicidal ideation, planning, and intent. He was future-oriented and expressed a commitment to life and safety, agreeing to contact staff immediately should he experience suicidal ideation or psychological distress. He also denied thoughts of harming others.

**Risk Factors Assessed:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self harm.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Fear for own safety

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide:Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: Mr. EPSTEIN has a significant scar around his neck, which is now scabbing over. He reported swelling in this area but denied experiencing any related pain. Mr. EPSTEIN continues to claim a lack of memory for the incident resulting in this scar. The story he provided was vague, such that this writer challenged him a couple of times, but he insisted he was being honest about his lapse in memory. The nature of the incident remain unclear. Mr. EPSTEIN is incarcerated for a very high profile crime with media attention. He was recently denied bail. He also reported difficulty managing his time in the SHU. He reported being fearful for his safety if he is to return to the cell with his previous cell mate.

Protective Factors: Mr. EPSTEIN adamantly denied current suicidal ideation or intent or a history of suicide attempts. He stated, "I have no interest in killing myself." He explained, although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." He denied feelings of hopelessness, although did report being "depressed" and "unhappy" about his current legal situation. He previously denied a history of childhood abuse. He reported he is sleeping adequately now that he is no longer in the SHU. He appear future-oriented as he endorsed an interest in being housed in general population.

Weighing of Risk and Protective Factors: Mr. EPSTEIN adamantly denied sucidality. However, in light of his vague self-report regarding the incident which precipitated his placement on Suicide Watch, combined with his fear for his own safety, reported

difficulty managing his time in the SHU, and the high profile nature of his alleged offense, Mr. EPSTEIN will be stepped down from Suicide Watch to Psychological Observation.

**Changes in Risk Factors Assessed**

Upon a review of the log book, it was indicated Mr. EPSTEIN has been speaking to the inmate companions about having previously taught mathematics and physics. He has been observed pacing the cell as well as sleeping, eating, and drinking within normal limits.

Upon interview today, Mr. EPSTEIN requested he be provided a toothbrush as well as a shower. His requests were made known to the lieutenants and he was provided a shower prior to attending his legal visit. This writer also provided him a toothbrush, toothpaste, and hygiene products.

Asked about the alleged incident which transpired yesterday resulting in his placement on Suicide Watch, Mr. EPSTEIN said he is frustrated he has been placed in a "punishment cell for no reason." Specifically, Mr. EPSTEIN was referring to his placement in the SHU. Asked to recall the events surrounding the alleged incident, Mr. EPSTEIN said his cell mate was "playing with a bed sheet" and he claimed he does not recall the events thereafter. He said he recalled eating meat and drinking water and claimed the next event for which he has memory is his hearing himself snore and waking up on a stretcher.

Mr. EPSTEIN claimed he does not recall himself or his cell mate tying a string or rope around his neck. He said he has "been trying to remember" and "wracking his mind." Asked if he experienced any interpersonal issues with his cell mate, Mr. EPSTEIN described his cell mate as "agitated" and claimed his cell mate called him a "pedophile" for the first time yesterday. His cell mate was also reportedly reading a newspaper article about Mr. EPSTEIN, which bothered him and it was something he believed to be "strange" for their to be an article about him in his cell. Mr. EPSTEIN recalled throwing away the newspaper photograph of himself by crumpling it and flushing it down the toilet. Asked if his cell mate ever threatened to harm him, he denied this to be the case. Asked why he told the inmate companions yesterday his cell mate tried to kill him, while also claiming no memory of the incident, Mr. EPSTEIN again said he did not recall the incident and further stated, "I don't know if he put it there as a joke." Mr. EPSTEIN explained he had been experiencing difficulty sleeping in his SHU cell due to his inmate peers banging on the cell door and window, but has not been experiencing any other acute issues other than this.

**Reason for Removal from Watch**

Mr. EPSTEIN stated, "I have no interest in killing myself." He explained although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." Mr. EPSTEIN did express a feeling of safety being housed on Psychological Observation rather than in the SHU. He asked if he could remain on this status for a couple of days, he was advised his housing situation will be re-evaluated on a day-to-day basis. He expressed a desire to be housed in general population rather than in the SHU and asked if there were a "safer" unit for him to be housed in comparison to the one where he was initially placed. Mr. EPSTEIN claimed there were many MS-13 gang members on the initial unit. He was advised he will be maintained on Psychological Observation in the near future, but his long-term housing situation will be revisited, as it is not ideal for one to remain in isolation on Psychological Observation for extended periods of time. Mr. EPSTEIN acknowledged this information and thanked this writer for her explanation and time.

**Diagnosis:**

No Diagnosis, No Dx - Current

**Conclusions**

The Overall Acute Suicide Risk for this Inmate is: Low
Overall Chronic Suicide Risk for this Inmate is: Absent

**Recommendations**

1. Mr. EPSTEIN will be removed from Suicide Watch and stepped down to Psychological Observation.
2. While on Psychological Observation, he will be continuously observed by Inmate Companions.
3. While on Psychological Observation, he will be seen daily by Psychology.
4. Supportive and educative interventions were provided.
5. Mr. EPSTEIN was provided novels and a request was made for his legal paperwork to be provided to him on Psychological

EFTA00049439

Observation.

6. This writer contacted the Pharmacy to indicate Mr. EPSTEIN has not been receiving his medication used to alleviate his constipation.
7. Mr. EPSTEIN attended a legal visit today, after having been provided a shower.
8. Mr. EPSTEIN was educated about both routine and emergency procedures for contacting psychology.
9. The inmate was encouraged to reach out for PRN services should he experience any psychological distress.

**Focus of Session**

Inmate Epstein was seen by this writer this morning while on psychological observation in the hospital area of the prison.

**Subjective/Objective Presentation**

Inmate Epstein was in good spirits today and engaged in reciprocal conversation with this writer this morning. He smiled and remarked, "welcome back" when this writer arrived. He continues to assert he does not remember how he received marks around his neck, remarking "I do not remember anything, maybe you can give me some cues." He stated he just remembers going for a drink of water and the next thing he knew he woke up to the sound of his own snoring. When this writer attempted to get a more detailed account from him, indicating that it would be rare to have such impairments in memory as he does not suffer from an acute cognitive disorder, he smiled and said he understood my position.

Inmate Epstein did reveal he is unhappy with his current confinement in Special Housing (SHU) as he considers it "a punishment cell." He said he finds the restrictions up there unfair as he has not done anything wrong. Inmate Epstein stated he feels it is dangerous in the SHU, he cannot sleep well up there due to noise from the other inmates, it smells, and it is difficult for him to work on his legal case up there. He stated he has not received the phone calls he was promised nor has he been able to receive recreation. It was explained to him that he spends the entire day in the attorney conference room and it is likely that he has missed the times when staff members have attempted to give him phone calls and recreation. Inmate Epstein also reported complaints about the attorney conference room, stating they do not take him to the bathroom frequently enough.

Inmate Epstein adamantly denied any suicidality at this time, stating "I am too vested in my case to fight it, I have a life and I want to go back to living my life." He denied any acute symptoms at this time.

According to his log book, he has been eating, drinking, sleeping, and interacting with the inmate companions. He has also been attending his daily legal visits.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was mostly receptive to these interventions. He requested to be housed in general population rather than the SHU and stated he wanted to remain on psychological observation due to his concerns with being in the SHU.

**Progress/Plan**

In an abundance of caution, inmate Epstein will remain on psychological observation. He has yet to give an account of how he sustained the marks around his neck, is not revealing much about his mental status, and there are concerns about his adjustment at this time to being housed in the SHU. Inmate Epstein will be seen daily by psychology while on psychological observation.

**Focus of Session**

Inmate Epstein was seen while on psychological observation in our hospital area.

**Subjective/Objective Presentation**

Prior to this writer's contact with him, Inmate Epstein showered and dressed himself for his legal visit today. He was smiling and did crack some jokes during the interview. He did elucidate some complaints and suggested being disappointed with this writer as he wants "to trust me and for me to trust him." He stated he remains unhappy with legal visiting procedures as he cannot go to the bathroom as frequently as he would like to since he has a "weak bladder." Inmate Epstein also reported since coming to the psychological observation area, he has felt constipated and needs his Colace. He had self-carry Colace in SHU, but since coming to the observation area, he has not had his medication. This writer immediately notified medical and his pills were being processed during the interview. Inmate Epstein also continues to complain about the conditions of SHU confinement (i.e., feeling punished, smells, noise, and restrictions).

With regard to the events which lead to his initial placement on suicide watch, inmate Epstein stated he has no memory of the event. He asked to speak with his old cellmate "Nick" to see if he can tell him what happened or see if his memory could be triggered. He remarked, "I am still trying to figure out how I got this (pointing to the scab around his neck)." Inmate Epstein denies remembering harming himself and/or being harmed by his cellmate. He does not exhibit symptoms of any cognitive disorder, seizure disorder, psychotic disorder, or dissociative disorder at this time or in the past. Inmate Epstein denied any current suicidal ideation, intention, or plan. He reported wanting to be alive to fight his legal case and go back and live life. He referred to himself as "a coward" and "I'm Jewish." He said he is not the type who likes pain or would ever attempt to harm himself.

While on psychological observation, inmate Epstein has been eating his meals, sleeping and interacting with the inmate companions. He is in legal visiting the majority of the day and in the evenings. His log book and eating/shower chart reflect the same. He has been speaking to inmate companions about investment strategies and about prison adjustment. Correctional Staff report during his legal visits, he is interacting with his attorney, animated, laughing, and joking.

**Intervention(s)**

Inmate Epstein was provided with supportive and coping skills interventions today. He was receptive to them, but mostly wanted to express his complaints about his current prison confinement status and needs. He wanted this writer to address them.

**Progress/Plan**

Inmate Epstein will remain on psychological observation in an abundance of caution and pending housing arrangements to be made on Monday. He continues to be vague and reports memory deficits regarding the events which lead to a piece of sheet being placed loosely around his neck and marks with scabs around his neck.

## Clinical Intervention - Clinical Contact

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| Inmate Name: | EPSTEIN, JEFFREY EDWARD | | | | | Reg #: | 76318-054 |
| Date of Birth: | 01/20/1953 | Sex: | M | Facility: | NYM | Unit Team: | 5 |
| Date: | 07/27/2019 07:14 | Provider: | Imeri, Darlene PsyD | | | | |

**Focus of Session**

He was seen by writer while he was on Psych Observation.

**Subjective/Objective Presentation**

The "Eating/Shower Chart" indicated yesterday he ate dinner, drank liquids, and took a shower when offered. The Psych Observation Log noted he brushed his teeth, went to a Legal visit, talked about business and investing to an Inmate Companion, ate, and slept.

When interviewed, he stated he still cannot remember what happened in SHU that caused the marks on his neck. He stated that for the 5 days before that he had only slept about 30 minutes each night because of noise in SHU. He stated he is anxious about going back to SHU because he stated he is going back to a place where he had gotten marks on his neck and he does not know why it happened.

He said he has an appetite and is eating. He said he is waking up every 1 1/2 hours. He stated he feels dehydrated because he is not drinking enough water because he stated he feels he is not given enough bathroom breaks while with his Attorney. Medical was e-mailed with his complaint of feeling dehydrated. He said his Lawyers and friends are all emotionally supportive.

Current Mental Status: He exhibited a neutral mood with a mildly full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation. He stated "I'm a coward." He added he does not like pain and even does not like when he has to give blood. He agreed to immediately tell staff and Inmate Companions if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff and Inmate Companions if he has these thoughts.

**Intervention(s)**

Supportive and educative interventions were provided. He was given Turning Points handouts on stress management, sleep, and building a routine in SHU. He stated he wants it noted in his chart that he is being given a pamphlet on sleep, but that is not going to help because of the noise in SHU that prevents him from sleeping.

**Progress/Plan**

He will remain on Psych Observation in an abundance of caution and pending housing arrangements to be made on Monday. While on Psych Observation, he will be seen daily by Psychology.

# MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

**DATE: 07-23-2019**

**TO: Ops LT. Anderson**

**FROM: S/O/S J.Masullo**

**SUBJECT: Suicide Attempt Inmate Epstein#76318-054**

On the above date at approx. 1:27am While working in the Special Housing Unit Myself and S/O Silva heard noise coming from the M tier Cell 124. Upon arrival inmate Epstein's cell mate (I/m Tartaglione #78514-054) was at the door stating I/M Epstein #76318-054 had attempted to hang himself. I kept a visual while Officer Silva grabbed door keys and called for assistance. After securing I/M Tartaglione and removing him from the cell, I entered then placed I/M Epstein on his side and removed an orange homemade rope from his neck. I/M was breathing at this time, But unresponsive. As I began chest compressions addition staff and Ops Lt Anderson arrived, I/M was then removed from the Special Housing Unit without further incident.

## MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

DATE: July 23, 2019

TO: Operations Lieutenant, LT Anderson

FROM: W. Silva, Senior Officer

SUBJECT: **Inmate Epstein reg# 76318-054**

On July 23, 2019 at approximately 1:27 AM while assigned to the Special Housing Unit, myself and Senior Officer Specialist Masullo heard some noises coming from M Tier. Upon checking cell Z05-124 I observed inmate Epstein reg# 76318-054 laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck. I immediately called Control Center for staff assistance. Officer Masullo kept a visual of inmate Epstein while I proceeded to retrieve the door keys and the cutter from the main cabinet located in the MPA. Officer Masullo applied restraints to his cell mate inmate Tartaglione reg# 78514-054. I secured inmate Tartaglione inside the bathroom while Officer Masullo provided assistance to inmate Epstein. When additional staff arrived inmate Epstein was removed from his cell without further incident.

## MEMORANDUM

Metropolitan Correctional Center, New York, New York

July 23, 2019

TO: LT ANDERSON

FROM: S/O/S D. Clarke

SUBJECT: Incident on 9 south

On July 23, 2019 at approximately 1:27, I, S.O.S D. Clarke responded to a body alarm on the Special Housing Unit. While the 9-South officer was conducted rounds inmate Epstein, Jeffrey #76318-054 was found in his cell with a noose around his neck and appeared to be unresponsive. I assisted with taking inmate Epstein #76318-054 from his cell and putting him on a stretcher. The inmate was taken to the second floor and placed on suicide watch, where he was monitored by staff. Moments afterwards, inmate Epstein became responsive. While observing inmate Epstein he sat up on the bed and began telling me that he think his Bunkie, Tartaglione, Nicholas #78514-054 tried to kill him. Inmate Epstein also stated that his Bunkie also tried to extort money from him and stated that if he didn't pay him that he would beat him up. He stated that this has been going on for a week. I asked inmate Epstein if he told staff about this and he told me no, that he'd only told his lawyer. He went on to say that his Bunkie told him that if he beat him up, because of his charges, the officers would not report it and because of this he was not comfortable telling the officers about the prolong threats and alleged attempts to extort him. I immediately reported this to the lieutenant.

# UNITED STATES GOVERNMENT
# MEMORANDUM

**Metropolitan Correctional Center, New York, New York**

**DATE:** July 23, 2019

**TO:** G. Anderson, Operations Lieutenant

**FROM:** S. Isibor, Senior Officer

**SUBJECT:** Epstein, Jeffrey I/M# 76318-054

At approximately 1:27AM, I responded to a radio transmission asking for staff assistance on 9 South (Special Housing Unit). Once I was granted access to said unit I made my way to the location (M Tier) in which the disturbance stemmed from. I was told by Officer W. Silva that Epstein, Jeffrey I/M# 76318-054 has attempted to hang himself. Upon arrival to cell number 124 in which he was housed, I noticed J. Epstein I/M# 76318-054 on the floor and Officer J. Masulo placing restraints on him. Officer D. Clarke, Lt. Anderson and I entered said cell attempting to assist in said process.

Now that I am inside of the cell I notice that J. Epstein I/M# 76318-054 was snoring on the floor of his cell, he appeared to be asleep. We made several verbal commands for him to wake up and attempted to get him to his feet but they were all unsuccessful. After said attempts Lt. Anderson asked for a stretcher to be retrieve to safely remove him out of his cell. Once the stretcher arrived, Officer D. Clarke, Officer J. Masulo and I lifted J. Epstein I/M# 76318-054 off the floor and placed him on the stretcher. Once we secured him safely on the stretcher, Officer D. Clarke and I lifted J. Epstein I/M# 76318-054 who is now on the stretcher safely out of 9 South (Special Housing Unit) and into the awaiting elevator.

**MEMORANDUM FOR WARDEN, MCC NEW YORK**

**FROM:** , Regional Director

**SUBJECT:** After Action Review Team

On August 14, 2019, a team of staff will arrive at MCC New York to perform an After Action Review, on the apparent suicide of Inmate Jeffrey Epstein Reg. No. 76318-054. The duration of this visit will be fluid and conclude once the assessments are complete. During this visit the teams will work largely independent, but may require your staff to perform specialized tasks or be available for interviews, etc. Please ensure your staff are responsive to the team's requests.

Upon arrival, the teams will begin their assessments without delay, J. A. Keller, Regional Director and the team will meet with you to discuss the plan for the week. I am requesting you have a staff member from Computer Services available to assist with any network needs that may arise. Attached to this email are listings of the materials needed for the teams, please make sure this material is available. If feasible any videos or electronic records must be available for the team to review independently. It may be necessary to utilize external hard drives or allow team members temporary access to a local drive. Several team members will have government issued laptops for use during this review.

As mentioned, ensure your staff are available and responsive. Also, advise your local union of this visit. Union representation should be quickly accessible should the need arise.

The team members are:

J. A. Keller, Regional Director, SER
Lawrence Howard, Correctional Services Administrator, SER
CAPT Todd Crawford, Health Services Administrator, SER
Dr. Jennifer Rogers, Chief Psychologist, FCI Tallahassee
Kevin Toney, Correctional Programs Administrator, Correctional Programs Division, Central Office
Alan Cohen, Associate Warden, FMC Carswell
Joshua Sutton, Captain, FCI Talladega

Should you have any questions, please give me a call.

New York, New York 10007-1312

**Re: EPSTEIN, Jeffrey, Federal Register No. 76318-054**
**United States v. Jeffrey Epstein, 19-cr-00490-RMB**

Dear Chief Judge McMahon and Judge Berman:

I am writing to notify the Court of the death of Jeffrey Epstein, who passed away Saturday, August 10, 2019, at around 7:37 a.m.

Mr. Epstein had been found unresponsive in his cell in the Special Housing Unit at around 6:30 am from an apparent suicide at the Metropolitan Correctional Center (MCC) in New York, New York. Responding staff immediately initiated life-saving measures and requested emergency medical services (EMS), by whom Mr. Epstein was transported to a local hospital for treatment of life-threatening injuries. Mr. Epstein was pronounced dead at the New York Presbyterian-Lower Manhattan Hospital in New York, New York.

At this time, there are no preliminary reports identifying the exact cause of death. An autopsy is pending, and we expect to have more information as to the cause of death from the medical examiner in the near future. The Federal Bureau of Investigation (FBI) is actively investigating the incident. In addition to the FBI's investigation, the Attorney General has requested that the Department of Justice Office of the Inspector General look into the matter as well.

MCC New York will provide an update to the Court as soon as the autopsy is completed and the official cause of death is determined. If you have any questions or concerns, please feel free to call me at (646)836-7700. Thank you for your time and attention to this matter.

Sincerely,

Lamine N'Diaye
Warden
MCC New York

cc: Michael Greco, U.S. Marshal, and John Csakany, Chief Deputy U.S. Marshal
Michael J. Fitzpatrick, Chief U.S. Probation Officer
[redacted], [redacted], and [redacted], Assistant U.S. Attorneys
Martin Weinberg and Reid Weingarten, Counsel for Mr. Epstein

**From:** Elissa Visoky <elissapsydd@aol.com>
**To:** <cedge@bop.gov>
**Date:** 8/10/2019 8:31 PM
**Subject:** Last contact with Epstein

I visited inmate Epstein in SHU on Thursday. He was getting ready to meet with his attorneys for the day so I had gone to visit him right after the SHU meeting. He had a cell mate at the time with whom I saw him interact with. He did not report any mental health concerns and he denied any suicidal thoughts or intention. He was asking this writer to go to general population and was making requests for various needs he had at the time. He wanted social calls without them being on a speaker phone. He wanted a book he had left in the suicide watch area. His mood was not depressed or anxious. There were no signs of distress. He had planned on meeting with his attorneys to work on his legal situation.

# Psychology Epstein Reconstruction Responses

## 1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the Institution Duty Officer (IDO).

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden will then determine which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

Psychology will verbally notify the Lieutenant when inmates are removed from suicide watch and indicate they will need to be placed with a cellmate (Providing direct communication and instructions). Cellmates will be recommended not only for SHU inmates being removed from suicide watch, but also for inmate returning to general population.

Once an inmate is removed from suicide watch, psychology staff will send an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a roommate. The e-mail will indicate the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant will also be documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

## 3. Cellmate Assignments

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the inmate's needs. The Staff Attorney also assists when the inmate's attorney or court are concerned. Psychology Services will be more involved in making recommendations regarding the types of cellmates that inmates at-risk for suicidality should celled with. Psychology Services will take into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

4. **Documentation Accuracy**

Psychology will consider the information from more than one source when making decisions about suicide watch placement. Clinical judgment will be used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos. Additionally, there is a second Staff Psychologist in the department now which will help reduce the workload on current psychologists, allowing for more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained, the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book; he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch will document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants will receive additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, a unit officer will be rounding the suicide area hourly and signing the suicide watch log books. Additionally, Lieutenants need to be signing the book for each shift (MW, DW, EW) like they do for the regular housing units. The Unit 2 Officer will sign the books hourly in the SW area when they are doing their Unit 2 rounds. Psychology staff will check the books daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenant's are not rounding and signing the books each shift, the Captain will be notified immediately and will enforce accountability.

6. **Direct Observation**

The Psychology Department has eliminated Psychology Observation at MCC-NY.
Inmates on Suicide Watch will not go to legal visits unless prior authorization is approved by Psychology, Lieutenants, and the Captain. Legal visits will only be provided under special circumstances when an inmate is on suicide watch precautions. When an inmate is on the legal visit, there will be continuous observation by a staff member who will record their observations in the suicide watch log book every 15 minutes.

## 7. Follow Up

Staff will again be trained that when they have concerns for an inmate's mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate will be placed on suicide watch, and the on-call psychologist and Warden will be notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his safety pending a formal assessment by a Psychologist."

The Psychology Department will use PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code will be applied more immediately and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate will be assessed more immediately prior to being released to a unit.

R&D staff will be reminded of the Marshall and Court alert notices. Psychology Staff need to be notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice will be placed on suicide watch, and the on-call psychologist and Warden will be notified. These inmates will receive a suicide risk assessment by a psychologist before being released to the general population.

## 8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

## 11. Post Orders & SHU Training

The Suicide Watch Post Orders will be located in the Lieutenant's Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post will be responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this will continue to be carried out on a quarterly basis. However, the sign-in sheets for this training will be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they will need to see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

**12. Staffing**

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been approved and it has been sent to the region to formally announce.

**13. Sex Offense Risk Factors**

The Chief Psychologist or her representative will continue to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist will offer feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist will continue to educate all staff during IF and AT, about the sex offender specific risk factors and suicidality.

CLINICAL SYNOPSIS OF EVENTS LEADING TO DEATH: (Please provide sufficient information including a short *summary of past medical history, length of hospitalization or emergency room care, and staff response to this event)*.

Inmate Jeffery Edward Epstein #73618-054 a 66 year old male with a history of Obstructive Sleep Apnea on CPAP at night, a history of Hypertriglyceridemia treated with Vascepa, no past Mental Health History prior to incarceration and L4-L5 Stenosis. On July 23, 2019, at 2:00 a.m. he was placed on Suicide Watch for 31 hours and 5 minutes due to abrasion located on the lower anterior surface of his neck area. On July 24,2019 he was taken off Suicide Watch and was placed on Psychological Observation. On July 30,2019, he was removed from Psychological Observation and was placed in the Special Housing Unit where he was housed with a cell mate. On August 8, 2019, he was seen by Psychology Services and denied suicidal ideation, intention or plan.

On August 10, 2019, at 6:33 a.m. Special Housing Unit Staff found inmate Epstein unresponsive in his cell and attempted to wake him. The body alarm was activated in SHU and the Control Center announced a medical emergency. CPR was initiated by Special Housing Unit Staff. At 6:35 a.m. medical staff responded and continued CPR and the AED was applied. The Control Center called for an ambulance. The EMS arrived at 6:45 a.m. and the paramedics continued CPR. Inmate Epstein remained unresponsive. Inmate Epstein was intubated, and the ACLS Protocol was initiated by the EMS. No pulse found, no shock was advised and the inmate was prepared for transport to local hospital while continuing CPR. At 7:10 a.m. the EMS departed institution en route to New York Presbyterian Lower Manhattan Hospital. At 7:36 a.m. the inmate was pronounced dead by the ER Physician.

**OFFICE OF CHIEF MEDICAL EXAMINER**
CITY OF NEW YORK

# REPORT OF AUTOPSY

**Name of Decedent:** Jeffrey Edward Epstein **M.E. #:** M-19-019432

**Autopsy Performed by:** Kristin Roman, M.D. **Date of Autopsy:** 08/11/2019

---

## FINAL DIAGNOSES:

I. HANGING:
   A. LIGATURE FURROW OF NECK
   B. PETECHIAL HEMORRHAGES OF BILATERAL PALPEBRAL CONJUNCTIVAE AND OF ORAL MUCOSA
   C. CONFLUENT HEMORRHAGES OF RIGHT BULBAR CONJUNCTIVA
   D. PLETHORA OF FACE AND HEAD WITH PETECHIAL HEMORRHAGES OF FACE
   E. FRACTURES OF BILATERAL THYROID CARTILAGE CORNUAE AND LEFT HYOID CORNUA WITH ACCOMPANYING SOFT TISSUE HEMORRHAGES
      1. SEE ANTHROPOLOGY REPORT
   F. RESUSCITATION ATTEMPTED
      1. ABRASIONS OF MOUTH
      2. ANTERIOR PARASTERNAL RIB FRACTURES
      3. HEPATIC LACERATION WITH THIN HEMOPERITONEUM

II. ABRASIONS OF LEFT FOREARM

III. CUTANEOUS CONTUSIONS OF WRISTS

IV. SUBCUTANEOUS HEMORRHAGE OF LEFT DELTOID MUSCLE

V. HYPERTENSIVE AND ATHEROSCLEROTIC CARDIOVASCULAR DISEASE
   A. CARDIAC HYPERTROPHY (440 GM)
   B. LEFT VENTRICLE HYPERTROPHY (1.9 CM)
   C. RENAL ARTERIOLAR SCLEROSIS
   D. SLIGHT CORONARY ATHEROSCLEROSIS
   E. SLIGHT TO MODERATE AORTIC ATHEROSCLEROSIS

VI. HEPATIC STEATOSIS (2480 GM)

VII. CERVICAL LYMPHADENOPATHY

VIII. REMOTE FRACTURE OF RIGHT FIRST RIB

IX. REMOTE APPENDECTOMY (DATE AND INDICATION UNKNOWN)

X. SEE TOXICOLOGY REPORT

XI. SEE NEUROPATHOLOGY REPORT

**CAUSE OF DEATH:** HANGING

**MANNER OF DEATH:** SUICIDE (HANGED SELF)

**OFFICE OF CHIEF MEDICAL EXAMINER**
**CITY OF NEW YORK**

**REPORT OF AUTOPSY**

**CASE NO. M-19-019432**

*I hereby certify that I, Kristin Roman, M.D., City Medical Examiner - II, have performed an autopsy on the body of Jeffrey Edward Epstein, on the 11 of August 2019, commencing at 9:21 AM in the Manhattan Mortuary of the Office of Chief Medical Examiner of the City of New York.*

**EXTERNAL EXAMINATION:**
The body is received in a sealed, labeled, plastic body bag (seal #152384). The body is of a well-developed, thin, muscular, light skinned, 5'10", 196 lb man whose appearance is consistent with the given age of 66 years. The scalp hair is wavy, predominantly grey with interspersed dark hairs, has slight male pattern balding, and measures up to 3". The facial hair is cleanly shaven. The eyes have light irides. The oral cavity has intact teeth in good repair. The tongue is free of natural disease. The finger and toenails are well groomed and free of polish. Striae are on the shoulders. The genitalia are atraumatic and of a normal, circumcised man. The anus is atraumatic.

**POSTMORTEM CHANGES:**
There is moderate, symmetric rigor mortis of the upper and lower extremities and the jaw. Lividity is fixed, purple, and unevenly distributed on the posterior surfaces of the body. The body is cool.

**SCARS:**
On the back of the left shoulder is an oblique, 1-1/2", well healed, linear scar. On the right lower quadrant of the abdomen is an oblique, 2", well healed, linear appendectomy scar.

**THERAPEUTIC PROCEDURES:**
An endotracheal tube is in the mouth, extending into the upper airway. On the lips are multiple, focal, red abrasions. A cervical collar encircles the neck. Electrocardiogram electrodes are on the torso. An intravascular catheter is in the left antecubital fossa. An intraosseous line is in the right shin. A blood pressure cuff encircles the upper, right arm. On the chest between the nipples is a 3" x 3", irregular, yellow abrasion. Internally, there are minimally hemorrhagic, parasternal, rib fractures of right ribs #4-6 and left ribs # 5-6, approximately 60 ml of liquid blood thinly coating the serosal

surfaces of the intra-abdominal organs, and an oblique, 6.5 cm laceration of the liver to the left of the falciform ligament (artifacts of resuscitative chest compressions).

**CLOTHING:**
The body is received clad in a hospital gown.

**INJURIES, EXTERNAL AND INTERNAL:**
*These injuries are described in reference to standard anatomic planes. These injuries are grouped and labeled for descriptive purposes only; no sequence is implied.*

**A. HANGING:**
There is a depressed, focally dried and abraded, noncircumferential ligature furrow of the neck that peaks slightly on both sides of the neck, more steeply on the right side than on the left. On the right side of the neck, the furrow bifurcates anterior to the ear, with one arm that peaks behind the right ear and one arm that extends to the right side of the back of the neck. On the back of the right side of the neck at the end of the lower arm of the furrow is a 1/2" x 1", irregular, red abrasion. The furrow ranges from 13-3/4" to 15" long (measured from both ends of the furrow on the right), and ranges from 1/8" to 1/2" wide. Anteriorly, the furrow passes over the thyroid cartilage. On the upper edge of the right side of the furrow beneath the chin is an adjacent, ¾ x 1", inverted V-shaped, linear abrasion that ranges in width from 1/8" to 1/4". Beneath the left side of the mandible is a faint, 1/2" x 1-3/4", irregular, red abrasion with multiple, interspersed, deeper, red abrasions that measure up to ¼ x 3/8".

The face and head are plethoric above the furrow, with petechial hemorrhages of the face that are most marked within the eyebrows. There are multiple, petechial hemorrhages of the palpebral conjunctivae of both eyes, and confluent hemorrhages on the periphery of the right bulbar conjunctiva. There are faint petechial hemorrhages on the mucosal surfaces of the upper and lower lips.

Within the parenchyma of the tongue are multiple, focal, spotty, purple hemorrhages. There is diffuse, purple hemorrhage at the base of the tongue. There are no hemorrhages of the anterior strap muscles of the neck. Posteriorly, there is a single hemorrhage in the left, deep, paraspinal muscles.

Both thyroid cartilage cornuae are fractured, and the left cornua of the hyoid bone is fractured, all with accompanying soft tissue hemorrhages. See also "Anthropology Report." There are no fractures of the cervical vertebrae.

**B. OTHER INJURIES:**
On the back of the left forearm is an oblique, 1", linear, red, abrasion with an adjacent, 1/2" x 1-1/4", faint, red abrasion. On the medial aspect of the back of the right wrist is a 1/8" x 1/2", faint, red contusion, and on the medial aspect of the back of the left wrist is a

similar, ½ x ¾", faint, red contusion. Internally, there is a deep muscle hemorrhage of the left deltoid muscle.

**INTERNAL EXAMINATION:**

**HEAD:** The scalp is without contusion or laceration. The skull is without fracture. There is no epidural, subdural or subarachnoid hemorrhage. The brain weighs 1520 gm. The brain, spinal cord, and dura mater are submitted for neuropathologic evaluation.

**NECK:** See "Injuries."

**BODY HABITUS:** The abdominal pannus is 1-1/4" thick. The body mass index is 27.

**BODY CAVITIES:** The pleural and pericardial cavities are free of abnormal fluid accumulations or adhesions. See also "Therapeutic Procedures."

**CARDIOVASCULAR SYSTEM:** The heart weighs 440 gm and has a normal distribution of right dominant coronary arteries with slight atherosclerosis (left main and left circumflex arteries, no stenoses; left anterior descending artery, multiple, focal, less than 50% stenoses; right coronary artery, multiple, focal, less than 50 to 60% stenoses). The myocardium is brown and diffusely fibrous. There is no focal fibrosis, hemorrhage, or pallor. The free wall of the left ventricle and the interventricular septum are each 1.9 cm thick, and the free wall of the right ventricle is 0.5 cm thick. The four valves and endocardial surfaces are unremarkable. The pulmonary vessels and the venae cavae are free of thrombus and embolus. The aorta has moderate atherosclerosis.

**RESPIRATORY SYSTEM:** The right lung weighs 560 gm and the left weighs 510 gm. Both lungs have spongy, maroon and pink parenchyma that is free of masses. The distribution of bronchi and vasculature are unremarkable. The bronchi are empty.

**LIVER, GALLBLADDER, PANCREAS:** The liver weighs 2480 gm and has soft, brown parenchyma. The gallbladder is unremarkable and contains approximately 30 ml of brown bile without stones. The pancreas is tan, lobular, and free of hemorrhage and mineralization.

**HEMIC AND LYMPHATIC SYSTEMS:** The spleen weighs 270 gm and has an intact, purple capsule and an unremarkable distribution of red and white pulp. There are multiple, enlarged, cervical lymph nodes, measuring up to 1.5 cm in greatest dimension. The remainder of the lymph nodes is unremarkable. There is no thymus. The bone marrow is unremarkable.

**GENITOURINARY SYSTEM:** The right kidney weighs 180 gm and the left weighs 160 gm. Both kidneys have granular, brown surfaces and otherwise unremarkable architecture and vasculature. The ureters maintain uniform caliber into an unremarkable

bladder that contains approximately 5 ml of cloudy, yellow urine. The prostate is slightly and diffusely enlarged, with marked enlargement of the verumontanum. The testes are unremarkable.

**ENDOCRINE SYSTEM:** The pituitary, thyroid, and adrenal glands are unremarkable.

**DIGESTIVE SYSTEM:** The esophagus and gastroesophageal junction are unremarkable. The stomach contains approximately 5 ml of opaque, brown fluid without recognizable food or pills. The gastric mucosa is unremarkable. The small intestine and large intestines and rectum are unremarkable. The vermiform appendix is surgically absent.

**MUSCULOSKELETAL SYSTEM:** See "Therapeutic Procedures." On the anterior, inner surface of the right, first rib is a slightly displaced, healed, fracture callus. The vertebrae, clavicles, remainder of ribs, and pelvis are without fracture. The musculature is well developed and normally distributed.

**MICROSCOPIC DESCRIPTIONS:**
Tissue or Organ x # of fragments and/or levels (#= slide ID number)

Histology # HT19-003396

HEART x 2 (#2): Myocardial and perivascular fibrosis. Slightly hypertrophied myocytes.

LUNG x 5 (#3,4): Slight patchy emphysema.

LIVER x 1 (#1): Steatosis involving approximately 50% of hepatic parenchyma. Slight periportal fibrosis. Marked congestion.

KIDNEY x 1 (#1): Arteriolar sclerosis. Congestion.

TESTES x 2 (#5,6): No pathologic abnormality.

TONGUE x 1 (#7): Intramuscular and fascial hemorrhages consisting of intact erythrocytes.

MUSCLE ADJACENT TO HYOID BONE x 1 (#8): Intramuscular and fascial hemorrhages consisting of intact erythrocytes.

LEFT POSTERIOR NECK MUSCLE x 1 (#9): Intramuscular and fascial hemorrhages consisting of intact erythrocytes.

LEFT DELTOID MUSCLE x 1 (#10): Intramuscular and fascial hemorrhages consisting of intact erythrocytes.

**TOXICOLOGY:**
Specimens are submitted for toxicologic analysis. A separate report will be issued.

**FORENSIC BIOLOGY:**
Blood spot card, clippings from right and left fingernails, and swabs of the back and front of neck and right and left hands are submitted.

**NEUROPATHOLOGY:**
A separate report will be issued.

**ANTHROPOLOGY:**
A separate report will be issued.

**EVIDENCE:**
Received separately are a ligature and clothing. The items are examined, photographed, and submitted to Evidence. See also "Additional Autopsy Notes".

**RADIOGRAPHY:**
Post-mortem radiographs are taken.

**PHOTOGRAPHY:**
Autopsy photos are taken.

This report is reviewed by Dr. Jason K. Graham, First Deputy Chief Medical Examiner.

*The information provided above is true and correct to the best of my knowledge and belief.*

## Positive Findings:

**None Detected**

See Detailed Findings section for additional information

## Testing Requested:

| Analysis Code | Description |
|---|---|
| 9580B | Synthetic Cannabinoids Screen (2019 Scope), Blood |

## Specimens Received:

| ID | Tube/Container | Volume/ Mass | Collection Date/Time | Matrix Source | Miscellaneous Information |
|---|---|---|---|---|---|
| 001 | Gray Top Tube | 4.25 mL | Not Given | Femoral Blood | |

All sample volumes/weights are approximations.

Specimens received on 08/14/2019.

**Detailed Findings:**

**Examination of the specimen(s) submitted did not reveal any positive findings of toxicological significance by procedures outlined in the accompanying Analysis Summary.**

Unless alternate arrangements are made by you, the remainder of the submitted specimens will be discarded one (1) year from the date of this report; and generated data will be discarded five (5) years from the date the analyses were performed.

CERTIFICATION: Pursuant to New York Criminal Procedure Law Section 190.30(2), I certify that this report was made by me or is a true copy thereof for testing conducted at NMS Laboratories. I further certify that I am authorized by NMS Laboratories to make this certification.

Workorder 19244749 was electronically signed on 08/22/2019 16:36 by:

Sherri L. Kacinko, Ph.D., F-ABFT
Forensic Toxicologist

**Analysis Summary and Reporting Limits:**

All of the following tests were performed for this case. For each test, the compounds listed were included in the scope. The Reporting Limit listed for each compound represents the lowest concentration of the compound that will be reported as being positive. If the compound is listed as None Detected, it is not present above the Reporting Limit. Please refer to the Positive Findings section of the report for those compounds that were identified as being present.

***NEUROPATHOLOGY REPORT***
**CASE NUMBER: M-19-019432**

**NAME OF DECEDENT: EPSTEIN, JEFFREY EDWARD**

**(AUTOPSY PERFORMED BY DR. ROMAN ON 8/11/2019)**

**MACROSCOPIC EXAMINATION (PERFORMED BY DR. FOLKERTH, WITH DR. ROMAN IN ATTENDANCE, ON 8/20/2019):**

The unfixed brain weighs 1520g (expected, 1200-1500g). Examination of the fixed brain (minus the left occipital pole, removed at the time of autopsy for possible toxicology) shows normal leptomeninges. No contusions, stigmata of herniation, or other surface abnormalities are seen. External brainstem landmarks and cranial nerves are normal. Vessels at the base are distributed normally, and have no atherosclerosis. The cerebellum is normal.

Coronal sections of the cerebral hemispheres reveal normal cortical ribbon, white matter, and deep gray nuclei. There is no midline shift. Hippocampi are symmetrical and of normal volume. Ventricles are normal in size and appearance.

Axial sections of the brainstem and cerebellum *en bloc* show the substantia nigra and locus ceruleus to be well-pigmented. The aqueduct and fourth ventricle are normal. Cerebellar cortex, white matter, and dentate are normal.

Cranial dura from the convexities, tentorium, and base shows falcine ossification (comment: common age-related finding). The venous sinuses and tributary (bridging) veins are patent.

Spinal cord and dura from upper cervical to cauda equina levels show no abnormality, externally or on midsagittal section.

**PHOTOGRAPHS: YES**

**MICROSCOPIC EXAMINATION: NO**

**FINAL NEUROPATHOLOGIC DIAGNOSIS:**

**I. NORMAL BRAIN AND SPINAL CORD**

**Barbara A. Sampson, MD-Ph.D., Chief Medical Examiner**

Department of Forensic Pathology
*Forensic Anthropology Unit*
(212) 447-2763
anthropology@ocme.nyc.gov

**M-19-19432**
**ANTHROPOLOGY**

**BACKGROUND:**

On 12 August 2019, the Forensic Anthropology Unit received a hyoid and larynx that were removed by Dr. Kristin Roman during the autopsy of a 66-year-old male and submitted for a trauma analysis. The hyoid was cleaned in warm water and a combination of sodium bicarbonate and enzyme detergent. The larynx was placed in formalin and the soft tissues of the thyroid and cricoid were manually removed to facilitate examination. The specimens were examined radiographically, macroscopically and microscopically.

**Figure 1. Diagram of the submitted hyoid and larynx (anterior view) showing the approximate fracture locations (red lines).**

**Figure 2. Overview of the submitted hyoid bone exhibiting a fracture to the left greater horn (white arrow).**

**FINDINGS:**

*Hyoid*

The greater horns of the hyoid are bilaterally fused to the hyoid body. There is a fracture of the left greater horn (Figures 1 and 2).

*Larynx*

The thyroid cartilage is almost entirely ossified and the cricoid cartilage is partially ossified. The thyroid exhibits two fractures: one to the left superior horn and one to the right superior horn (Figures 1 and 3). The fractures to both the left and right superior horns occur just superior to the junction with the lamina. The cricoid does not exhibit any fractures.

**Figure 3. Microscopic (10x) posterior views of fractures (white circles) to the left and right superior horns of the thyroid.**

**SUMMARY:**

The hyoid bone exhibits a fracture of the left greater horn. The thyroid exhibits two fractures: one to the right superior horn and one to the left superior horn.

**Exam Comments**

Follow up evaluation done for inmate Epstein.
He does not look in any pain or distress.
He still has the erythema around his neck. Central part of this erythema has some abrasion. Patient does not complaint of any respiratory problem or distress. He still does not want to explain how the skin injury on his neck happed. he insinuates that injuries on his neck have to do with his room mate. But does not want to talk about it.

**Exam Comments**

Inmate for injury report as requested by Operational Lt.
He is ambulatory, oriented x 3. In not apparent distress, smiling during this clinical encounter. Alleges, that he does not know what happened. Can not explain the marks on his neck. Responded: "I don't know".
He does not want to talk of the events leading to the marks on his neck.
He does not look in any distress or pain.
Has an circular line of erythema at the base of the neck. Reaching 2/3 of the neck circumference, 2 inches wide, sparing the back of the neck. Has one section of this erythema in the front with marks of friction.
No inflammation, no deformities, no hematomas, no lacerations, no tenderness. Patient moving his neck without any restriction. Denies having any pain or discomfort. Denies any respiratory problem.
Has another small erythema on left knee about 2cm in diameter(mild).
As per information from custody staff inmate Epstein was found in his cell with a rope around his neck and sitting on the floor.
Inmate is currently placed on suicide watch.

**ASSESSMENT:**

Injury, unspecified, T1490 - Current - *R/O self inflicted injuries.*

**PLAN:**

**Disposition:**

Follow-up at Sick Call as Needed
Placed on Suicide Watch
Follow-up in 2-4 Hours

**Other:**

For follow up with psychology service.

150 Park Row
New York, New York 10007

Office of the Warden

November 13, 2019

MEMORANDUM FOR HUGH J. HURWITZ, ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: J. Petrucci, Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

**Institution Response:** 1. Single Cell Placement:

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00049770

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. The C&A officer is responsible for entering the proper assignment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by Dr. Miller, input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, Dr. Miller sent an e-mail to Shirley Skipper-Scott, Associate Warden explaining a consultation between Dr. Miller and Dr. Nagle, National Suicide Prevention Coordinator. In the e-mail, Dr. Miller Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00049771

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology Services discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction team suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, Register Number 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, Dr. Miller documented information received from Operations Lieutenant Glenda Anderson that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer Wilson Silva, who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer Silva wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer Joseph Masullo wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative

EFTA00049772

Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

Dr. Schlessinger entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

Dr. Schlessinger completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

Ysmael Joaquin, Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

Officer Alwin Thomas was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. Officer Thomas mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. Ms. Kenya Coates, Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of Officer Thomas' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. Charisma Edge, Associate Warden to Dr. Schlessinger with a carbon copy to Warden N'Diaye on August 12, 2019. Of note, Ms. Coates did not make an entry explaining why she was making the log book changes. Additionally, Ms. Coates then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by Officer Thomas nor was Ms. Coates assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why Ms. Coats attempted to correct Officer Thomas' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of

EFTA00049773

16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction team indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology staff considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

Regarding the Reconstruction team's concerns in reference to Mr. Epstein's expunged incident report, Special Investigative Services staff will conduct all investigations in matters of attempted suicide and make a determination as to whether an incident report is warranted.

The Reconstruction team stated medical staff conducted Inmate Epstein's Intake Screening late. SENTRY records reflect Inmate Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) Kang on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA Joaquin within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction team findings noted discrepancies in the procedures approved for Psychological Observation. The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With

EFTA00049774

regard to suicide watch log books signatures, correctional staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

5. Telephone Calls: In a PDS-BEMR note written by Dr. Miller on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager Nathaniel Bullock on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. Mr. Bullock (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told Mr. Bullock he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m.

EFTA00049775

institution count that evening, Elba Torres, Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to Drs. Miller and Imeri and Lieutenant David Medina later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, Ms. Torres noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant Medina opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if Ms. Torres was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When Dr. Miller opened the e-mail the following Monday morning, Mr. Epstein was evaluated by Dr. Schlessinger at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., Dr. Imeri sent Dr. Miller an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by Dr. Imeri for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology Staff is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As part of their signature block, all Psychology staff have added the following: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology Staff is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

The attached institutional procedural memorandum has been reviewed by Central Office Psychology Services and implemented by MCC New York Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a

EFTA00049777

member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality. Suicide Prevention and PSY ALERT Trainings have recently been conducted by the Psychology Services Department with Lieutenants and during a recent Department Head Meeting. Further, an e-mail regarding PSY ALERT procedures was sent to all Lieutenants, Receiving and Discharge (R&D), Psychology and Health Services staff.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate Patrick Avila (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have SENTRY Assignments of H01-001L – H01-004L. Further,

EFTA00049778

Psychology Services Department reviews suicide watch log books on a daily basis to assess whether the Lieutenants have conducted rounds during each shift and whether the Unit 2 Sallyport and Unit 2 Officer are conducting hourly rounds. Any inconsistencies noted in the logbooks by Psychology staff will be reported immediately to the Captain and the Associate Warden over Programs to address appropriately.

The Operations Lieutenant will physically check the PP30 Cell Assignment Roster when inmates are quartered on suicide watch. The Lieutenant will ensure the Counts and Assignments (C&A) Officer keys cell assignments correctly and annotate any errors in the daily log and contact the Captain immediately. Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 with the selection category for suicide watch. The Operations Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into accurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff by telephone when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the Warden upon receiving said notification. After consultation with the Warden, Psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant. Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results will be maintained by Correctional services in the Lieutenants Log. Morning Watch Lieutenant is responsible for observing one count during his or her shift in SHU which is documented daily in the Lieutenants Log.

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

Correctional Staff are required to perform routine rounds of the second floor suicide watch area every hour. On Day watch, Monday through Friday, the 2 Sally Officers are required to perform rounds on suicide watch inmates, as prescribed by the Captain. After hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 Officer assisting with duties as assigned by the Captain. To ensure that staff are informed of the importance of Suicide Prevention and responsibilities when one occurs. Lieutenants will reinforce the message through conference calls with staff. Roll Call notes will be placed on TRU Scope to notify staff of which inmates are currently on suicide watch.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

EFTA00049779

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff have prepared and are awaiting approval of training and procedures to allow them to inspect institutional AEDs locally in between/in between outside inspections by Great Lakes Biomedical Services. A copy of the proposed procedures is attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer L. Grey failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer David Dubenezic, Officer Miguel Monge, and Officer Roberto Grijalva.

**Institution Response:** 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

EFTA00049780

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book on which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

**Institution Response:** 12. Staffing:

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse

EFTA00049781

Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

Office of the Warden

January 27, 2020

MEMORANDUM FOR HUGH J. HURWITZ, ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: M. Licon-Vitale, Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated December 27, 2019.

**2. 30 Minute Rounds**
The substance of the two hour Captain video review and six hour IDO video review is unclear. Please clarify the requirement for the Captain and IDO. Additionally, please identify the documentation used to maintain accountability of the reviews.

Institution Response:

Video review requirements have been instituted by NERO. Specifically, on Tuesday of each week, the institution is notified by NERO of the date, time, and SHU range in which to download video. The video is a two hour block. The video is to be reviewed by the Captain. During the reviews the Captain is looking for strict adherence to the requirements that rounds be conducted at least once during every 30-minute period, not to exceed 40 minutes between rounds and that all scheduled counts are being conducted in the SHU. The Captain will then submit an assurance memo to the institutional executive staff and Correctional Services Administrator (CSA) indicating the designated video footage was reviewed, and corrective actions which were taken for any deficiencies noted. This memorandum will be submitted to the Regional Office by COB on Friday of that same week. Institutional Duty Officers (IDOs) are required to review 6 hours of SHU video. The surveillance footage is downloaded by the institutional SIA and a compact disk is provided to the IDOs for review. The IDOs are reviewing the video for accuracy of the 30 minute rounds. All reviews are documented in the weekly IDO Report.

EFTA00049815

**3. Cellmate Assignments**
Documentation exists reflecting the role of the local Psychology Services department in communicating the importance of Mr. Epstein's status as a sex offender with specific needs to the Associate Warden. This includes consultation with the Psychology Services Branch in Central Office. The communication chain and decision making of Executive Staff lacks transparency as there is no documentation of the process or staff members present when decisions were made about the housing of Mr. Epstein. After the fact explanations may not accurately reflect what occurred.

Institution Response:

As was noted, there was no documentation indicating Psychology Services was present when housing decisions were made regarding Mr. Epstein. Psychology services is present at the weekly SHU meeting, Executive Staff meetings, and weekly Opening and Close-Out meetings. During these meetings, the Chief Psychologist or Acting Chief Psychologist are present to provide recommendations and feedback to the Executive Staff on housing concerns regarding inmates with mental health issues or risk factors for suicidality. When an inmate presents with unique risk factors associated with individuals who have been charged with and/or convicted of a sex offense, careful evaluation is made with regard to housing these inmates with appropriate cellmates. Moving forward, a plan has been established to have a sign-in sheet and checklist at these meetings where housing issues are addressed, indicating who was present and what the housing plan is for these inmates with psychological concerns. These checklists will be maintained in a binder by the Associate Warden of Programs. Please see the attached checklist.

**4. Documentation Accuracy**
Professional responsibility requires taking into account multiple descriptions of an incident as noted in your response. However, when discrepancies exist these should be compiled and noted in documentation to decrease the likelihood of conflicting conclusions.

As noted in the reconstruction report, an incident report must be written within 24 hours of having the information that an inmate likely violated BOP rules. An incident report was written for Mr. Epstein prior to a determination of whether he engaged in self-directed violence or was assaulted on July 23, 2019. Staff had ample time to wait for the outcome of the SIS investigation of this incident. The incident report presumed self-directed violence, although SIS was not able to determine whether this incident was self-directed violence or an assault. Generating the incident report for self-directed violence is evidence of a local bias about the July 23, 2019, incident that still exists amongst some staff at MCC New York. Preconceived notions challenge the ability to remain open about alternative explanations, and subsequent systemic changes may be needed.

Please develop and provide local training for all staff that at a minimum reviews the time frame for writing incident reports and offers guidance when there is not clear evidence of an infraction. Include an outline of the training and evidence of staff who attended the training.

Institution Response:

Additional information (slides) has been included in our Annual Training presentations for Report Writing. In addition to the established training, the slides further differentiate and provide guidance to staff regarding when it is appropriate to write an Incident Report and when, in cases of a lack of evidence, a memorandum is more appropriate. The additional information is being provided to all staff as a part of Annual Training. Annual Training began the week of January 6, 2020, and will continue through the week of March 8, 2020.

EFTA00049816

**5. Telephone Calls**
As noted in the response, there is a lack of documentation to substantiate that a lieutenant facilitated two telephone calls to Mr. Epstein. However, this does not address the report of two telephone calls being provided. This response implies that the reporting of two staff members is inaccurate.

The response neglects the documented telephone call to Mr. Epstein's deceased mother.

Institution Response:

On August 29, 2019, Warden J. Petrucci, signed a referral related to Bullock's failure to follow policy in allowing Epstein to complete an unmonitored phone call. The referral was submitted to the Office of Internal Affairs on that same date and is pending further action at this time.

**7. Follow-Up**
Please provide documentation for the follow-up training provided to staff detailing the content of the training and to whom it was provided.

Institution Response:

As recommended by Central Office, the Chief Psychologist has conducted suicide prevention trainings during Department Head Meetings, e-mail correspondence, SHU Staff Trainings, and Lieutenant's Trainings. The follow-up training sign-in sheets, Department Head Meeting Minutes, and e-mails provided by psychology staff regarding PSY ALERT Inmates are attached for your review.

**8. Inmate Accountability and Assignment Accuracy**
Periodic and unannounced checks are now conducted in SHU to determine pp30 assignments and actual inmate placement match. Please provide an operational definition of periodic. Please do the same for routine, as it relates Executive Staff bed book counts in all units. Where will the periodic and routine reviews be documented and will they include the identity (e.g., name and title) of staff who complete them?

Institution Response:

An Executive Staff and Duty Officer schedule has been implemented to conduct daily 4 P.M. and 10 A.M. weekend bed book counts. Any discrepancies noted are documented and sent via email to Unit Mangers and Captain at the conclusion of each count for corrective action. Please see the attached schedule.

**9. Attorney Log Books**
Please provide a copy of the log book audit.

Institution Response:

The audit revealed the **Random Visitor Log Book** did not reflect visitor pat searches after May 19, 2019. In addition, the log book does not offer a column to annotate a staff witness. The **Contractor/Volunteer Log Book** was not always filled in properly. The **Law Enforcement Log Book** was up to date; however, the time of departure was not always documented. The **Attorney Log** was missing inmate register numbers and more often than not was legible. There was no **Visitor Denial Log** created. The audit conducted on September 25, 2019, is attached for your review.

EFTA00049817

Additional corrective measures will now include the Activities Lieutenant checking all Front Lobby log books. The Captain will ensure these checks are included in the Lieutenant's Daily Log for Day Watch and Evening Watch. In addition, the Activities Lieutenant will address any discrepancies immediately through on the spot training and/or performance log entries.

**13. Sex Offense Risk Factors**

Psychologists are subject matter experts in sex offender risk factors and they play a crucial role in sharing this knowledge through traditional settings such as ICT, AT, and institutional meetings. However, Executive Staff play a pivotal role in establishing and addressing institutional culture and promoting and participating in training. A lack of a broad understanding of sex offender specific risk factors requires an intentional training approach led by Executive Staff. They must be out front talking about inmates with a sex offense, expressing an understanding of sex offender dynamics, modeling agency condoned expectations for the understanding and treatment of inmates with a sex offenses, and assisting with institutional trainings. These practices encourage a broader acceptance by line staff.

Institution Response:

The MCC New York Executive Staff are out front talking about inmates with sex offenses, and expressing an understanding of sex offender dynamics, modeling agency expectations for the understanding and treatment of inmates with sex offenses. This is done through departmental meetings, trainings, staff recalls and walking and talking throughout the institution.

Mark Epstein
301 E. 66 Street
New York, NY, 10065

Dear Mr. Epstein:

I am writing to express our condolences to you regarding the passing of your brother, Jeffrey Edward Epstein, who passed away on Saturday, August 10, 2019.

On August 10, 2019, Jeffrey Edward Epstein was pronounced deceased at the New York Presbyterian-Lower Manhattan Hospital in New York, New York. I regret the loss you are suffering under these circumstances. At this time, there are no preliminary reports identifying the exact cause of death. Inmate Epstein's personal effects and funds will be forwarded to you in the near future.

Although I realize that words alone cannot lessen your sorrow, I hope that my thoughts and sincerest sympathy will be of some comfort to you.

Sincerely,

Lamine N'Diaye
Warden
MCC New York

**Subject:** Psychological Reconstruction
**Attachments:** Reconstruction Documentation List Request.docx; Nagle, Robert.vcf

Warden N'Diaye,

Thank you for supporting our scheduling of the Psychological Reconstruction for inmate Epstein. I will be joined by Richard Hollingsworth, Correctional Services Administrator, Northeast Region.

I am attaching a list of materials we will use to complete the reconstruction. We routinely take these documents with us so please ensure you have a copy of any documents you also need. Your assistance in gathering these documents is appreciated and will be helpful.

Organizing and facilitating staff interviews often takes the most time and I am requesting the assistance of an assigned staff member. In the past, wardens commonly have someone from the SIS department or a lieutenant available throughout the reconstruction for this purpose and to track down additional documents as needed.

As discussed we will be staying at the Sheraton Tribeca on 370 Canal Street and appreciate your arranging travel to the institution. We will be ready for pickup at 0715 on Tuesday morning and expect to complete the reconstruction by close of business on Thursday.

Please feel free to contact me with any questions.

Thanks,

Rob

# NATIONAL SUICIDE PREVENTION PROGRAM
# SUICIDE RECONSTRUCTION MATERIALS

(6-30-2015)

The following is a list of requirements, resources and documentation needed to conduct a thorough reconstruction. It is also important to have one person identified who will coordinate documentation collection, interview scheduling, and serve as a contact person for the reconstruction team. Typically, this person would be the SIA. Having the following items collected in a tabulated binder will expedite the review process and ensure that relevant data is examined. Please remember that not all items will be available or applicable to every case. **A copy of this binder will be a permanent record that leaves with the reconstruction team.**

- Cell/Location of Suicide is secured until the arrival of the Reconstruction Team when feasible
- TRU-INTEL Download **Report of Incident (583), 586, & Global Report**
- TRUVIEW Report – Money Received/Sent; Phone Lists; Calls; Email Lists; Messages; Visitor Lists; Visits; Timeline
- Memorandums From Staff (List of All Staff Involved)
- Photographs of Scene, Deceased and Autopsy – Saved to a CD/DVD – **Please do not print**.
- All Video Showing Scene and Staff Response – If none, documentation noting why not – Saved to a CD/DVD
- Video of the Scene for the Eight Hours Preceding Incident – Saved to a CD/DVD
- Police Report when appropriate
- FBI Referral including acceptance or declination
- Inmate Mass Interviews (if applicable)
- Last Staff Member to See Inmate Alive
- Last Inmate to See Inmate Alive
- Sentry Documentation: PP44 Inmate Profile, PP37 Inmate History, 41 Inmate Load Data,10 CMC Clearance and Separtee Data, G0 Security/Designation Data, J8 Assignment History, 15 Chronological Disciplinary Record, PSCD Sentence Data
- SIS Case File Index
  - Receipt of Property Form
  - Evidence Recovery Log (if applicable)
  - Chain of Custody
  - Photograph Logs
  - Coroner's Receipt
- Psychology File (PDS-BEMR)
- Medical Information/Records (BEMR)
- BOP Twenty-Four Hour Death Report
- Multi-Level Mortality Review Report
- Judgment & Commitment Order
- Pre-Sentence Report
- Any Note(s) Left Behind by Deceased
- Most Recent Screening For Risk of Victimization & Abusiveness
- Detailed Time Line (Minute by Minute Breakdown of What Occurred)
- 30 minute SHU rounds for one week prior to suicide if in SHU or secure unit
- Staff Sign-In Log 1 Week Prior to Suicide (SHU)
- Detention Orders
- Secured Personal Property – **Please do not send property home until team arrives and reviews**.
- Notification of Death
- Autopsy Request & Report
- BP 292's & 295's – (SHU Program)

Available for Review Only – **Please do not make copies**:

- Hard Medical File (when one exists)
- Inmate Central File

**MEMORANDUM FOR J. PETRUCCI, WARDEN, METROPOLITAN CORRECTIONAL CENTER, NEW YORK, NEW YORK**

**FROM:** Elissa R. Miller, Chief Psychologist, MCC New York

**THRU:** Charisma Edge, Associate Warden, Programs, MCC New York

**SUBJECT:** **RESUBMITTAL OF PROCEDURAL MEMORANDUM FOR PSY ALERT INMATES**

1. PURPOSE: To establish procedures at the Metropolitan Correctional Center (MCC), New York, New York, with regard to inmates with a PSY ALERT assignment.

2. DEFINITION: The Case Management Activity (CMA) Psychology Alert (PSY ALERT) assignment is applied to inmates with substantial mental health concerns that require extra care when their housing is changed or they are transferred. Generally, the PSY ALERT assignment is to be applied in special mental health cases that will likely pose management and security concerns for the institution when an inmate's housing is changed or when a transfer occurs. The guiding principle of the PSY ALERT assignment is continuity of care. Inmates with a PSY ALERT assignment are reviewed by a psychologist upon arrival. Inmates with a PSY ALERT assignment must always have a face to face interview with a psychologist before releasing to general population. Placement in SHU in lieu of general population is not an acceptable alternative to a face to face interview with a psychologist. If an inmate with a PSY ALERT assignment arrives at the institution during a time period when no psychologist is scheduled to be on duty, the face to face interview is conducted by the Mental Health Duty Officer.

In addition, inmates with a PSY ALERT assignment are reviewed by a psychologist when under consideration for a transfer and when placed in restrictive housing. To ensure this review occurs, applicable inmates receive a PSY ALERT assignment in SENTRY, as described in the Program Statement 5324.007 SENTRY Psychology Alert Function. Enhanced psychological review procedures for inmates with a PSY ALERT assignment are detailed in the above Program Statement, as well as general guidelines for placing an inmate in PSY ALERT status.

3. PROCEDURES: The following are the local procedural guidelines for PSY ALERT Inmates:

   A. Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member from the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is no psychologist in the institution when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in Receiving and Discharge (R&D) and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

   B. Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution.

   C. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips.

   D. The Psychology Services Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Services Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of Psychology Services to assess whether a PSY ALERT inmate is scheduled to attend court the following day.

E. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

F. When an existing PSY ALERT inmate who has already been initially screened by the Psychology Services Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Services Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

G. The Psychology Services Department will conduct training with R&D staff annually and upon re-issuance of this procedural memorandum, to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality.

Office of the Warden

November 13, 2019

MEMORANDUM FOR HUGH J. HURWITZ, ASSISISTANT DIRECTOR,
REENTRY SERVICES DIVISION

FROM: J. Petrucci, Warden, MCC New York

SUBJECT: Institution Response to Psychological Reconstruction
Inmate Epstein, Jeffrey (76318-054)

This is the response to the psychological reconstruction of inmate Epstein, Jeffrey (76318-054) dated September 17, 2019.

1.Single Celling: It is recommended that all inmates be double-celled unless safety concerns or an odd number of inmates precludes this. Priority should be given to inmates with a history of mental illness, self-directed violence, recent stressors (e.g., losses, newly sentenced, etc.)

It is recommended that a system of control be implemented explaining who will be notified when a Suicide Watch or Psychological Observation ends and how that communication will take place. Because this is a life safety issue, the system of control, once approved by the warden, should be reviewed in formal meetings such as staff recalls, department head meetings, and lieutenants meetings.

**Institution Response:** 1. Single Cell Placement:

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

EFTA00049838

Psychology verbally notifies the Operations Lieutenant when inmates are removed from suicide watch and that they will need to be placed with a cellmate. Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting. The C&A officer is responsible for entering the proper assignment.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

2. Rounds: 30-minute rounds are required by P5500.14, Correctional Services Procedures Manual.

**Institution Response:** 2. Rounds:

SHU training is conducted quarterly in which emphasis will be placed on the importance of diligent rounds within the policy guided timeframes. In addition, the SHU Lieutenant will review documentation (SHU Round Sheets) on a daily basis and provide the Captain with an assurance memorandum of their completion weekly. SHU Rounds sheets will be maintained on the specified range to ensure officers are completing required rounds. A staff member must observe all inmates confined in continuous locked down status, such as administrative detention or disciplinary segregation, at least once in the first 30 minute period of the hour, followed by another round in the second 30 minute period of the same hour, thus ensuring an inmate is observed at least twice per hour. These rounds are to be conducted on an irregular schedule and no more than 40 minutes apart. All observations must be documented. Closer observation may be required for an inmate who is mentally ill, or who demonstrates unusual or bizarre behavior. These inmates have been identified with an orange photographic door tag to ensure staff are aware to take more security pre-cautions in dealing with this inmate. Two hour Captain video review and six hour IDO video review are being conducted.

3. Cellmate Assignments: When Mr. Epstein was placed in SHU on July 7, 2019, Executive Staff decided Mr. Tartaglione would be his cellmate. As explained by Dr. Miller, input was not sought from Psychology Services and it is not clear if or how sex offender-specific needs and associated risk were incorporated into the housing plan. Mr. Tartaglione was also a high profile inmate-an ex-police officer charged in multiple murders. However, he and Mr. Epstein did not share the risk associated with being a sex offender and their pairing may have aggravated Mr. Epstein's risk for self-directed violence. In an effort to treat Mr. Epstein the same as other inmates, a statement repeated by multiple staff, Executive Staff may have inadvertently overlooked the need to consider unique risk factors associated with individuals who have been charged with and convicted of a sex offense. On July 25, 2019, Dr. Miller sent an e-mail to Shirley Skipper-Scott, Associate Warden explaining a consultation between Dr. Miller and Dr. Nagle, National Suicide Prevention Coordinator. In the e-mail, Dr. Miller Reviewed the consult and recommendation from the Psychology Services Branch, Central Office that Mr. Epstein be housed with another inmate who had also been accused of committing a sex offense. There is no evidence this information was considered beyond this e-mail, and Mr. Epstein was never housed with another inmate charged or convicted of a sexual offense.

It is recommended Executive Staff and Correctional Services staff include a psychologist in decisions about cellmates as a means of incorporating expertise about suicide risk, mental health needs, and interventions for psychological stability.

EFTA00049839

**Institution Response:** 3. Cellmate Assignments:

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology Services discuss the inmate's needs. The Legal Department also assists when the inmate's attorney or court are concerned about an inmate's mental health. Psychology Services are involved in making recommendations regarding the types of cellmates with whom inmates at-risk for suicidality should celled. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and shares their knowledge with Executive Staff.

The psychological reconstruction team suggests MCC New York Executive Staff did not take into account Mr. Epstein's sex offender-specific needs in assigning him a cellmate in SHU. However, that is not correct. MCC New York Executive Staff considered a variety of factors in determining the most appropriate cellmate for Mr. Epstein, including but not limited to history of sex offenses, nature of the inmate, cooperation status, etc.

MCC New York administrators initially housed Mr. Epstein with Mr. Tartaglione as both had high profile cases. Mr. Tartaglione is also a certified death penalty eligible inmate and, thus, based on correctional judgment, less likely to assault or otherwise try to harm Mr. Epstein. Indeed, Mr. Tartaglione notified staff immediately when he realized Mr. Epstein first made a possible suicide attempt/gesture on July 23, 2019.

Prior to Mr. Epstein being taken off suicide watch, MCC New York Executive Staff, with input from Psychology staff, assessed all the inmates in SHU at that time and narrowed the list down to the most appropriate candidates. Mr. Tartaglione was not chosen as the investigation at the time had not yet cleared him of any wrongdoing. Most of the other inmates in SHU at the time were there for disciplinary reasons and were otherwise not appropriate to be housed with Mr. Epstein. The other notable inmate in SHU with a history of sex offenses, Mr. Hoyt, was deemed dangerous to Mr. Epstein due to his threatening nature. Accordingly, MCC New York Executive Staff narrowed the possibilities to cooperators. Specifically, Efrain Reyes, Register Number 85993-054, was placed in SHU for claims he was being threatened and extorted on his unit, and he was confirmed as proffering with the U.S. Attorney's Office. As both he and Mr. Epstein were in SHU for safety reasons, Mr. Reyes was deemed an appropriate cellmate.

Based on the above, consideration was made for Mr. Epstein's sex-offender-specific needs in choosing his cellmate in SHU. His charged crime was just one of the factors reviewed in making the determination. MCC New York Executive Staff also considered high publicity inmates with ample reasons not to hurt Mr. Epstein, and cooperators who are not only vulnerable themselves, but also had a lot to lose should they harm Mr. Epstein.

4. Documentation Accuracy: On July 23, 2019, Mr. Epstein was found unresponsive in his cell. He had abrasions on his neck and knee. There are inconsistencies between documents describing the circumstances of the scene. In a General Administrative Note in PDS-BEMR, Dr. Miller documented information received from Operations Lieutenant Glenda Anderson that Mr. Epstein, "was found with a string loosely hanging around his neck." In contrast, Officer Wilson Silva, who responded to this emergency, wrote a memorandum dated July 23, 2019. In that memorandum, Officer Silva wrote he saw Mr. Epstein "laying down near his bunk with what appeared to be a piece of handmade orange cloth around his neck." It is critical that all descriptions of the incident accurately reflect objective evidence.

Officer Joseph Masullo wrote Mr. Epstein an incident report for Self-Mutilation on July 23, 2019, after he was found unresponsive in his cell but prior to having the necessary facts to determine whether he likely engaged in a Bureau violation. BOP Policy expects staff to write an incident report within 24 hours of having the information that an inmate likely violated BOP rules but without making a presumptive decision about guilt. A Special Investigative

EFTA00049840

Services Threat Assessment was completed August 2, 2019, but results were inconclusive as to whether Mr. Epstein engaged in self- directed violence, willingly fought with his cellmate, or was assaulted by his cellmate. It is recommended that staff remain open to all reasonable explanations for a behavior and take the appropriate actions when a final determination is made. Although the incident report was later expunged, inmates frequently experience significant stress when they contemplate the potential consequences associated with findings of guilt.

Dr. Schlessinger entered a Psychology Services Intake Screening into PDS-BEMR on July 8, 2010. The document has three typographical errors. She selected the No Sexual Offense Convictions check box when, in fact, Mr. Epstein was previously convicted of Solicitation of Prostitution and Procuring a Person Under the Age of 18 for Prostitution. Second, Mr. Epstein was erroneously identified as a Black male in this document. Finally, there is one instance where he was mistakenly referred to as Mr. Brown.

Dr. Schlessinger completed a Risk of Sexual Abusiveness document on July 8, 2019. She marked "History of prior prison sexual predation" in the affirmative. This is not accurate.

Ysmael Joaquin, Mid-Level Practitioner, completed a History and Physical on July 9, 2019. An Intake Screening should have been conducted within 24 hours of his entry into Bureau custody which was on July 6, 2019, according to P6031.04, Patient Care.

Officer Alwin Thomas was responsible for observing Mr. Epstein and documenting his behavior while on suicide watch on July 23, 2019. Officer Thomas mistakenly used a Suicide Watch Log Book intended for inmate companion documentation between 1:40 a.m. and 6:00 a.m. on July 23, 2019, when he should have been using the Staff Suicide Watch Log Book. Ms. Kenya Coates, Drug Treatment Specialist, reportedly noticed this error and subsequently hand copied all of Officer Thomas' entries from 1:40 a.m. to 6:00 a.m. into a Staff Suicide Watch Log Book. She then initialed these entries, and this makes it appear as if she was the one conducting the watch. This information was discovered and conveyed in an e-mail from Ms. Charisma Edge, Associate Warden to Dr. Schlessinger with a carbon copy to Warden N'Diaye on August 12, 2019. Of note, Ms. Coates did not make an entry explaining why she was making the log book changes. Additionally, Ms. Coates then wrote entries for 6:15, 6:30, 6:45 and 7:00 a.m. in the Staff Suicide Watch Log Book. These were not a part of the original entries made by Officer Thomas nor was Ms. Coates assigned to work the Suicide Watch post. Due to the inability to interview staff at this time, it is unknown why Ms. Coats attempted to correct Officer Thomas' error, or made any of the subsequent log entries. It is recommended that if a staff member makes an entry error (e.g., writes in the incorrect suicide watch log book), the staff member should describe the error in the correct log book, to include indicating when they became aware of the error. The staff member should then notify the Chief Psychologist.

A review of Special Housing Unit Records (BP-A0292) revealed a number of incomplete entries. This document is used to monitor provision and receipt of basic services such as recreation, medical rounds, showers, meal consumption, etc. The Officer in Charge signature is missing on 10 occasions and a medical provider's signature is missing in seven instances. There are six instances in which it is not clear if Mr. Epstein ate his meal. There are nine instances in which it is not clear if Mr. Epstein took a shower. There are ten instances in which it is not clear if Mr. Epstein was offered recreation. P5500.15, Correctional Services Manual requires accurate and complete information on the BP-A0292.

A review of Psychology Observation Log Books revealed significant discrepancies from the approved Psychological Observation Procedural Memorandum, dated April 15, 2019. A Correctional Officer is required to complete hourly rounds and sign the log book.

179 out of 183 round signatures were missing. The lieutenant is required to sign the log book one time per shift and signatures were missing in 10 of 23 instances. A Physician Assistant is required to sign one time per shift and 16 of

16 instances were missing. It is recommended that a further review of Psychological Observation procedures be conducted.

**Institution Response:** 4. Documentation Accuracy:

The Reconstruction team indicates it is critical that all descriptions of the incident accurately reflect objective evidence, and references Psychology staff's reliance on differing statements from two different staff regarding the July 23, 2019 incident. Psychology staff considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each person's self-report of a situation as they may be perceived differently.

In reference to typographical errors noted in PDS/BEMR notes, the Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

Regarding the Reconstruction team's concerns in reference to Mr. Epstein's expunged incident report, staff shall continue to follow Program Statement 5270.09, *Inmate Discipline Program* in writing incident reports as appropriate. As more complex matters (including attempted suicide) warrant, Special Investigative Services staff will conduct appropriate investigations and make a determination as to whether an incident report is warranted. Psychology Services staff will also be consulted where their expertise is required.

The Reconstruction team stated medical staff conducted Mr. Epstein's Intake Screening late. SENTRY records reflect Mr. Epstein arrived in MCC New York's Receiving and Discharge (R&D) area on July 6, 2019, at approximately 9:24 p.m. His medical Intake Screening was conducted at approximately 9:38 p.m., by Physician Assistant (PA) Kang on the same night and approximately 14 minutes after his arrival in R&D. On July 9, 2019, he was placed on Psychological Observation and at approximately 12:38 p.m., he was escorted from Psychological Observation to Health Services for a Medical Assessment and a History and Physical, which was performed by PA Joaquin within three (3) days of his arrival. According to Program Statement 6031.04, *Patient Care*, a provider must perform a History and Physical within 14 days of the inmate arriving at BOP facility. The History and Physical and Intake Screening were conducted timely and in accordance to policy.

Regarding use of the incorrect Suicide Watch Log and the re-creation thereof, the Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch and Operations Lieutenants document in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

Incomplete entries were noted in the BP-292s. SHU training is conducted quarterly, in which emphasis will be placed on the importance of proper 292 documentation. In addition, the SHU Lieutenant will review 292s on a daily basis and provide the Captain with an assurance memorandum. 292s will be printed for the previous week every Sunday, and the SHU Lieutenant will acquire any needed signatures from the respective OICs in a handwritten manner.

The Reconstruction team findings noted discrepancies in the procedures approved for Psychological Observation.

EFTA00049842

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, correctional staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

5. Telephone Calls: In a PDS-BEMR note written by Dr. Miller on July 16, 2019, she was informed by an unnamed staff member that a lieutenant facilitated two telephone calls for Mr. Epstein. It is unknown when and to whom these calls were placed and no evidence that they took place on a monitored telephone.

According to a memorandum from Unit Manager Nathaniel Bullock on August 10, 2019, Mr. Epstein terminated his legal visit early on August 9, 2019, in order to place a telephone call to his family. Mr. Bullock (who was the Institutional Duty Officer that week) escorted Mr. Epstein to SHU around 7:00 p.m. that evening and he was placed in the shower area on G tier. While there, he was provided the telephone to make a call.

Since Mr. Epstein reportedly did not have his PAC or PIN number, which is required to use the inmate telephone system, the Unit Manager placed the call, dialing a number that reportedly began with area code 347. Mr. Epstein told Mr. Bullock he was calling his mother who, according to public records, has been deceased since 2004.

It is recommended that all telephone calls, other than legal calls, be made on monitored lines to be available for post-call review or on a speaker phone so staff can monitor what is discussed.

**Institution Response:** 5. Telephone calls:

There is no documentation to substantiate that a Lieutenant facilitated two telephone calls to Mr. Epstein. However, there is documented evidence that Unit Manager Proto provided a call to Mr. Epstein on July 30, 2019, at 5:15 p.m., to a Karina Shaliak, friend, on a monitored telephone/speaker phone. The call was documented in a log that is maintained in the Correctional Systems Department. Mr. Epstein was provided a call because he had not been able to conduct voice recording on the inmate telephone. This is standard procedure by the Unit Team at MCC New York, to occasionally provide a call to new arrivals, when necessary.

6. Direct Observation: Mr. Epstein was on suicide watch from July 23, 2019, until July 24, 2019. While on suicide watch on July 23, 2019, Mr. Epstein attended an Attorney visit from approximately 12:40 p.m. until 7:15 p.m. During this time, he was without "direct, continuous observation" by a dedicated BOP staff member as required by P5324.08. While on Psychological Observation, he attended attorney visits on July 24, 2019, for 11.25 hours; on July 25, 2019, for 11.25 hours; on July 26, 2019, for 9.25 hours; on July 27, 2019, for 11.33 hours; on July 28, 2019, for 10.5 hours; and on July 29, 2019, for 8 hours. On July 30, 2019, Psychology Observation was terminated. During these visits, continuous observation by a dedicated BOP staff member was not maintained as required by MCC New York's Procedural Memorandum for Psychological Observation.

**Institution Response:** 6. Direct Observation:

The Psychology Department has eliminated Psychology Observation at MCC-NY. Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

EFTA00049843

7. Follow-Up: Mr. Epstein arrived at MCC New York on Saturday, July 6, 2019. While conducting the 10:00 p.m. institution count that evening, Elba Torres, Facilities Assistant reported she observed Mr. Epstein in his cell. In an e-mail she sent to Drs. Miller and Imeri and Lieutenant David Medina later that evening, she described Mr. Epstein as "distraught, sad and a little confused." She said she then asked Mr. Epstein if he was okay, and he reportedly said he was. However, Ms. Torres noted in her e-mail she was not convinced of this, adding, "He seems dazed and withdrawn." She went on to say, "So just to be on the safe side and prevent any suicidal thoughts can someone from Psychology come and talk with him." Despite the fact that Lieutenant Medina opened the e-mail there is no evidence that he contacted the on-call psychologist as is required by P5324.08, Suicide Prevention Program. Additionally, if Ms. Torres was concerned about suicide risk, P5324.08, Suicide Prevention Program, requires her to maintain direct, continuous observation of Mr. Epstein. When Dr. Miller opened the e-mail the following Monday morning, Mr. Epstein was evaluated by Dr. Schlessinger at approximately 9:30 a.m.

Mr. Epstein was denied bail on Thursday, July 18, 2019. This was a significant disappointment for Mr. Epstein and likely challenged his ability and willingness to adapt to incarceration. Given the potential impact of the judge's decision, a psychologist should have assessed Mr. Epstein's mental status upon his return to the institution. The BOP developed a SENTRY assignment of PSY ALERT for purposes such as this.
Specifically PSY ALERT is used "to ensure, if movement occurs, that all staff consider the special psychological and management-related risks associated with the inmate." Furthermore, P5324.07, SENTRY Psychology Alert Function states, "When a decision to move [any PSY ALERT] inmate occurs, any special psychological needs of the inmate are reviewed and considered by Psychology Services staff [and] any safety and security concerns are highlighted for non-Psychology Services staff." Psychologists should use the PSY ALERT assignment more frequently with high profile cases and with inmates who have a history or charge of sex offense. Both of these groups of inmates are susceptible to exaggerated or unrealistic fears about correctional settings and experience stress associated during movement and periods of transition (e.g., cell/unit changes, movement to and from court, institutional movement, and release of information through the media).

Mr. Epstein was reportedly in court on July 31, 2019. It is unknown what time he departed or returned to MCC New York because this information was not entered in SENTRY. Regardless, upon his return, the United States Marshals Service (USMS) provided R&D staff with a Prisoner Custody Alert Notice regarding Mr. Epstein. The notice indicated Mr. Epstein had "MTL Mental Concerns Suicidal Tendencies." The USMS requested R&D staff sign the form, and they then departed with the signed copy. On August 1, 2019, at 8:46 a.m., Dr. Imeri sent Dr. Miller an e-mail reporting she had just become aware of the above information. In the absence of additional information about this notation, this should have been considered a referral to Psychology Services about a potentially suicidal inmate and procedures should have been followed as outlined in P5324.08, Suicide Prevention Program. Specifically, when a staff member becomes aware an inmate may be thinking about suicide during normal working hours, that staff member must contact Psychology Services and maintain the inmate under direct,continuous observation until he is placed on Suicide Watch or seen by a psychologist. There is no evidence Mr. Epstein was monitored under these conditions from the time he returned from court until he was seen by Dr. Imeri for a suicide risk assessment on August 1, 2019, at approximately 1:30 p.m.

**Institution Response:** 7. Follow Up:

Staff have been trained that it is required that they make verbal contact with either Psychology Staff or a Lieutenant when they have concerns for an inmate's mental health. If Psychology Staff is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden are notified.

As part of their signature block, all Psychology staff have added the following: "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact

(verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately on classification and/or identification, and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed immediately prior to being released to a unit.

R&D staff have been reminded of the U.S. Marshal and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology Staff is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden are notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

Inmates who initially enter and/or transfer into the institution with a PSY ALERT assignment will be seen by a member of the Psychology Services Department immediately and prior to being released to the general population. R&D will review the PP44 code and Intake Screeners will utilize the PP64 to determine if inmates entering the facility have a PSY ALERT assignment. If there is not a psychologist in the building when a PSY ALERT inmate is identified and/or if it is during non-duty hours, the Operations Lieutenant will immediately be notified and will then contact the on-call psychologist. The on-call psychologist will come in after hours to screen the inmate in R&D and determine their appropriateness for general population, as well as any other pertinent housing considerations, prior to the inmate's release to general population.

Inmates may also be assigned a PSY ALERT function code by a psychologist while housed at this institution. Psychologists will consider not only inmates with substantial mental health concerns for a PSY ALERT assignment, but will use PSY ALERT codes frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied immediately and not just when an inmate is about to leave the institution.

The attached institutional procedural memorandum has been reviewed by Central Office Psychology Services and implemented by MCC New York Psychology Services to outline the follow-up procedures when existing PSY ALERT inmates return from trips such as court proceedings and hospital trips. If any movement occurs with an existing PSY ALERT inmate, psychology must be verbally notified immediately when the inmate returns back to the institution. This would include movement from court, institutional movement, or hospital trips. The Psychology Department will also be notified of a PSY ALERT inmate's movement prior to the inmate leaving. The Psychology Department will be provided with the court lists as well as the Prisoner Schedule Report on a daily basis. These reports will be reviewed daily by a member of the psychology department to assess whether a PSY ALERT inmate is scheduled to go out to court the following day.

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court with a notice from the Judge or Marshal's Office indicating imminent mental health concerns or concerns related to suicidality, the PSY ALERT inmate will be seen by a psychologist immediately and prior to their return to general population. A psychologist will determine at that time if a PSY ALERT inmate is ready to return to general population, their psychological stability, and their treatment needs. If the inmate returns after hours and there is no psychologist in the institution, the PSY ALERT inmate will be placed on suicide watch pending a suicide risk assessment by a psychologist. The Operations Lieutenant, On-Call Psychologist and Warden will be notified.

EFTA00049845

When an existing PSY ALERT inmate who has already been initially screened by the Psychology Department returns from court routinely, and without a notice from the Judge or Marshal's Office, they will be screened by a member of the Psychology Department within 24 hours to assess if they are experiencing any significant distress regarding their court proceedings that may be exacerbating their mental health difficulties and/or risk factors.

Per guidance from Central Office Psychology Division, the Psychology Department will conduct a training with R&D staff to help train them about PSY ALERT inmates and to recognize signs of psychological distress and suicidality. Suicide Prevention and PSY ALERT Trainings have recently been conducted by the Psychology Services Department with Lieutenants and during a recent Department Head Meeting. Further, an e-mail regarding PSY ALERT procedures was sent to all Lieutenants, Receiving and Discharge (R&D), Psychology and Health Services staff.

8. Inmate Accountability and Assignment Accuracy: According to a SENTRY quarters roster generated on August 10, 2019, at 12:51 a.m., there were three inmates assigned to Mr. Epstein's SHU cell, Z04-206LAD, including him, at the time of his death. However, his SHU cell was only a double occupancy cell. Inmate Patrick Avila (#86710-054), inmate Gregory Ferrer (#79793-054), and Mr. Epstein were all assigned to the same cell. On August 13, 2019, at 12:06 p.m. and 12:08 p.m., a quarters history roster was generated for inmate Avila and Ferrer, respectively. Inmate Avila's cell assignment was Z04-206LAD from August 5, 2019, until August 11, 2019, when he was moved to cell Z04-212UAD. Inmate Ferrer's cell assignment was Z04-206UAD from August 1, 2019, until August 11, 2019, when he was moved to cell Z04-207LAD. A quarters history roster was generated for Mr. Epstein on August 13, 2019, at 9:07 a.m. His cell assignment was Z04-206LAD from July 29, 2019, until August 10, 2019.

On Monday, August 12, 2019, photographs of nametags on SHU cell doors and SHU locator forms were sent to the Correctional Service Department in the Northeast Region. The SHU locator form is dated August 9, 2019. It shows inmate Ferrer in cell 207L (SENTRY states he was moved to this cell on August 11, 2019), inmate Avila in cell 212U (SENTRY states he was moved to this cell on August 11, 2019), inmate Epstein in cell 220L (SENTRY never shows him in this cell) along with inmate Reyes (#85993- 054). The locator shows inmate Copper (#92299-054) and inmate Dockery (#60685-050) in cell 206. The photo sheets show the cell being 220 with inmates Epstein and Reyes' identification cards on the door. Inmate Reyes, Efrain, Reg. No. 85993-054 was in cell Z06-220U from August 5, 2019 to August 9, 2019.

MCC New York has four suicide watch cells and each is for single occupancy use. The suicide watch cells are located in Health Services. Each cell is abbreviated with the unit code HO1 in SENTRY followed by the four-digit cell number. The doors are identified by a painted number from one to four. Two reviews were conducted. The first revealed Mr. Epstein was in H0l-00lL according to SENTRY but the Suicide Watch Log Books indicate he was in cell 4. A second review was conducted on August 13, 2019, while there were four inmates on in these cells. SENTRY showed two inmates assigned to HOl-00lL, one assigned to H01-002L, and the fourth inmate assigned to a general population housing unit. Through physical observation of the dedicated suicide watch cells there were four H0l cells, however a review of the BOPWARE Inmate Housing Format, only shows three cells.

Inmate movement and assignments are not accurately reflected in SENTRY as required by P5500.14, Correctional Service Procedures Manual.

**Institution Response:** 8. Inmate Accountability and Assignment Accuracy:

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily SENTRY roster of all the inmates on suicide watch in that area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with

EFTA00049846

the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have SENTRY Assignments of H01-001L – H01-004L. Further, Psychology Services Department reviews suicide watch log books on a daily basis to assess whether the Lieutenants have conducted rounds during each shift and whether the Unit 2 Sallyport and Unit 2 Officers are conducting hourly rounds. Any inconsistencies noted in the logbooks by Psychology staff will be reported immediately to the Captain and the Associate Warden over Programs to address appropriately.

The Operations Lieutenant will physically check the PP30 Cell Assignment Roster when inmates are quartered on suicide watch. The Lieutenant will ensure the Counts and Assignments (C&A) Officer keys cell assignments correctly and annotate any errors in the daily log and contact the Captain immediately. Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 with the selection category for suicide watch. The Operations Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into accurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff by telephone when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the Warden upon receiving said notification. After consultation with the Warden, Psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

To ensure inmates are assigned to the correct cell inside the Special Housing Unit, periodic and unannounced checks are conducted. Specifically, SENTRY Roster PP30 Quarters assignments are audited daily by the SHU Lieutenant. Executive Staff also conduct routine bed book counts in all units. Any and all discrepancies identified are addressed. Results will be maintained by Correctional services in the Lieutenants Log. The Morning Watch Lieutenant is responsible for observing one count during his or her shift in SHU which is documented daily in the Lieutenants Log.

In order to properly account for inmates in the unit, staff have been informed not use the Inmate Locator Form, due to the forms being unreliable in accounting for inmates and cell assignments. A Unit Accountability Board along with a SENTRY PP30 Quarters Roster have been placed in the unit to establish better oversight over inmate accountability.

Correctional Staff are required to perform routine rounds of the second floor suicide watch area every hour. On Day watch, Monday through Friday, the 2 Sally Officers are required to perform rounds on suicide watch inmates, as prescribed by the Captain. After hours, the Unit 2 Officer will be responsible for making rounds, serving meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 Officer assisting with duties as assigned by the Captain. To ensure that staff are informed of the importance of Suicide Prevention and responsibilities when one occurs. Lieutenants will reinforce the message through conference calls with staff. Roll Call notes will be placed on TRUSCOPE to notify staff of which inmates are currently on suicide watch.

9. Attorney Log Books: Four log books were not secured following Mr. Epstein's death. Specifically, three Attorney Log Books located in the Attorney Visiting and Front Lobby areas and an Inmate Search Log Book located in the Attorney Visiting area were not secured. All four books were still in use at the outset of the reconstruction and after the reconstruction team advised staff to secure them. P5324.08 states, "In the event of a suicide, institution staff, particularly Correctional Services staff, and other law enforcement personnel, will handle the site with the same level of protection as any crime scene in which a death has occurred." This policy further states, "All possible

EFTA00049847

evidence and documentation will be preserved to provide data and support for subsequent investigators doing a psychological reconstruction."

Further, a review of the attorney log books identified many errors and signify a systemic concern. For example, there were two concurrently open attorney log books in the Attorney Visiting area. Further, the different purposes of the two attorney log books, one in the Attorney Visit area and one in the Front Lobby, could not be explained. BOP staff were unable to articulate a system of control for the log books, and during the reconstruction, some of the log books could not be accounted for. Within the log books, entries were made out of chronological order, attorneys did not consistently sign in and out, significant information was illegible or missing, columns were not consistently labeled, log book opening and closing dates were inconsistent, and the cover had been tom off of several books. At the current time, these log books are not functioning as an adequate system of control and monitoring.

**Institution Response:** 9. Attorney Log Books:

On August 10, 2019, log books deemed relevant to the investigation were removed from various locations throughout the facility. The Reconstruction Team did identify pertinent logbooks that had not been secured. At this time, all relevant logbooks have been removed and replaced. In addition, a logbook audit was conducted to ensure accuracy of the documentation and compliance with policy. Measures are being taken to ensure in the future that all relevant logbooks are identified, secured immediately and replaced with new ones to ensure the institution can continue to run efficiently.

10. Automatic External Defibrillators: A review of available AEDs in the institution revealed that the list used for accountability and inspection purposes was inaccurate and incomplete.

**Institution Response:** 10: Automatic External Defibrillators:

A review of the Automatic External Defibrillators (AED) report presented by Great Lakes Biomedical Services dated July 22, 2019, revealed that all AEDS were accounted for and were placed in the correct respective areas. The report was accurate and complete. New AEDs have been purchased and will be inspected Great Lakes Biomedical Services upon their arrival. The list reviewed by the reconstruction team was an old and outdated list from January 8, 2018.

Medical staff provides training and conducts monthly inspections of all AEDs in the institution. Great Lakes Biomedical Services, an outside contractor, conducts a bi-annual inspection and provides a report. Procedures on inspecting all AEDS in the institution have been prepared and are awaiting approval. These procedures are attached hereto.

11. Post Orders & SHU Training: SHU Post Orders Sign-In Sheets were reviewed for the 3rd Quarter, spanning June 9, 2019, to September 7, 2019. Officer L. Grey failed to sign post orders for SHU #3 post.

Quarterly SHU Training Sign-In Sheets were reviewed. The 2019 3rd Quarter SHU Training was conducted on June 6, 2019. Three staff assigned to the 3rd Quarter SHU Roster in SHU did not attend or receive the SHU Training: Officer David Dubenezic, Officer Miguel Monge, and Officer Roberto Grijalva.

**Institution Response:** 11. Post Orders & SHU Training:

The Suicide Watch Post Orders are located in the Lieutenant's Office and SHU with a quarterly sign-in sheet. A copy of the Suicide Watch Post Orders will also be placed in a secure container outside of the suicide watch cells on Tier H in SHU. This container will also hold signature sheets and additional Staff Suicide Watch Log Books.

EFTA00049848

All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch. Attached please find a copy of the NERO Waiver permitting staff monitored suicide watches in SHU.

With regard to SHU Suicide Prevention training, this continues to be conducted on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, the sign-in sheet will be routed to the Captain, who will coordinate with the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

SHU training is conducted quarterly two weeks from the beginning of the new quarter. A representative from Psychology will provide the required suicide prevention training. In addition, the SHU training on BOPLEARN will be completed by all staff assigned to SHU that day of training. SHU staff will be allotted time during that day to complete all prescribed web-based training as identified on the agenda. Staff who are assigned to SHU but have not received the mandatory training before assuming the post will be roster-adjusted to attend another training day as assigned by the Captain.

Staff assigned to suicide watch shall maintain a chronological log of the inmate's behavior. Blank log books will be maintained in the Lieutenants office and on the 2nd Floor. A chronological record of events will commence immediately upon the initiation of watch. It is the responsibility of the staff member initiating the watch to obtain a blank log book prior to initiating the watch. Different log books will be used for each inmate on suicide watch; each log book will contain entries for one suicide watch only. The name and register number of the inmate on watch shall be clearly printed on the front cover of the log book and at the top of each page in the log book in which entries are made.

During some suicide watches, staff observers may cover some shifts and inmate companions may cover others. In this instance, two separate log books must be used: one for the shifts during which staff are maintaining constant visual observation (blue) and another for shifts during which inmate companions are providing constant visual observation (yellow). When separate inmate companion log books are used, staff must sign the inmate companion log book every 60 minutes.

Lights will remain on inside the cell 24 hours day to ensure the inmate on watch can be seen. A Lieutenant will make rounds every shift and remove the inmate from the cell and perform a cursory search. No food items, trays, eating utensils, milk cartons, toilet paper, plastic bags, reading materials, pens, pencils, or anything else not prescribed by Psychology staff should be in the cell.

The inmate will be outfitted in a suicide preventive smock, suicide preventive blanket, suicide preventive mattress and if necessary a suicide preventive helmet. Inmate Companions will be searched prior to assuming duties. Inmate Companions are not allowed to have radios, mp3 players, magazines, books or anything that would distract them from maintaining constant supervision. Inmate Companions will not have direct or physical contact with inmates on suicide watch.

12. Staffing: The Drug Abuse Program Coordinator positon at MCC New York was abolished during Phase I of the staff realignment during fiscal year 2018. Re-establishing
the Drug Abuse Program Coordinator position would provide the institution with an additional supervisory psychologist to provide critical clinical services.

Staffing in the Correctional Services department is relevant to the reconstruction. However, the details about this topic are provided in an After Action Review completed separately from this report.

EFTA00049849

**Institution Response:** 12. Staffing:

The Drug Abuse Coordinator position is currently a shared position. The Warden has re-established the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position is pending selection.

We are currently in the process of requesting to hire a Staff Psychologist position to provide additional psychological services to inmates in the SHU, including therapy sessions with PSY ALERT, CC2-MH and CC3-MH inmates who are currently housed there. An additional psychologist could also monitor Hot List inmates arriving to the SHU and ensure they are housed with appropriate cellmates. This psychologist could conduct daily rounds to look for signs of psychological distress and address the concerns of our Long Term SHU inmates. Finally, an additional Staff Psychologist could assist with our daily crisis interventions and suicide risk assessments.

13. Sex Offense Risk Factors: A broad understanding of risk factors associated with sex offenders, by staff at MCC New York, did not appear to be present in all staff but was vital to his adjustment and safety in prison. A more focused management strategy is recommended, particularly in complex and high profile cases. Supplemental training on sex-offender specific risk factors is recommended for all staff and should be provided by Executive Staff and Psychology Services.

**Institution Response:** 13. Sex Offense Risk Factors:

The Chief Psychologist is a member of the Executive Staff. The Chief Psychologist or her designee continues to be present at all Executive Staff meetings, Department Head meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Introduction to Correctional Techniques (ICT) and Annual Training (AT) about the sex offender specific risk factors and suicidality.

November 5, 2019

**MEMORANDUM FOR JEFFERY D. ALLEN, M.D., MEDICAL DIRECTOR**
**WASHINGTON, DC**

**FROM:** J. Petrucci, Warden

**SUBJECT:** Multi-Level Mortality Chart Review
Consultant's Comments

This memorandum is in response to the multi-level mortality review dated October 29, 2019, whereas, several recommendations were made concerning the Automated External Defibrillators (AEDs) at MCC New York.

Please see the attachment, which addresses your recommendations. If you have any questions or concerns, please do not hesitate to contact me at 646-836-7700.

**MCC New York**

**Procedures for Monitoring, Testing and Inspecting Automated External Defibrillators (AEDs)**

This procedural statement outlines procedures for monitoring, inspecting and testing all Automated External Defibrillators (AED) at MCC New York.

1. Every month, the Health Services Administrator (HSA) or designee will conduct an inspection and testing of all AEDs and document the findings on an inspection form. The inspection will consists of inspecting the condition of the batteries and pads and checking the expiration date, control number and location of all AEDs in the institution, to ensure they are properly functioning. All AEDs "in service and out of service" will be tested. This information will be reported to the quarterly Governing Body meeting, for one year.

2. All AEDs will be inspected and tested bi-annually by the contract biomedical company and a report will be provided by the company.

3. Back up batteries (LIFEPAK 1000) are available and are checked as per the manufacturer's recommendations, which are:

a. Inspect the fuel gauge, which provides an easy way to determine the available battery capacity.
b. Do not attempt to recharge.
c. Do not allow electrical connection between the battery contacts.
d. Use and store batteries in a location where temperatures are between 20° and 30°C (68° and 86°F). Higher temperatures accelerate the loss of charge and decrease battery life. Lower temperatures reduce battery capacity.
e. Dispose of expired or depleted nonrechargeable batteries according to national, regional and local regulations for battery disposal.

JONATHAN ORMOND

**MEMORANDUM FOR J. RAY ORMOND, REGIONAL DIRECTOR**

**FROM:** L. N'Diaye, Warden

**SUBJECT:** Request for Renewal of the SW Room Waiver

We are requesting the annual renewal of the suicide watch room waiver from Program Statement 5324.05, Suicide Prevention Program. On June 18, 2018, M.D. Carvajal, Regional Director, approved the use of additional suicide prevention rooms based on the unique custody and security requirements of this facility. This wavier is always reviewed on a yearly basis. Furthermore, it is worth noting the cells have been renovated to meet the requirements for a suicide prevention room. The additional suicide prevention rooms are as follows:

- 1 room on 9 South (Special Housing Unit)
- 2 rooms on 10S Lower – (H Tier-Administrative Maximum Detention)
- 1 room on Unit 2 (Female Unit)
- 1 room on the WITSEC Unit.

If you have any questions or concerns, please do not hesitate to contact me.

| **Basis of Review:** | Inmate was interviewed | **Adjustment:** | Satisfactory, segregation not detrimental |
| **Mental Status:** | No significant mental health issues. | **Threat to Others:** | Low |

**Comments**

Monthly SHU Review Note

Note: This SHU review is a brief evaluation of this inmate's current mental status in SHU. Although an inmate may exhibit adequate adjustment to his SHU confinement and a lack of acute distress at this current time, it does not preclude the fact s/he may suffer from a psychological disorder requiring additional psychological services. This SHU review is also not a risk assessment of an inmate's potential for violent behaviors. Rather, it is an assessment of whether the inmate exhibits any aggressive or violent behaviors at the time of the SHU review.

Subjective/Objective data: Inmate displayed no evidence of depression or suicidality and appeared to be adequately adjusting to SHU placement. This adjustment was determined by clinical presentation, his self report and Unit personnel statements.

Assessment/Plan: Inmate is currently psychologically stable. He has been instructed to contact Psychology Department staff for support should he request, or be in need of mental health services. Unit staff are aware of the referral process. Inmate will be seen on an as needed basis or monthly for SHU reviews.
